**RE: Application of Zone Telecom, LLC**

Dear Commission:

Enclosed please find the original and ten (10) copies of Zone Telecom, LLC's Application for Authority to operate as a Non-BLES Competitive Local Exchange Carrier.

As determined in previous discussions with the PUC, no tariff is included since the Applicant's services are strictly business-class VoIP and Hosted iPBX services. The Applicant will not be reselling ILEC tariffed services, nor will they be facilities-based and reselling their own access. See a full description of services in Exhibit A to this application.

Please acknowledge receipt of the Application and Exhibits by file-stamping the duplicate letter and returning in the self-addressed and stamped envelope.

Should you have any questions or need additional information, please do not hesitate to contact me at (405) 755-8177 extension 25, [mdean@telecompliance.net](mailto:mdean@telecompliance.net).

Respectfully,

Matt Dean

# **EXHIBIT F**

**PROPOSED INTERACTION WITH CUSTOMERS**

**EXHIBIT F-5 – PUBLIC INTEREST STATEMENT**

## **PUBLIC INTEREST STATEMENT**

The Commissions' grant of Zone Telecom, LLC's application will serve the public interest.

Competition in telecommunications markets previously served by a single provider will bring great benefit to the people of the State of Ohio because it will lead to efficient pricing,

improved service quality, expanded product and service capabilities, and greater reliability.

Competition will be further enhanced by the greater efficiencies and more rapid introduction of new technologies in the use of telecommunications service. The granting of a certificate of convenience and necessity to the Applicant will enhance competition and will be in the public interest.

Commission authorization of the Applicant to operate as Non-BLES Competitive Local

Exchange Carrier will result in an increase in the diversity of the supply of existing and future telecommunications services and products in the Ohio telecommunications market.

Increased choices among providers will promote competitively driven cost-based rates for telecommunications services.

Accordingly, Commission grant of the Applicant's application is in the public interest

because it will enhance competition, thereby generating the benefits that result from

competition such as a more efficient, innovative, technologically-advanced, and a diversified telecommunications industry in the State of Ohio.
