

July 1, 2013

**Case No. 13-1417-EL-REN**  
**L&R Wine Company, Inc.-PA-PV-79.75kW Facility**  
**Staff Interrogatories – Initial Set**

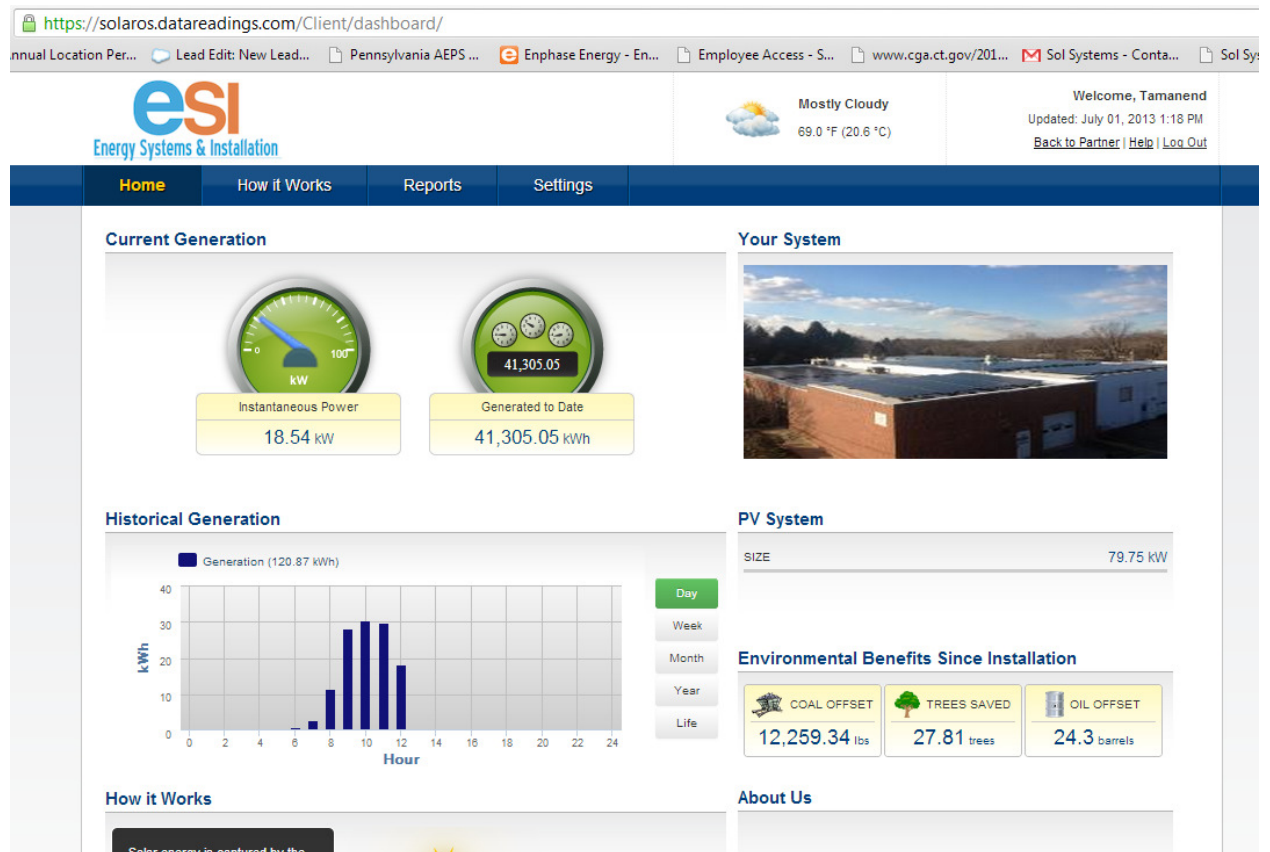

**Question:**

The meter's serial number and reading is not very clear in the photograph. For Section 'N' of the Application, please attach a photograph of the meter(s) with date image taken. The meter reading(s) must be clearly visible in the photograph.

Alternatively, you may print out a screenshot from and attach documentation from the remote monitoring and reporting system.

**Answer:** Please find below a screenshot of the remote monitoring system's page with basic site details and meter reading of 41,305 kWh as of July 1, 2013. These photos are from Sol Systems View (or Agency View) and the Client View.

The screenshot displays the Sol Systems web application interface. At the top, there's a navigation bar with tabs: Dashboard, Clients (active), Reports & Analytics, Alerts, Settings, and Support. A search bar is on the right. Below the navigation bar, the main content area shows the 'Client Summary' for 'Winery, Tamanend'. There are tabs for 'Client Details', 'Site Details' (active), and 'Manual Inputs'. Under 'Site Details', there are sub-tabs for 'Overview' and 'Site Notes'. The 'Overview' tab is selected, showing 'Site Details' and 'Site Hierarchy'. The 'Site Details' section includes: 'Tamanend Winery Site', '759 Flory Mill Road', 'Lancaster, PA', '17601, US', 'Installer Info' (Installer: N/A, Installer Crew: N/A, Install Date: N/A, PTO Date: N/A, Startup Date: N/A), and 'Generation Summary' (Today's Generation: 121, 30 Day Generation: 11,143 kWh, 12 Month Generation: 41,305 kWh, Lifetime Generation: 41,305 kWh). The 'Site Hierarchy' section shows a tree structure with 'Tamanend Winery Site' and 'Generation Meter'.

Please let me know if you have any further questions and thank you for your cooperation.

Best,

Anna Nocas  
Associate  
Sol Systems, LLC
