COMPLAINT DESCRIPTION:

I am disgusted and outraged at the PUC0 Commission's recent decision to disallow AEP to fund the Turning Point solar plant project in Noble County. Based on "free-market" mysticism, two out of three members have essentially killed a project that would have brought 300 jobs to the area and have compromised the future and health of the children of this state. Ignoring recommendations by PUCO staff paid to research the matter that the project is needed and should be funded, the two commission members who voted no relied on market economy superstition. We need clean energy solutions, not claims by fossil fuel industry stooges that the only way to build our economy is to poison its citizens.

Please docket the attached in the case number above.

COMPLAINT DESCRIPTION:

I would like to register my horror at at the PUC0 Commission's recent decision to disallow AEP to fund the Turning Point solar plant project in Noble County.

Based on "free-market" mysticism, two out of three members have essentially killed a project that would have brought 300 jobs to the area and have compromised the future and health of the children of this state. Ignoring recommendations by PUCO staff paid to research the matter that the project is needed and should be funded, the two commission members who voted no relied on market economy superstition. We need clean energy solutions, not claims by fossil fuel industry stooges that the only way to build our economy is to poison its citizens... Please pass this up the line. The public not going to take this abominable public policy sitting down, and we are behind AEP all the way on this!

Please docket the attached in the case number above.
