Re: Case No. 07-829-GA-AIR  
Case No. 08-169-GA-ALT  
Case No. 12-3125-GA-RDR

Dear Ms. McNeal:

On November 30, 2012, The East Ohio Gas Company d/b/a Dominion East Ohio (“DEO”) filed a Notice of Intent to File an Application to Adjust Its Pipeline Infrastructure Replacement Program Cost Recovery Charge, under Case No. 12-3125-GA-RDR. To supplement this notice, DEO is enclosing with this letter the final executed versions of the notice letters contained in PFN Exhibit 7. These letters were mailed yesterday, December 3, 2012, to the parties identified in DEO’s November 30 filing.

In accordance with the Commission’s entry dated June 29, 2009, in Case No. 09-458-GA-RDR, DEO intended to file these letters in the additional dockets referenced above. It came to DEO’s attention, however, that Case No. 08-169-GA-ALT has been “archived” and that future filings in this docket may not be possible without special action by the Commission. That being the case, DEO will await guidance from the Commission on what action, if any, should be taken with respect to this docket. In this regard, DEO would note that the notice is already served on all parties to the rate case as well as nearly nine hundred municipalities, *see* PFN Exhibits 2 & 7, and that filing in the additional dockets could be considered unnecessary.

Please contact me if there are any questions.

Respectfully yours,

/s/ Andrew J. Campbell

**NOTICE OF FILING NEW PIR ADJUSTMENT CASE:  
PUCO Case No. to be assigned on November 30, 2012**

Dear Public Official:

On October 15, 2008, the Public Utilities Commission of Ohio (PUCO) approved an increase in Dominion East Ohio's (Dominion) rates and charges for service. In its order authorizing the increase, the PUCO also approved a tariff to recover certain costs associated with a pipeline infrastructure replacement (PIR) program and approved Dominion's request to assume ownership of, and responsibility for, curb-to-meter service lines as Dominion installs, repairs, ties in, or replaces them. At that time, the PIR Cost Recovery Charge was set to zero. On May 29, 2009, Dominion filed a subsequent application seeking PUCO approval for an initial adjustment to the charge to recover the incremental costs associated with the program. The PUCO approved Dominion's initial adjustment to the PIR Cost Recovery Charge on December 16, 2009.

On August 3, 2011, the PUCO approved modifications to DEO's PIR program. Among the changes was a transition of the PIR Cost Recovery Charge adjustment filings from a fiscal-year to a calendar-year basis. To implement that change, DEO filed an application in February 2012 based on PIR program costs for the six months ended December 31, 2011.

On November 30, 2012, Dominion notified the PUCO that it will file an application to amend the PIR Cost Recovery Charge in February 2013. As required by the PUCO, Dominion has filed a pre-filing notice containing estimated schedules for costs that will be incurred for the calendar year ending December 31, 2012. No charge will be implemented until the PUCO has analyzed and audited the schedules contained in the February filing and approves charges based on its review. That process is not expected to be completed until the second quarter of 2013.

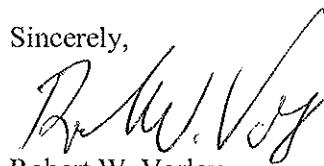

Dominion has estimated the levels of the PIR Cost Recovery Charge based upon an allocation of the program cost as approved by the PUCO. Because the pre-filing notice is based on information that will be updated with actual data in the February application, the final rates approved by the PUCO may differ from the estimated rates shown below. The PIR Cost Recovery Charge for the General Sales Service - Residential, General Sales Service - Nonresidential, Energy Choice Transportation Service - Residential, and Energy Choice Transportation Service - Nonresidential rate schedules is capped at \$3.95 per month plus or minus any applicable reconciliation of costs recoverable and costs actually recovered associated with the rate currently in effect, as approved by the PUCO. The estimated rates for each rate schedule are shown in the table below. The estimated rates do not take into account the reconciliation adjustment, which will not be determined until the February application is filed.

Dominion's replacement of older vintage pipelines and its ongoing investment in pipeline infrastructure will enable us to continue providing safe and reliable natural gas service to our more than one million customers. Because Dominion is now responsible for curb-to-meter service lines, customers no longer face the prospect of large unanticipated outlays for repairing those lines should it become necessary. We appreciate the opportunity to serve your community and look forward to answering any questions you may have regarding this notice.
