COMMENT DESCRIPTION:

I am writing to request that the pending First Energy rate increase be denied or greatly reduced. I was forced to take other employment and move to Texas as a result of the recession which continues today. I own the home in Chagrin Falls and was forced to rent it out because of the crash in values in the home sales market in Northeast Ohio. My property is an all electric home. If this increase is allowed, I understand that the bills would increase 30% or more! The all electric home owners will bear the brunt of this increase when they were promised to have better rates because they don't use other energy sources. I have been renting the home for 2 1/2 years in order to try to be able to sell it next spring, IF the home values increase slightly where it will allow me to break even or make a bit of money. I have

been unable to buy a home in Texas because I own that home. Increases of this type will be a burden on everyone including my renters and will further reduce the value of the home if the Electric rates are allowed to go sky high. Utility and other energy companies make tremendous profits at all times and increases of this type not only place a bigger burden on their customers who are still struggling in this economy, and will further decrease the value of homes that are All Electric in Northeast Ohio. The economy in Northeast Ohio has a number of years to recover and bring new jobs and opportunities for growth. I sincerely hope this increase is not allowed because now is certainly not the time.

COMPLAINT DESCRIPTION:

case for FirstEnergy's new ESP3 or Case # 12-1230-EL-SSO Ohio Edison is trying again to jack up our rates. There is No reason for it. We had another power outage last night...NO Storms, No Rain, nothing. We are an All Electric home. They LIED and did everything they could to get us to go All Electric...then took everything back. I wish whoever reads this would be in our shoes for only 5 minutes to see how terrible Ohio Edison really is. If a Real Person would screw the public like this, they would be in jail by now. PLEASE DON'T GIVE INTO THEM!!!! You will be helping a crook, liar, thief, etc. Please look at their past record!!! They do anything they can to prevent competition and jack up our rates without proper cause.
