RE: Annual Measurement and Verification Report
Case No. 10-2205-EL-EEC

Dear Mr. Wolfe:

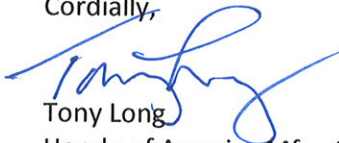

This correspondence contains the measurement and verification data promised in the Self-Direct Program Agreement submitted as an exhibit to the application for approval of a special arrangement for a mercantile exemption of the energy efficiency rider (Case No. 10-2205-EL-EEC) and as contemplated in the rules of the Commission.

In the original filing requesting approval of the mercantile exemption of the energy efficiency rider, Honda submitted Exhibits A (Energy Conservation and Demand Reduction Project Summary) and Exhibit B (Energy Data Sheets). Attached to this letter are updated Exhibits A and B. Exhibit A includes updated annual energy saving and demand information as reflection in the respective "Annual Saving and Annual Demand" columns. The total energy savings and demand reductions now meet the program goal through 2020.

Exhibits A and B were originally filed under a Protective Order to prevent public disclosure due to the confidential and proprietary nature of the information contained on the pages of Exhibits A and B. Honda respectfully requests that the updated Exhibit A and Exhibit B continue to receive confidential treatment and not be subject to public disclosure.

Finally, if you have any questions or need additional information during your review of these materials, please contact me and I will work with associates here at Honda to answer those questions.

Cordially,

Tony Long
