Answer to question from Mr. Mark Bellamy

Question 1: In section B of the application you stated that Lower Moreland Township School District is the facility owner yet in section M you stated that the facility is owned by a municipal utility. What municipal utility owns the facility?

Answer 1: The Solar Photovoltaic system at the Murray Avenue School is entirely owned and operated by the school district – i.e. Lower Moreland Township School District. No other entity owns or operated the system. The Township is a separate local government entity, not part of the school district.
