

Case No.: **13-1049-EL-REN**

G. Certification Criteria 2: Qualified Resource or Technology

You should provide information for only one generation facility in this application; please check and/or fill out only one of the sections below. If you are applying for more than one facility, you will need to complete a separate application for each facility.

G.1. For the resource or technology you identify in Sections G.4 – G.13 below, please provide a written description of the system. **The following system will consist of (13) Talesun Solar 255watt solar modules (rather than (13) Renasola 250watt solar modules), for a total system size of 3.315kW, rather than 3.250kW. The use of (13) Enphase Microinverters will stay the same.**

The Applicant is applying for certification in Ohio for a facility using one of the following qualified resources or technologies (Sec. 4928.01 Ohio Revised Code):

G.4 SOLAR PHOTOVOLTAIC

G.4a Location of the PV array: Roof Ground Other

G.4b Total number of Modules: **13**

G.4.1 PV Modules

For each PV module, provide the following information:

G.4.1.a Manufacturer: **Talesun**

G.4.1.b Model and Rating: **255**

The following system is has a pending application that is not yet online

This foregoing document was electronically filed with the Public Utilities
