Re: OPSB Case No. 12-0160-EL-BGN
Submittal of Landowner/Affected Tenant Mailing List

Dear Secretary McNeal:

Pursuant to Rule 4906-5-08(C)(3) of the Ohio Administrative Code, I am submitting to you the name and address of each property owner and affected tenant to whom a letter regarding Case No. 12-0160-EL-BGN was sent out within the meaning of this rule. Attachment A is the mailing list showing the address of all addressees. Attachment B is a copy of a sample letter.

This filing is being mailed today via first class U.S. mail to those persons listed below.

Thank you in advance for your cooperation.

Sincerely,

Michael J. Settineri

MJS/mrl

VIA FIRST CLASS MAIL

Re: Application for Certificate before Ohio Power Siting Board
Champaign Wind LLC
OPSB Case No. 12-0160-EL-BGN

Dear Property Owner or Affected Tenant:

Pursuant to Rule 4906-5-08(B)(3) of the Ohio Administrative Code, I am sending you this letter describing the proposed wind-powered electric generation facility to be located in Champaign County as you are a property owner or affected tenant within, contiguous to the planned site or within a quarter mile of the planned site, or who may be approached for any additional easement necessary for the construction, operation, or maintenance of the facility. Champaign Wind LLC is proposing to build the Buckeye II Wind Farm project, a wind-powered electric generation facility within approximately 13,500 acres of leased private land in the townships of Goshen, Rush, Salem, Union, Urbana and Wayne Townships in Champaign County, Ohio. The proposed facility will consist of up to 56 wind turbine generators and associated infrastructure (i.e. access roads, electrical interconnection, construction staging areas, an operations and maintenance facility, substation, and up to four meteorological towers). Each turbine will have a nameplate capacity rating of 1.6 to 2.5 MW, depending on the final turbine model selected. This will result in a total generating capacity of 89.6 to 140 MW. The facility is expected to operate at an average annual capacity factor of 30% to 35%, and therefore the 56 turbines will collectively generate approximately 235,000 to 429,000 megawatt hours (MWh) of electricity each year.

On January 24, 2012, a public information meeting was held at Triad High School, 8099 Brush Lake Road, North Lewisburg, Ohio. On May 15, 2012, in Ohio Power Siting Board ("OPSB") Case No. 12-0160-EL-BGN, Champaign Wind LLC filed an application for a certificate to construct a wind-powered electric generating facilities in Champaign County. By letter dated July 13, 2012, the Ohio Power Siting Board notified Champaign Wind LLC that

Legal Counsel

Mr. and Mrs.

September 21, 2012

Page 2

its application for the proposed project had been certified as complete. The effective date of the filing of the application was August 1, 2012.

The Staff of the Ohio Power Siting Board is currently investigating the application and will file a written Staff Report. The Staff will investigate whether the eight criteria of Section 4906.10(A), Revised Code have been met. A local public hearing where the Board shall accept written or oral testimony from any person will be held on Thursday, October 25, 2012 at 6 pm at Triad High School Auditoria, 8099 Brush Lake Road, North Lewisburg, Ohio 43060. An adjudicatory hearing will commence on Thursday, November 8, 2012 at 10 am at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Hearing Room 11-C, Columbus, Ohio 43215-3793.

Thank you in advance for your cooperation

Very truly yours,

Michael J. Settineri
