Waiver: ☐ Approval ☐ Disapproval ☒ Not Applicable

Summary of Staff Recommended Conditions (see report text for discussion):

- None

Projected Docket Closure Date (if automatically approved): 1 October 2014

Investigation Report

Project Description: This project involves the installation of approximately 350 feet of 138 kV transmission line. The line is needed to connect Consolidated Electric Cooperative's new distribution substation to the grid. Four new structures would be required. Three pole structures would be constructed within the r-o-w of the existing transmission line and one structure would be installed on the substation's property.

Site Description: Nearby land use consists of agricultural and rural residential uses. This project is located in Scioto Township, Delaware County.

Discussion/Comments/Concerns: No appreciable vegetative clearing is required. The construction of this project should pose only minimal negative social and ecological impacts.
