THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of )  
United Telephone Company of Ohio d/b/a ) Case No. 12-2750-TP-BLS  
CenturyLink For a Commission Determination )  
Pursuant to Ohio revised Code Section 4927.12 (C)(3) )

---

APPLICATION

---

United Telephone Company of Ohio d/b/a CenturyLink ("CenturyLink" or "Applicant") is a telephone company providing public telecommunications service to approximately 267,000 retail access lines in its local service area in the State of Ohio.

Applicant submits this application pursuant to Section 4927.12(C)(3) Ohio Revised Code, for determination that it demonstrates that two or more alternative providers offer competing services to basic local exchange service offered by CenturyLink in the following exchanges: Adamsville, Adario, Alexandria, Apple Creek, Belleville, Big Prairie, Bucyrus, Butler, Caledonia, Cardington, Centerburg, Chatfield, Chesterhill, Crooksville, Croton, Danville, Frazeyburg, Fredericksburg, Fredericktown, Gambier, Glenmont, Glouster, Holmesville, Johnsville, Junction City, Kidron, Killbuck, Lucas, Luckey, Lykens, Marengo, Marshallville, Martinsburg, McConnelsville, Millersburg, Nashville, New Winchester, Reinersville, Rittman, Shiloh, Shreve, Sterling, Stockport, regardless of the technology and facilities used by the alternative provider, the alternative providers location, and extent of the alternative provider's area within the exchange area. For this purpose, an alternative provider includes a telephone company, including wireless service provider, a telecommunications carrier, and a provider of internet protocol- enabled services, including voice over internet protocol.

Exhibits 1 through 3 are attached to this application and are incorporated herein.

Applicant demonstrates herein that it meets the statutory criterion in each of the exchanges included in this application. The Commission should either issue an order granting the application or allow it to be granted under the automatic approval process specified in R.C. 4927.12(C)(3)(b).

Respectfully submitted,

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of United Telephone )  
Company of Ohio d/b/a CenturyLink For a ) Case No. 12-2750-TP-BLS  
Commission Determination Pursuant to )  
Ohio revised Code Section 4927.12 (C)(3) )

---

Memorandum in Support of Application.

---

**Introduction**

United Telephone of Ohio d/b/a CenturyLink (“CenturyLink”) submits this information and analysis in support of its application filed in the captioned case. This application is filed pursuant to R. C. § 4927.12(C)(3)(a) (effective September 13, 2010), which provides as follows:

If the commission has not made a prior determination that the exchange area qualified for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative Code as that chapter existed on the effective date of this section, an incumbent local exchange carrier may not alter its rates for basic local exchange service upward for that exchange area unless the carrier first applies to the commission and the commission determines that the application demonstrates that two or more alternative providers offer, in the exchange area, competing service to the basic local exchange service offered by an incumbent local exchange carrier in the exchange area, regardless of the technology and facilities used by the alternative provider, the alternative provider’s location, and the extent of the alternative provider’s service area within the exchange area. An alternative provider includes a telephone company, including a wireless service provider, a telecommunications carrier, and a provider of internet protocol-enabled services, including voice over internet protocol.

CenturyLink has not previously filed for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative code for any of these exchanges –

Adamsville, Adario, Alexandria, Apple Creek, Belleville, Big Prairie, Bucyrus, Butler, Caledonia, Cardington, Centerburg, Chatfield, Chesterville, Crooksville, Croton, Danville, Frazeyburg, Fredericksburg, Fredericktown, Gambier, Glenmont, Glouster, Holmesville, Johnsville, Junction City, Kidron, Killbuck, Lucas, Luckey, Lykens, Marengo, Marshallville, Martinsburg, McConnelville, Millersburg, Nashville, New Winchester, Reinersville, Rittman, Shiloh, Shreve, Sterling, Stockport – included in this application. Thus, the Commission has not made a prior determination that any of these exchanges is qualified for alternative regulation.

Further, the application demonstrates that two or more alternative providers offer service in each of the exchanges in competition with the basic exchange service offered by CenturyLink. Because the application meets the statutory requirements of R.C. 4927.12(C)(3)(a), as demonstrated in the attached Exhibits, CenturyLink requests that the Commission issue an order granting this application. Alternatively, CenturyLink requests that the Commission allow the application to be granted under the automatic approval process set forth in R.C. 4927.12(C)(3)(b), which provides as follows:

Upon the filing of an application under division (C)(3)(a) of this section, the commission shall be deemed to have found that the application meets the requirements of that division unless the commission, within thirty days after the filing of the application, issues an order finding that the requirements have not been met.

Furthermore, CenturyLink recognizes the pricing restrictions on basic local exchange service ("BLES") included in this filing as set forth in R.C. 4927.12(C)(3)(c). R.C. 4927.12(C)(3)(c) provides the following:

In no event may an incumbent local exchange carrier that applies to the commission under division (C)(3)(a) of this section, during the twelve-month period that begins on the thirty-first day after the company files the application, and during any subsequent twelve-month period, alter the carrier's rates for basic local exchange service upward for the exchange area to which the application applies by more than the amount described in division (C)(1)(b) of this section.

#### **Exhibit 1 – Exchange Areas/County**

This exhibit identifies the exchanges included in this application and the county or counties in which each exchange is located.

#### **Exhibit 2 – Supporting Competitive Information with Affidavit**

CenturyLink demonstrates in this exhibit that it meets statutory criterion that two or more alternative providers offer competing service to the BLES service offered by CenturyLink in each of the exchanges included in this application. CenturyLink reviewed publically available information of alternative providers offering competing service in each exchange via the

competitor's websites. The alternative carriers have web tools that permit one to determine the availability of the carrier's services in specific areas based on a phone number and/or address. These tools enable one to readily verify that alternative services are offered in an area and the specific service options available to customers. In addition wireless carriers have Coverage Locator sites which display the strength of service at a given location. CenturyLink utilized these tools to identify the service offerings and some of the providers within each exchange. (NOTE: CenturyLink was unable to print color images of some of the AT&T Coverage Viewer pages. See <http://www.wireless.att.com/coverageviewer/#?type=voice>)

The competitive information CenturyLink obtained from these tools is summarized at the beginning of the exhibit. This summary does not represent all the alternative providers or services available in an exchange, but demonstrates that there are two or more carriers that offer a variety of service plans and technologies in the exchanges.

The exhibit also contains the affidavit of Gary Baki attesting that the information set forth in the exhibit is true and correct to the best of CenturyLink's knowledge.

### **Exhibits 3 – Proposed Tariff Modifications**

CenturyLink proposes tariff modifications Adamsville, Adario, Alexandria, Apple Creek, Belleville, Big Prairie, Bucyrus, Butler, Caledonia, Cardington, Centerburg, Chatfield, Chesterville, Crooksville, Croton, Danville, Frazeyburg, Fredericksburg, Fredericktown, Gambier, Glenmont, Glouster, Holmesville, Johnsville, Junction City, Kidron, Killbuck, Lucas, Luckey, Lykens, Marengo, Marshallville, Martinsburg, McConnellsville, Millersburg, Nashville, New Winchester, Reinersville, Rittman, Shiloh, Shreve, Sterling, Stockport.

### **Customer Notice**

Pursuant to OAC 4901:1-6-14(F)(5) customer notice, consistent with the requirements of rule 4901:1-6-07, will be provided to all affected customers not less than thirty days prior to a rate increase. A copy will be provided to the commission-provided electronic mailbox

([TelecommRule07@puc.state.oh.us](mailto:TelecommRule07@puc.state.oh.us)) and the OCC not later than the date provided to customers. At this time no increases are planned.

### **Conclusion**

CenturyLink has demonstrated that it meets the statutory requirements for BLES price flexibility in each of the exchanges included in this application. The Commission should either issue an order approving this application or allow the application to be granted by operation of law.

Respectfully submitted,

  
\_\_\_\_\_  
Gary Baki  
State Regulatory Manager

Coverage details for

ADAMSVILLE, OH 43802

Coverage updated on: 7/20/12

Voice coverage experience

- Sprint coverage
- Sprint coverage - signal strength varies
- Off-network roaming
- No coverage

This tool provides high-level estimates of our wireless coverage. Coverage is not available everywhere and varies based on a number of factors.

Our coverage maps provide high-level estimates of our coverage areas when using your device outdoors under optimal conditions. Coverage isn't available everywhere. Estimating wireless coverage and signal strength is not an exact science.

There are gaps in coverage within our estimated coverage areas that, along with other factors both within and beyond our control (network problems, software, signal strength, your wireless device, structures, buildings, weather, geography, topography, etc.), will result in dropped and blocked connections, slower data speeds, or otherwise impact the quality of services.

Services that rely on location information, such as E911 and GPS navigation, depend on your device's ability to acquire satellite signals (typically not available indoors) and network coverage. E911 services also depend on local emergency service provider systems/support. Estimated future coverage subject to change.

Coverage details for

GREENWICH, OH 44837

Voice coverage experience

- Sprint coverage
- Sprint coverage - signal strength varies
- Off-network roaming
- No coverage

This tool provides high-level estimates of our wireless coverage. Coverage is not available everywhere and varies based on a number of factors.

Our coverage maps provide high-level estimates of our coverage areas when using your device outdoors under optimal conditions. Coverage isn't available everywhere. Estimating wireless coverage and signal strength is not an exact science.

There are gaps in coverage within our estimated coverage areas that, along with other factors both within and beyond our control (network problems, software, signal strength, your wireless device, structures, buildings, weather, geography, topography, etc.), will result in dropped and blocked connections, slower data speeds, or otherwise impact the quality of services.

Services that rely on location information, such as E911 and GPS navigation, depend on your device's ability to acquire satellite signals (typically not available indoors) and network coverage. E911 services also depend on local emergency service provider systems/support. Estimated future coverage subject to change.

All other corporate brands and logos are trademarks or registered trademarks of their respective companies. In certain areas, service to outlets is included only if customer's outlets are pre-wired in the home and phone-ready. Additional outlets installed by Time Warner Cable are subject to additional installation fees. TM & © Warner Bros. Entertainment, Inc.

(s08)

Subscription to Standard is required to purchase Extreme or Turbo. Time Warner Cable Ultimate Internet 50Mbps and 30Mbps claims are based on Ultimate Internet's standard maximum download speed of 50Mbps or 30Mbps. Actual speeds may vary. Not all service tiers are available in all areas. Many factors affect speed. Some services may include Home WiFi and may require installation charges. ©2008-2012 Time Warner Cable Inc. All rights reserved. Time Warner Cable and the Time Warner Cable logo are trademarks of Time Warner Inc. Used under license. All other trademarks are the property of their respective owners. TM & © Warner Bros. Entertainment, Inc.

Home Phone Local, Home Phone State and Home Phone Unlimited Nationwide do not include back-up power and, as in the case with an electric-powered home cordless phone, should there be a power outage, Home Phone, including the ability to access 9-1-1 services, may not be available. Additional charges apply for taxes, fees, Directory Assistance, Operator Services, Long Distance, and calls to International locations, as applicable. Offer valid for residential customers in Home Phone serviceable areas. Must subscribe to both TV and Phone to get Caller ID on TV. Caller ID on TV is not available in all areas.

In certain areas, service to unlimited phone jacks is included if customer's phone jacks are pre-wired at the home. Additional phone jacks installed by Time Warner Cable are subject to additional installation fees.

International OnePrice® is available in customers who subscribe to Phone and TV and/or Internet. Offer valid for residential customers in Home Phone serviceable areas. International OnePrice applies only to calls terminated by a landline phone in most countries. Calls terminating to cell phones with a service provider based in the following countries are included in the plan: Anguilla, Antigua, Barbados, Bermuda, British Virgin Islands, Canada, China, Hong Kong, India, Macau, Paraguay, St. Kitts, and Thailand. Monthly maximum usage allowance of 1,000 minutes, based on calendar month, which may or may not coincide with billing cycle. Additional charges apply for taxes, fees, Directory Assistance, and Operator Services. International calls to satellite phones, special services numbers such as toll-free, or caller-paid information services such as 900-type numbers, calls to chat lines and cell phone numbers in countries not listed above are not included and will be charged at additional per-minute rates.

This tool provides high-level estimates of our wireless coverage. Coverage is not available everywhere and varies based on a number of factors.

Our coverage maps provide high-level estimates of our coverage areas when using your device outdoors under optimal conditions. Coverage is coverage and signal strength is not an exact science.

There are gaps in coverage within our estimated coverage areas that, along with other factors both within and beyond our control (network problems, device, structures, buildings, weather, geography, topography, etc.), will result in dropped and blocked connections, slower data speeds, or other issues.

Services that rely on location information, such as E911 and GPS navigation, depend on your device's ability to acquire satellite signals (typical coverage). E911 services also depend on local emergency service provider systems/support. Estimated future coverage subject to change.
