Managing Partner**

Peter Selber has four and a half years of experience working in deregulated electricity and natural gas markets. Prior to forming Infinity Power Partners, Peter was an energy consultant at Choice Energy Services Retail where he started as an intern and worked his way up to consulting for large/mid commercial and industrial customers across Texas. In this role, Peter was also responsible for managing a team of four sales professionals where he assisted with the facilitation of structuring and negotiating retail electricity contracts, and successfully growing the group's sales year-over-year. By his final year of employment at Choice Energy Services, and through his sales efforts during the three year period, Peter grew his portfolio of cliental to an annual load exceeding 100,000 mWh's of electricity, and over 300,000 MMBtu of natural gas.

Since forming Infinity Power Partners twelve months ago, Peter has been instrumental in helping to build on their Texas portfolio with an annual consumption exceeding 200,000 mWh's of electricity and 300,000 MMBtu of natural gas. Through Peter's commitment and dedication, Infinity Power Partners has been successful in building a team capable of offering industry expertise, while providing their clients with an honest and transparent first class approach to energy procurement.

Nick Altman
Managing Partner

Nick Altman has three and a half years of experience working in deregulated electricity and natural gas markets. Immediately prior to forming Infinity Power Partners, Nick was an energy consultant at Choice Energy Services Retail where he focused his efforts on large/mid commercial real estate portfolios within ERCOT. In this role, Nick was responsible for managing a team of three sales professionals, and overseeing the facilitation and execution of retail electricity contracts. During his two years of employment at Choice Energy Services, Nick successfully grew his portfolio to where he was managing an annual load of 150,000 mWh's of electricity for his clients.

Nick and has been an integral part of the early success Infinity Power Partners has realized. As co-managing partner and head of sales, Nick recently finalized an eight year electricity contract for a publicly traded institution totaling over 150,000 mWh's over the term of the contract. Nick continues to devote his time and effort to growing Infinity Power Partners the right way, ensuring that the business conducted is that of shared common goals and values between himself, their team, and the portfolio of existing client.

Ron Fort
Director of Risk Management

As Director of Risk Management, Ron is responsible for expanding and maintaining Infinity Power Partners ever-growing presence in ERCOT, and the other U.S. markets we intend to enter in the future. Infinity Power Partners prides itself on the wealth of knowledge Ron is able to offer with his thirty-five years of industry experience, appreciation and respect for client's needs, and unique ability to provide an honest and transparent view of the market place. Before joining Infinity Power Partners, Ron was instrumental in developing advanced energy pricing structures innovative ideas for the purchasing, hedging and monitoring the energy market, ensuring his clients capture the most value possible for their business.

His experience includes managing forward NYMEX and Heat Rate curves, analyzing those curves against client specific appetite and risk, while making sure the client's goals are always met. Throughout his thirty-five years of experience, Ron continues to successfully do such things as assembling and facilitating power price management tools, on-going risk management and analysis for the Infinity Power Partners portfolio, and structuring client specific products and contracts for execution.

Viewed as a top expert of price curve models and his well-known creative success with structuring procurement strategies, Ron is frequently asked to contribute commentary and offer insight to media outlets within in the industry. In the past, Ron has presented to forums which include The Houston Chronicle and Energy Risk magazine.

Charles Nguyen-Phuoc
Director of Client Operations

With over ten years of energy industry experience, specifically that of operations, Charles provides Infinity Power Partners and their clients with the necessary expertise and focus

required in order to be a successful energy management firm in the retail power, oil and gas markets. He has a strong knowledge base in contract negotiations, excellent customer service, and a wide range of industry contacts that help to ensure client's needs are always met.

His participation in the retail power market began with validation of client data and contract creation and execution. While at Reliant Energy, his experience with retail energy providers and ERCOT protocol has helped to maintain a high level of customer service. He holds a Bachelor of Science degree from the University of Houston. As the Director of Client Operations at Infinity Power Partners, Charles primary role is to handle and manage any customer related issue that may arise, facilitate the creation and release of customer analysis, and communicate clear and concise information to both clients and suppliers.

Peter Selber has four and a half years of experience working in deregulated electricity and natural gas markets. Prior to forming Infinity Power Partners, Peter was an energy consultant at Choice Energy Services Retail where he started as an intern and worked his way up to consulting for large/mid commercial and industrial customers across Texas. In this role, Peter was also responsible for managing a team of four sales professionals where he assisted with the facilitation of structuring and negotiating retail electricity contracts, and successfully growing the group's sales year-over-year. By his final year of employment at Choice Energy Services, and through his sales efforts during the three year period, Peter grew his portfolio of cliental to an annual load exceeding 100,000 mWh's of electricity, and over 300,000 MMBtu of natural gas.

Since forming Infinity Power Partners twelve months ago, Peter has been instrumental in helping to build on their Texas portfolio with an annual consumption exceeding 200,000 mWh's of electricity and 300,000 MMBtu of natural gas. Through Peter's commitment and dedication, Infinity Power Partners has been successful in building a team capable of offering industry expertise, while providing their clients with an honest and transparent first class approach to energy procurement.

Nick Altman
Managing Partner

Nick Altman has three and a half years of experience working in deregulated electricity and natural gas markets. Immediately prior to forming Infinity Power Partners, Nick was an energy consultant at Choice Energy Services Retail where he focused his efforts on large/mid commercial real estate portfolios within ERCOT. In this role, Nick was responsible for managing a team of three sales professionals, and overseeing the facilitation and execution of retail electricity contracts. During his two years of employment at Choice Energy Services, Nick successfully grew his portfolio to where he was managing an annual load of 150,000 mWh's of electricity for his clients.

Nick and has been an integral part of the early success Infinity Power Partners has realized. As co-managing partner and head of sales, Nick recently finalized an eight year electricity contract for a publicly traded institution totaling over 150,000 mWh's over the term of the contract. Nick continues to devote his time and effort to growing Infinity Power Partners the right way, ensuring that the business conducted is that of shared common goals and values between himself, their team, and the portfolio of existing client.

**PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA
1333 H STREET N.W., 2ND FLOOR, WEST TOWER
WASHINGTON, D.C. 20005**

ORDER

March 27, 2013

**FORMAL CASE NO. EA 2013-08, IN THE MATTER OF THE APPLICATION
OF INFINITY POWER PARTNERS, LLC FOR AN ELECTRICITY LICENSE,
Order No. 17105**

1. By this Order, the Public Service Commission of the District of Columbia ("Commission") grants a license to Infinity Power Partners, LLC ("IPP" or "Applicant") to function as an electricity supplier in the District of Columbia.¹ Specifically, IPP intends to operate as a broker of electricity for commercial and industrial customers in the District of Columbia, pursuant to Section 34-1505 of the "Retail Electric Competition and Consumer Protection Act of 1999 ("Act")."²

2. On March 20, 2013, IPP filed its license application.³ Pursuant to the Commission's licensing requirements as set forth in Order No. 11796,⁴ IPP has provided the following information:

- a) Proof of technical and managerial competence;
- b) An affidavit of compliance with applicable Federal and District of Columbia environmental laws and regulations dated February 6, 2013;
- c) Proof of financial integrity to include financial statements;
- d) Proof that IPP has registered with the Department of Consumer and Regulatory Affairs to do business in the District of Columbia;
- e) An affidavit that IPP is subject to all applicable taxes;
- f) An affidavit dated February 6, 2013, stating that IPP will comply with all the requirements of all orders and regulations of the Commission; and

¹ D.C. Official Code § 34-1501(17) (2010 Repl.) defines, in part, an electricity supplier as "a person, including an aggregator, broker, or marketer, who generates electricity; sells electricity; or purchases, brokers, arranges or markets electricity for sale to customers."

² D.C. Official Code § 34-1505; *see generally* §§ 34-1501-1520.

³ *Formal Case No. EA 2013-08, In the Matter of the Application of Infinity Power Partners, LLC for an Electricity License*. Application of Infinity Power Partners, LLC filed March 20, 2013.

⁴ *Formal Case No. 945, In the Matter of the Investigation into Electric Service Market Competition and Regulatory Practices*, Order No. 11796 at Attachment C, rel. September 20, 2000.

g) Applicant's website address: <http://www.infinitypowerpartners.com>.

3. After a complete review of the application, the Commission finds that granting the application of Infinity Power Partners, LLC will serve the public interest. The information contained in its application demonstrates that the Applicant has the ability and the financial integrity to serve electricity customers in the District of Columbia.

THEREFORE, IT IS ORDERED THAT:

4. The application of Infinity Power Partners, LLC for a license to conduct business in the District of Columbia as an electricity supplier is hereby **GRANTED**.

The Procurement Process

Our core business is to provide our clients with the best procurement structure for their specific needs. This may be fixed price, heat rate index, real time, or a combination of some or all of these alternatives. It is a process that is enabled by transparency, understanding your suitability, and who best fits your needs from the provider community. The steps to this process are:

- Understanding your goals – It's naturally important to capture the lowest price, but this needs to be married to your budget constraints, what is the optimum term, your risk appetite, and other user-specific criteria that can be determined by understanding your objectives and understanding what works and what doesn't work. We will discover answers from discussions with you and they will serve as a guideline for the process, from inception through renewal and all phases in between.
- Data – We will retrieve your historical usage data, if applicable, and perform an analysis of how you use energy. We will compare history with what the forward curve offers today, and make assumptions based on real life scenarios combined with your specific needs to recommend compatible structure and term, benchmarking said assumptions with the wholesale price of power.
- Beginning the pricing process – Once we have satisfied you with what the best structure looks like, we will then send a request for pricing to those Retail Electric Providers (REPs) who can service your requirements. The competitive process will achieve the best of economy and allow an "apples to apples" comparison.
- Manage the pricing process – Receive pricing, query the various REPs as to particulars such as band width, material change, gas lock procedures (if applicable), and other details that allow meaningful comparisons and drive the best answers to your procurement.
- Execution – Once pricing for the elected structure has been reviewed and a final list of REPs arrived at, we will then insure that contract language and provisions are compatible to your needs (including negotiating for same should that be necessary) and deliver to you an executable contract vetted for price and terms.
- Continuing service – Our engagement doesn't end with execution of contract. We will continue to apprise you of issues connected to the current contract, changing market conditions (opportunities or risks beyond current procurement), and other material items.

Familiarity with the REP community, knowledge of where the market is, and experience in managing procurement in whatever structure and term required is what our value proposition is based upon.

Infinity's Approach

- Infinity's Director of Risk Management, Ron Fort, has structured and managed power procurement for many large loads, primarily in Texas.
- Addresses the primary component of energy cost, wholesale power price, as a financial instrument, which allows the component forward curves, natural gas and heat rate, to be viewed and managed with a high degree of transparency, historical data, and ability to execute.
- Decisions are based on technical analysis. This is a discipline that believes price action best translates all of the fundamental changes in supply and demand into signals to act upon. Having a reason why some action is taken and a means to track the moving parts is objective.
- Today's market is unique in its intrinsic value (low cost) and what may lie ahead.
- Each procurement answer is specific to the client's requirements and deserves appropriate attention.

Accountant's Compilation Report

To the Partners of:

**Infinity Power Partners LLC
Post Oak Central Three
1990 Post Oak Blvd
Suite 2450
Houston, Texas 77056**

I have compiled the accompanying balance sheet of INFINITY POWER PARTNERS LLC (a Texas limited liability company) as of December 31, 2012 and 2011, and the related statement of income the for the twelve months ended December 31, 2012, and 2011. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

My responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

Management has elected to omit substantially all of the disclosures and the statement of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures and statement of cash flows were included in the financial statements, they might influence the user's conclusions about the Company's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Sincerely,

**DAVID D SELMON
Certified Tax Practitioner**

Trade Payments

Examining how a company has paid its bills in the past can strongly indicate, but may not necessarily predict, how it will pay its bills in the future.

D&B does not have sufficient data to calculate a trade payment risk for this company.

Detailed Trade Risk Insight

The charts in this section show two important aspects of the company's payment behavior during the past year: 1) the aging profile of the company's accounts, and 2) amounts owed that have had to be written off or placed for collection (Derogatory Events). Use the links at the bottom of the section to see more details.

Amounts Current and Past Due - Past 12 Months

This chart shows the company's account aging profile over the past year. The chart lets you see at a glance the proportion of payments that were paid promptly versus those that were paid late.

Key Data

Key Data shows you how stable and well-established a company is, which can indicate its overall ability to pay its bills. Some companies are riskier than others, so review revenue, net worth, and number of employees to determine the company's general health. Look at years in business, length of management tenure, and the people involved in the company to determine how stable it is. Note whether the company is involved in a relatively high-risk industry. You can also check to see if there are any special events, such as a management or location change, that could adversely affect the company's ability to pay its bills. Click the links for more detailed information.

D&B Predictive Scores and Insights

D&B Predictive Scores and Insights allow you to make more informed credit decisions by identifying the potential risks based on past behavior. D&B's predictive scores are based on empirically-validated statistical models. While you can use them as one factor in making your credit decisions, you should be aware that the predictive scores represent statistical probabilities, not guarantees of future behavior.

D&B Credit Limit Recommendation

D&B's recommended Credit Limit is based on the company profile and on profiles of other companies of similar size, industry, and credit usage.

- **D&B Conservative Credit Limit : \$2,500**
- **D&B Aggressive Credit Limit : \$10,000**

Risk of Financial Failure in the Coming 12 Months

D&B calculates the Financial Stress Score using a statistically valid model derived from our extensive data files. This score predicts the likelihood in the coming 12 months that the company will cease business without paying all creditors in full, or undergo financial reorganization, or try to obtain relief from creditors under state or federal law.

- **In D&B's view, this company has a Moderate risk of severe financial stress, such as a bankruptcy, over the next 12 months.**
- **Companies in the same Financial Stress Class as this company have around a 0.24% (24 per 10,000) likelihood of experiencing severe financial distress or financial failure in the coming 12 months.**
- **This is 50% Lower than the predicted failure rate for all businesses in D&B's database of 0.48% (48 per 10,000) in the coming 12 months.**

Risk of Financial Failure

These graphs let you select 3 ways of viewing the company's risk of financial distress in the coming year. They are all based on D&B's Financial Stress Score (FSS). The Score graph shows the actual FSS as calculated by D&B. The Percentile graph shows how the company's failure risk compares to all companies in the D&B database. The Class graph aggregates all companies into five groups, which makes it easier to identify a particular company's risk profile.

Risk of Financial Failure - 12 Month Trend

This chart shows how the company's risk of financial failure has trended over the past 12 months. Companies whose risk of financial failure is increasing represent a higher risk than companies whose risk is steady or declining.

Size & Creditworthiness: The D&B Rating

The D&B Rating can help you quickly assess a firm's size and overall creditworthiness.

- D&B has no financial information on file for this company

Date Assigned	D&B Rating	Size (Net Worth or Number of Employees)	Overall Creditworthiness
Current	--	--	--
11/22/2011	--	--	--

The blank rating symbol should not be interpreted as indicating that credit should be denied. It simply means that the information available to D&B does not permit us to classify the company within our rating key and that further enquiry should be made before reaching a decision. Some reasons for using a "--" symbol include: deficit net worth, bankruptcy proceedings, insufficient payment information, or incomplete history information. The blank ("--") rating symbol should not be interpreted as indicating that credit should be denied. It simply means that the information available to D&B does not permit us to classify the company within our rating key and that further enquiry should be made before reaching a decision.

Industry Classification

When evaluating credit, it is important to consider the company's primary industry and understand the risk pertaining to that industry based on current economic or local conditions. The SIC and NAICS codes on this page identify the type of economic or industrial activity the company engages in.

SIC Codes

The 4-digit SIC numbers link to the industry classification descriptions on the Occupational Safety & Health Administration (OSHA) Web site. Links open in a new browser window. D&B adds an additional 4 digits to the end of the SIC code. This enables D&B to be more specific about a company's operations.

SIC Code	SIC Code Description
8742 9902	Business management consultant

NAICS Codes

The North American Industry Classification System (NAICS) is a six-digit industry classification code. The first two digits specify the business sector, the third digit specifies the subsector, the fourth digit specifies the industry group, and the fifth digit specifies the industry. The sixth digit is designed for country specific classifications and may differ from one nation to the next.

Detailed Trade Payment History

This table shows the details of individual trade payment experiences that have been reported to D&B's during the past three months. Each record reflects the payment record to one creditor, and each record is updated when a new payment to that supplier is reported. It should be noted that in some cases, a payment may be delayed beyond terms as a result of a dispute, missing invoice, or other similar circumstance.

Each experience shown is from a separate supplier. Updated trade experiences replace those previously reported.

Date Reported (month/year)	Payment Record	High Credit	Now Owes	Past Due	Selling Terms	Recency of Last Sale
11/12	Prompt	50	50	0		1 mo

Anticipated - Payments are received prior to date of invoice; **Discount** - Payments are received within trade discount period; **Prompt** - Payments are received within terms granted; **Slow** - Payments are beyond vendor's terms. For example, Slow 30* means payments are 30 days due; **Prompt-Slow** - Some Payments are within terms, while others are paid beyond terms.
