Energy Portfolio Status Report of         )  
Vectren Retail, LLC                            )**

**Case No. 12-1071-EL-ACP**

---

Findings and Recommendations of the PUCO Staff

---

**I.       Statutory Background**

Senate Bill 221, with an effective date of July 31, 2008, established Ohio's alternative energy portfolio standard (AEPS) applicable to electric distribution utilities and electric service companies. The AEPS is addressed principally in sections 4928.64 and 4928.65, Ohio Revised Code (ORC), with relevant resource definitions contained within 4928.01(A), ORC.

According to 4928.64(B)(2), ORC, the specific compliance obligations for **2011** are as follows:

- Renewable Energy Resources = **1.00%** (includes solar requirement)
- Solar Energy Resources = **0.03%**

In addition, there is a requirement that at least half of the renewable energy resources, including the solar energy resources, shall be met through facilities located in this state.

The PUCO further developed rules to implement the Ohio AEPS, with those rules contained within Ohio Administrative Code (OAC) 4901:1-40.

4901:1-40-05(A), OAC:

Unless otherwise ordered by the commission, each electric utility and electric services company shall file by April fifteenth of each year, on such forms as may be published by the commission, an annual alternative energy portfolio status report analyzing all activities undertaken in the previous calendar year to demonstrate how the applicable alternative energy portfolio benchmarks and planning requirements have or will be met. Staff shall conduct annual compliance reviews with regard to the benchmarks under the alternative energy portfolio standard.

4901:1-40-05(C), OAC:

Staff shall review each electric utility's or electric services company's alternative energy portfolio status report and any timely filed comments, and file its findings and recommendations and any proposed modifications thereto.

The findings and recommendations in this document pertain to the company's compliance status. This document does not address such matters as cost recovery or status relative to the statutory 3% cost provision.

## **II. Company Filing Summarized**

Vectren Retail, LLC d/b/a Vectren Source (Vectren) filed its 2011 annual alternative energy portfolio status report on March 27, 2012. In its filing, Vectren acknowledges that it is an electric services company, having been registered as a competitive retail electric service (CRES) provider in Ohio during 2011. Vectren further indicated that it had no Ohio electricity sales in 2011, and therefore did not have an AEPS compliance obligation.

## **III. Filed Comments**

No persons filed comments in this proceeding.

## **IV. Staff Findings**

Following its review of the annual status report and any timely comments submitted in this proceeding, Staff makes the following findings:

- (1) That Vectren is an electric services company in the state of Ohio.
- (2) That Staff confirmed Vectren's claim that it had zero Ohio retail electric sales in 2011 through independent review.
- (3) That OAC Section 4901:1-40-02, Purpose and Scope, indicates the following:

Parties affected by these alternative energy portfolio standard rules include all Ohio electric utilities and all electric services companies serving retail electric customers in Ohio. Any entities that do not serve Ohio retail electric customers shall not be required to comply with the terms of the alternative energy portfolio standard.

- (4) That Vectren did not serve Ohio retail electric customers in 2011 and therefore did not have an AEPS compliance obligation in 2011.

## **V. Staff Recommendations**

Following its review of the information submitted in this proceeding and other relevant data, Staff recommends the following:

- (1) That Vectren's filing in this proceeding be accepted, with no further actions required.
