Mrs. April Boggs
384 North Parkview Road
Woodstock, Ohio 43084

Mrs. Boggs,

Thank you for your continued input regarding the proposed Buckeye II Wind Farm. I have docketed your letter in the public comments section of the record in case number 12-0160-EL-BGN.

As you know, the Buckeye II Wind Farm was approved by the Ohio Power Siting Board on May 28, 2013. 52 of the 56 proposed turbines were authorized for construction. Multiple parties to the case have applied for rehearing of the case before the Board and those proceedings are ongoing.

Thank you,

Steve

COMPLAINT DESCRIPTION:

Please reject this application already! I have followed this process since day 1. Valuable evidence from opponents was repeatedly struck from evidence. I will live in the noisy shadow of this project. Simply put, it just isn't fair for a governing board that has no ties to my community to impose such a large project on us. This is affecting everyone. Even some of the leaseholders have started to apologize. Second thoughts? Likely. This project has taken a very peaceful community and turned it upside down! The OPSB has the powers to change that. You want to make history? Than do what you know is right and give the opponents a TRUE fair shot at this. We, the residents of this beautiful county, do know what is needed for this area, and this project is not the answer. We are not some backwoods goofs. We hold engineering jobs, teaching jobs, legal jobs, and most importantly, we are parents, and the true good stewards of this community. The leaseholders argue they have been here longer, but that simply is not true. Besides, would that still give them the right to decimate my life? But most importantly, a very large fraction of them do not live anywhere near Champaign County.
