COMMENT DESCRIPTION:

RE: Case #12-0160-EL-BGN Before the hearings for the proposed wind turbines ends, I ask you to remember the testimony of the citizens of Champaign County, their fright and anguish over the possibility of the turbines next door and in their neighborhood. Compare the small number of people who signed leases to the thousands of residents who would be affected by the turbines. How democratic is that? And studies prove that wind energy costs much more than other sources of energy. Can your conscience allow you to approve the 500 foot turbines? I ask you to deny certification of the Buckeye Wind II project.
