### Notice of Public Informational Meeting for Proposed Major Utility Facility (Natural Gas Pipeline Segment)

Vectren Energy Delivery of Ohio, Inc. schedules August 28, 2013 Public Informational Meeting to outline plans for replacement of a natural gas pipeline segment at the Dayton International Airport.

Vectren Energy Delivery of Ohio, Inc. invites residents of the City of Dayton, Vandale and Union and of Butler Township in Montgomery County and other interested persons to attend a public informational meeting regarding its plans to replace a three-mile 12-inch pipeline segment of its 2167 pipeline that runs underneath the main runway and crosses the taxiways as well as other parts of the Dayton International Airport. The Preferred replacement pipeline segment will consist of a new 6.85 mile 12-inch pipeline segment located around the periphery of the airport. It will connect into the existing transmission pipeline at Corporate Center Drive south of the airport, route around the airport to the west, and reconnect to the natural gas transmission line at the northwestern corner of the airport along Lighter Road. An Alternative Route is required when an application is made to the Ohio Power Siting Board and is also depicted on the map below. Both the Preferred and the Alternative replacement segments will be located in Montgomery County, in portions of the City of Dayton, Vandale and Union and in portions of Butler Township. Vectren Energy Delivery of Ohio, Inc. anticipates filing its application with the Ohio Power Siting Board in the fall of 2013. Construction is estimated to begin in the second quarter of 2014 and the replacement pipeline segment would be placed in service in the fourth quarter of 2014.

The public meeting will take place from 6:30 p.m. to 7:30 p.m. on Thursday, August 28, 2013, at the Vandale Recreation Center, which is located at 1111 Montgomery Road, Vandale, Ohio 45327. Attendees will be able to visit informational stations highlighting various aspects of the project. Company representatives will be available to respond to inquiries regarding the information presented. If you have questions, you may call Thomas F. Jones, (937) 440-1982.
