RE: Section O Update**

The following facility has a remote monitoring and reporting system that can accurately demonstrate historical generation:

Fehr, Dennis Residence - D. Fehr

Attached is an updated Section O from the original *Online application for Certification as an Eligible Ohio Renewable Energy Resource Generating Facility* that was submitted to the PUCO on 04/27/2012. The monitoring start date for the facility should be:

10/06/2011

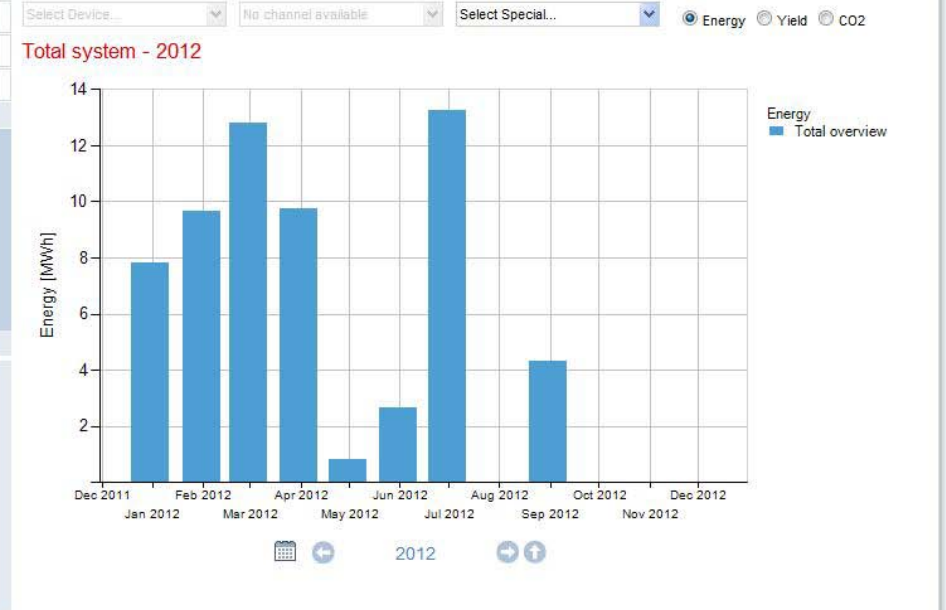

An online monitoring report is attached. No generation has been reported to GATS and no SRECs have been created or sold for this facility. We would like to request the OH PUCO update their records regarding the start date on Section O for this facility. If you need any additional information to update your records, please feel free to contact us at 757-559-1580.

Sincerely,
SRECTrade
