Application: Approval Disapproval Approval with Conditions
Waiver: Approval Disapproval Not Applicable

Summary of Staff Recommended Conditions (see report text for discussion):

- None

Projected Docket Closure Date (if automatically approved): 7 October 2014

Investigation Report

Project Description: This project involves the installation of approximately 200 feet of 138 kV transmission line. The line is needed to provide service to a new distribution substation. Three new structures would be installed within the r-o-w of the existing transmission line.

Site Description: The project would be situated on industrial property, adjacent to a railroad. This project is located in York Township, Fulton County.

Discussion/Comments/Concerns: No appreciable vegetative clearing is required. The construction of this project should pose only minimal negative social and ecological impacts.
