To the Ohio Power Siting Board,

This letter is to express my support for the proposed Buckeye II Wind Project in Champaign County.

- Pay millions in tax revenue to schools and local government
- Contribute to Ohio and U. S. energy independence
- Create hundreds of construction and manufacturing jobs and many ongoing operational jobs
- Assist Ohio in achieving its Advanced Energy Portfolio Standard
- Jumpstart an economic engine that will allow my friends, family and neighbors to thrive with a higher quality of life in Champaign County

Additional Comments:

Thank you for taking the time to hear the public's opinions on this project. Many of us cannot wait to continue building strong winds, strong economy and strong community in our county. Your certification of this project will allow us to do so.

Dear Ohio Power Siting Board,

This letter serves to express my support for the proposed Buckeye II Wind Project in Champaign County.

I have resided in Champaign County nearly my whole life. I would be extremely proud if more renewable energy sources such as ~~as~~ the Buckeye II wind farm were located in this county. I purchased a solar panel system for my home in 2010 and then sold that home to buy another home in Urbana. We just purchased our second set of solar panels for our home in Urbana. Words can't even describe what it means to be energy independent and producing energy from a clean source. Please certify this project so that my children and all future generations will reap the rewards ~~of~~ that clean, renewable energy sources provide. It is the right thing to do.

Thank you for taking the time to read this letter. Many of my neighbors and I are excited about building strong winds, strong economy and strong community in Champaign County. Your certification of this project will allow us to do so.

Sincerely,

Dear Ohio Power Siting Board,

This letter serves to express my support for the proposed Buckeye II Wind Project in Champaign County.

My Dad and I both farmed this land when we were younger. This land and farm has been owned by the Moody family since 1837. With all the talk in this country about trying to create clean renewable energy, the land owners in Champaign county are in a position to make this happen.

This project will help create energy independence for Ohio and the country. Clean energy will create jobs for Ohio in bad economic times. The Moody family urges you to move forward with this project.

Sincerely,

Robert L Moody
