Re: Oregon Clean Energy, LLC
Case No. 12-2959-EL-BGN

Dear Ms. McCauly:

I am enclosing for filing in the above-referenced matter, the proof of publication attesting to the publication of the Notice for the Informational Meeting for Proposed Major Utility Facility which arrived in our office today even though we requested the proof when we submitted the notice. The notice was published in the following Lucas County newspapers:

<u>Newspaper</u>	<u>Publication Date</u>
<i>The Toledo Blade</i>	November 19, 2012
<i>The Press</i>	November 19, 2012

Please note that only the Affidavit of Publication from *The Toledo Blade* is attached. Though *The Toledo Blade* is a newspaper of general circulation in Lucas County and alone would suffice to meet the publication requirements, we also published in the weekly paper, *The Press* because it serves the community of Oregon. Our legal assistant has followed up multiple times with *The Press* staff, but because that small newspaper does not often deal with proofs of publication, the process to actually receive the proof has been more time consuming than anticipated. As soon as we receive the proof from *The Press*, we will file it.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Sally W. Bloomfield

My Commission Expires 2-26-2017

of Public Information or Proposed Major Utility Facility

Schedules November 29, 2012 Public Meeting to Outline Plans for a 800 Megawatt Gas Plant in Oregon, Ohio

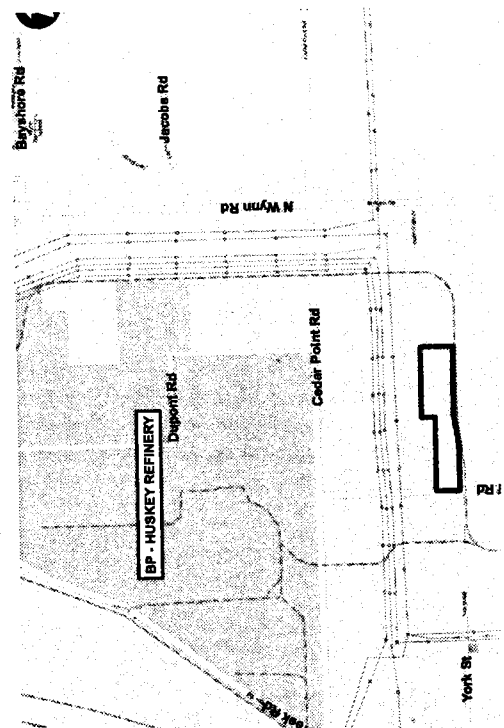

Residents of Oregon, Ohio and other interested members of the public, to attend a public company plans to build an 800 megawatt (MW) gas fired, combined cycle power station.

It will be located on approximately 30 acres in a commercial/industrial zoned area located on the intersection of York Road in the City of Oregon, Lucas County, Ohio.

It is a fired, high efficiency combustion turbines with two heat recovery steam generators and a cooling tower and state of the art pollution controls. The plant will be served by natural gas. The generating station will be interconnected at two points to allow for both north-south transmission facilities. Water and wastewater services will be supplied by the City of Oregon. The project is scheduled to begin in fall 2013, with projected commercial operation to begin in mid-2016.

The project is scheduled to begin in fall 2013, with projected commercial operation to begin in mid-2016. The project is scheduled to begin in fall 2013, with projected commercial operation to begin in mid-2016.

The project is scheduled to begin in fall 2013, with projected commercial operation to begin in mid-2016. The project is scheduled to begin in fall 2013, with projected commercial operation to begin in mid-2016.
