Chairman Todd Snitchler
OH

Dear Chairman Snitchler,

Ohio's dependence on coal and oil has gone on too long. In the 21st century we shouldn't be getting 82 percent of our electricity by burning coal. Its time Ohio moved forward to embrace proven pollution-free technologies like solar power. Turning Point Solar is clean, ready-to-go and a genuine step in the right direction. Please move Ohio's clean energy future forward by approving Turning Point Solar.

Not only will Turning Point provide much needed investment to our state, helping to create more than 300 green jobs, it will help displace coal-fired generation that would emit over 70,000 tons of global warming pollution each year. If Ohio is going to get serious about clean energy we need to double down on solar power and projects like Turning Point.

Sincerely

Ronald & Kathy Russo
