COMMENT DESCRIPTION:

Reference cases: 12-1685-GA-AIR and 12-1682-EL-AIR

I am totally against Duke being allowed to raise any of their rates. I am on a fixed income. I am also opposed to having to pay for them to relocate their utilities for a streetcar that will have NO impact on Fairfield, and me in particular!!

Please docket the attached in the case number above.

COMMENT DESCRIPTION:

Regarding the proposed rate hike for Butler county residents to pay for Cincinnati streetcars. I do not think that this a proposal that is well rooted in reality for Duke customers in Butler county. We were forced to pay for damage done to power lines during previous storms, and that was bad enough. If the system is damaged, then it needs to be repaired, and I understand why it was done, but to ask for another 10% or more hike in electricity costs is unreasonable. Also, helping others who have trouble paying their heating bills through the Heat Share program is something that I take pride in doing but I will be unable and unwilling to continue doing so if the electric bill continues to rise. I will not be utilizing the streetcar network at all, and as such will not participate in paying for it. Thank you, Susan Scott.
