Docketing Case No.: 12-1682-EL-AIR & 12-1685-GA-AIR

Notes:

I object to Duke Energy's request to raise electric and gas rates. Our energy bills are high enough. Also, I think it's totally wrong to use any of the increase to help pay for the streetcar project. Citizens of Hamilton county don't even want a streetcar and should not have to help fund it.

Docketing Case No.: 12-1682-EL-AIR & 12-1687-GA-AIR

Notes:

I think it is ridiculous that Duke Energy is asking for another rate hike. We have had nothing but rate hikes since they bought out Cinergy. We just had a rate hike last year. Now I hear they bought out another company and now want another rate hike. With the economic situation and so many people out of work I think it's time for big business to stop buying out their competition and raking the american people over the coals. Enough is enough. Energy prices is the biggest contributor to economic downfall to start with. They rake in billions in profit while driving the working man to bankruptcy. Please say no to the rate hike.

COMMENT DESCRIPTION:

Duke should be made to pay for the relocation of electrical lines so that the city of Cincinnati can build a streetcar line. Public transport is a utility improvement and Duke must move their lines to allow this to move forward. Duke Should pay for the relocation.

Docketing Case No.: 12-1682-EL-AIR & 12-1687-GA-AIR

Notes:

Please do not allow Duke the proposed rate increases on Gas and electric services. We are struggling to make ends meet as it is and every thing from the tiny local government and school district on up are asking for more money from the tax payers yet our payroll has been practically frozen. I cannot just walk into my job and demand a 24% increase on one thing and a 5% increase on another. So please tell Duke to suck it up and maybe cut some of the pay to their company's top earners for starters.
