**Case No. 13-1716-EL-REN
Becker-Bill -PA-PV-6.095kW Residence
Staff Interrogatory – Initial Set**

Question 1: In section N.1.e, there are two meters shown in the photo. If the meters are connected to one system, please list the output measured by each meter.

Answer 1: There are two meters for this one system. The output for the first meter (ID #: 51662374) is 2 kWh. The output for the second meter (ID #: 65260943) is 0 kWh. These photos were taken shortly after the system was installed, which is the reason for the low generation amounts recorded on the meters.

Please let me know if you have any further questions and thank you for your cooperation.

Best,

Anna Nocas
Associate
