Memorandum

Date: 2/14/2013

Re: Rick Johnson  
55 E Oak St  
West Alexandria, OH 45381

Docketing Case No.:12-426-EL-SSO.

Notes:

I oppose any rate increase or "service tracking" by Dayton Power and Light Company. DP&L has demonstrated bad business decisions in the past years, and yet continues to "write off and deduct" its profits to charity and other lobbyist organizations without properly maintaining and upgrading its electrical systems. To this day there are wires with NO insulation in our neighborhood, power fluctuations occur when its windy..and until recently (past year)..we were experiencing temporary power outages in the West Alexandria, Ohio area. I have spoken to various line technicians that have come to my area and they have stated that power lines and poles are degrading and marked for replacement..for years. Yet DP&L continues to write off expenses and take deductions from lobbyists and charitys. If a rate increase is needed for it to survive, I would underatand that. But now they want their customers (who have made good, money saving decisions) to pay for thier bad decisions and poor service? If DP&L continues this practice..I will not support any type of rate increase. For the past 6 months now, I have had DP&L sales persons knocking on my door..trying to switch me over to thier higher rates. I guess they are getting desperate. But they continue thier poor management and business practices.

Please docket the attached in the case number above.
