NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATS), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Patrick and Cambelsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marislić, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906.5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 529. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties -- testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number, (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambelsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Merisillo, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library – Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division

(A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties – testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Campbellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Vis. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Vis. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division

(A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Milford, Lattrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

vs. Kathleen Chandler, President, Portage County Board of Commissioners
 vs. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 vs. Tommie Jo Marisik, Vice President, Portage County Board of Commissioners
 vs. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 vs. Michael Marozzi, Portage County Engineer
 vs. Todd Peetz, Director, Portage County Regional Planning Commission
 vs. Diane Dillon, Rootstown Township Trustee
 vs. Joseph Paulus, Rootstown Township Trustee
 vs. Brett Housley, Rootstown Township Trustee
 vs. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garretttsville Library, 10482 South Street, Garretttsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) (7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattick and Cambelsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATS), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatfield and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marislik, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambelsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Milford, Hatrick and Campbellport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Jitell's Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Cambelsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisli, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10462 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATS), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Cambellspott Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opcb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (B) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisliid, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) (7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10462 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0634-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-06), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0634-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Manstfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marislik, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazeneo, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) (7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATS), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (3) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (B) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Cambellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marislio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hattrick and Campbellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazenec, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsb.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air

pollution, the facility may apply to the director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

American Transmission Systems, Incorporated (ATSI), a FirstEnergy company, proposes to construct a new utility facility, the Chamberlin-Mansfield 345 kV Transmission Line Loop to Hanna Substation Project (Project), in a Letter of Notification application submitted to the Ohio Power Siting Board (Board) for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located on the site of the existing Hanna Substation located at 4650 Sandy Lake Road, in Ravenna, Ohio, and along existing transmission line right-of-way extending approximately one mile east of the substation crossing New Millford, Hatrick and Campbellsport Roads in Rootstown Township, Portage County, Ohio. The general location of the Project is shown on the accompanying map of the area.

The following public officials and agencies have been provided with copies of the Letter of Notification application as required by the Board's regulations:

Ms. Kathleen Chandler, President, Portage County Board of Commissioners
 Ms. Maureen T. Frederick, Board Member, Portage County Board of Commissioners
 Ms. Tommie Jo Marisilio, Vice President, Portage County Board of Commissioners
 Ms. Deborah Mazonac, Portage County Board of Commissioners Chief Administrator
 Mr. Michael Marozzi, Portage County Engineer
 Mr. Todd Peetz, Director, Portage County Regional Planning Commission
 Ms. Diane Dillon, Rootstown Township Trustee
 Mr. Joseph Paulus, Rootstown Township Trustee
 Mr. Brett Housley, Rootstown Township Trustee
 Ms. JoAnn Townsend, Rootstown Township Fiscal Officer

A copy of the Letter of Notification application is available for public inspection at the offices of the Ohio Power Siting Board, c/o Public Utilities Commission of Ohio, Utilities Department, 12th Floor, Borden Building, 180 East Broad Street, Columbus, Ohio 43215-3793, www.opsh.ohio.gov. A copy of the Letter of Notification application has also been sent to the following library:

Portage County District Library - Garrettsville Library, 10482 South Street, Garrettsville, Ohio 44241

A Letter of Notification application for a certificate to construct, operate and maintain the above named electric transmission line facility is now pending before the Board. The application has been assigned Docket No. 13-0834-EL-BLN, and the docket number should be referenced in all communications about this proceeding.

In accordance with the Board's regulations (Admin. Code Rule 4906-5-08), the following sections of the Ohio Revised Code plus additional information are shown.

Section 4906.10(A)

(A) The power siting board shall render a decision upon the record either granting or denying the application as filed, or granting it upon such terms, conditions, or modifications of the construction, operation, or maintenance of the major utility facility as the board considers appropriate. The certificate shall be conditioned upon the facility being in compliance with standards and rules adopted under sections 1501.33, 1501.34, and 4561.32 and Chapters 3704., 3734., and 6111. of the Revised Code. The period of initial operation under a certificate shall expire two years after the date on which electric power is first generated by the facility. During the period of initial operation, the facility shall be subject to the enforcement and monitoring powers of the director of environmental protection under Chapters 3704., 3734., and 6111. of the Revised Code and to the emergency provisions under those chapters. If a major utility facility constructed in accordance with the terms and conditions of its certificate is unable to operate in compliance with all applicable requirements of state laws, rules, and standards pertaining to air pollution, the facility may apply to the

director of environmental protection for a conditional operating permit under division (G) of section 3704.03 of the Revised Code and the rules adopted thereunder. The operation of a major utility facility in compliance with a conditional operating permit is not in violation of its certificate. After the expiration of the period of initial operation of a major utility facility, the facility shall be under the jurisdiction of the environmental protection agency and shall comply with all laws, rules, and standards pertaining to air pollution, water pollution, and solid and hazardous waste disposal.

The board shall not grant a certificate for the construction, operation, and maintenance of a major utility facility, either as proposed or as modified by the board, unless it finds and determines all of the following:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas or natural gas transmission line;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34, and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience, and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Section 4906.07. Public hearing on application

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the power siting board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternatives set forth in the application.

(C) The chairman of the power siting board shall cause each application filed with the board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing submit a written report to the board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

At this time, no public hearing has been scheduled.

4906.08(C). Parties - testimony

(C) The board shall accept written or oral testimony from any person at the public hearing, but the right to call and examine witnesses shall be reserved for parties. However, the board may adopt rules to exclude repetitive, immaterial, or irrelevant testimony.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 10 days following publication of this notice. Petitions to intervene should be addressed to the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number. (Docket No. 13-0834-EL-BLN)
