COMPLAINT DESCRIPTION:

I would like to complain about the rate increases you approved for First Energy. We live in an all electric home which we purchased 6 years ago and were told our rates would remain discounted since the home was all electric. Our monthly rate was reasonable at that time but now with the discounts being taken away starting in 2013 we will be faced with much larger bills. I am referring to First Energy ESP3 or case # 12-1230-EL-SSO. We don't have an option now other than move which really is not an option at all. I am very dissatisfied with your decision to help First Energy's earnings. We, the consumer have no way of fighting a hugh company like First Energy and rely on the PUCO to watch our backs but you have failed to do so.

COMMENT DESCRIPTION:

Please file this comment with the First Energy request for rate increases. As an all-electric home owner, I am very disappointed, apalled and frankly angry that the PUCO would choose to ignore the promises made to homeowners like myself many years ago that the discounts they offered would be in place in perpetuity. You have caved in to First Energy's demands earlier and we will see the cost of electricity increasing dramatically. And now the electric company is back to demand even more from us!

This is unacceptable! I would convert to gas in a minute were it not prohibitly expensive to do so as we

have two heat pumps and two water heaters. I am retired on a fixed income and will not be able to afford living in our home of 35 years if you do not reverse your decision and keep our discounts as they have been for these many years. Corporate greed is the driving force for First Energy and I ask that the PUCO exhibit the necessary backbone to stand its ground defending and deciding for the consumers.

Thank you for preserving our future in this area.

Sincerely,

C. W. White Strongsville, Ohio
