Business and Residential Plans

- [SunISP](http://www.voip-info.org/wiki/view/VOIP+over+Satellite) VOIP and Internet Satellite have converged to become VOIP over Satellite. Sun-ISP is a Satellite Internet and VOIP provider serving the global market. Satellite internet and VOIP or Satellite VOIP has riled much skepticism to quality due to packet loss. SunISP was founded with the goal in mind of replacing this skepticism with crystal clear VOIP over Satellite to many Satellite users. Hughes and VOIP over Satellite work perfectly because our system has been configured to run on only 16Kbps of bandwidth unlike other providers. Starband and our VOIP Satellite along with Wild Blue Satellite VOIP work perfectly as well with minimum latency or delay. VOIP over Satellite is the ultimate solution to rural communities as international countries with limited dedicated infrastructure. We are a friendly VOIP over Satellite as well as standard VOIP company who ensures that a welcoming voice will answer on the other end when dialing for Support.
