RE: Electric Governmental Aggregator Application — Berlin Township, Delaware County, OH

The Berlin Township is pleased to submit its application for electric governmental aggregator. The original application notarized and signed by an authorized official.

Material provided for review:

- Application for Governmental Aggregations and Affidavit
- Exhibit A-2 Authorizing Ordinance reflecting voter authorization;
- Exhibit A-3 Plan of Operation and Governance;
- Exhibit A-4 Automatic Aggregation Disclosure;
- Exhibit A-5 Experience

Should you have any questions or additional needs, please call me at (614) 425.4885.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott R. Belcastro", is written over a horizontal line.

CERTIFICATION APPLICATION FOR GOVERNMENTAL AGGREGATORS

Please print or type all required information. Identify all attachments with an exhibit label and title (Example: Exhibit A-5 Experience). All attachments should bear the legal name of the Applicant and should be included on the electronic copy provided. Applicants should file completed applications and all related correspondence with: Public Utilities Commission of Ohio, Docketing Division, 180 East Broad Street, Columbus, OH 43215-3793.

**This PDF form is designed so that you may input information directly onto the form.
You may also download the form, by saving it to your local disk, for later use.**

A. APPLICANT INFORMATION

A-1 Applicant's name, address, telephone number, and web site address

Name Berlin Township

Address 3271 Cheshire Road, Delaware, OH 43015

Telephone Number (740) 548-6350

Web site address (if any) www.berlintwp.us

A-2 Exhibit A-2 "Authorizing Ordinance" provide a copy of the ordinance or resolution authorizing the formation of a governmental aggregation program adopted pursuant to Section 4928.20(A) of the Revised Code.

A-3 Exhibit A-3 "Operation and Governance Plan" provide a copy of the applicant's plan for operation and governance of its aggregation program adopted pursuant to Section 4928.20(C) of the Revised Code. The Operation and Governance Plan explained in Exhibit A-3 should include:

- Terms and conditions of enrollment including:
 - Rates
 - Charges
 - Switching fees, if any
- Policies associated with customers moving into/out of aggregation area
- Billing procedures
- Procedures for handling complaints and disputes including the toll-free telephone number and address for customer contacts

A-4 **Exhibit A-4 "Automatic Aggregation Disclosure"** provide a copy of the disclosures required by Section 4928.20(D) of the Revised Code, if its aggregation program provides for automatic aggregation in accordance with Section 4928.20(A) of the Revised Code

A-5 **Exhibit A-5 "Experience"** provide a detailed description of the applicant's experience and plan for providing aggregation services, including contracting with retail generation providers, providing billing statements, responding to customer inquiries and complaints, and complying with all applicable provisions of commission rules adopted pursuant to section 4928.10 of the Revised Code.

A-6 **Contact person for regulatory or emergency matters**

Name Ron Bullard

Title Trustee

Business address 3271 Cheshire Road, Delaware, OH 43015

AFFIDAVIT

State of Ohio :

____ ss.
(Town)

County of Delaware

Claudia Smith Affiant, being duly sworn/affirmed according to law, deposes and says that:

He/She is the Fiscal Officer (Office of Affiant) of Berlin Township (Name of Applicant);

That he/she is authorized to and does make this affidavit for said Applicant,

1. The Applicant herein, attests under penalty of false statement that all statements made in the application for certification are true and complete and that it will amend its application while the application is pending if any substantial changes occur regarding the information provided in the application.
2. The Applicant herein, attests it will timely file an annual report with the Public Utilities Commission of Ohio of its intrastate gross receipts, gross earnings, and sales of kilowatt-hours of electricity pursuant to Division (A) of Section 4905.10, Division (A) of Section 4911.18, and Division (F) of Section 4928.06 of the Revised Code.
3. The Applicant herein, attests that it will timely pay any assessments made pursuant to Sections 4905.10, 4911.18, or Division F of Section 4928.06 of the Revised Code.
4. The Applicant herein, attests that it will comply with all Public Utilities Commission of Ohio rules or orders as adopted pursuant to Chapter 4928 of the Revised Code.
5. The Applicant herein, attests that it will cooperate fully with the Public Utilities Commission of Ohio, and its Staff on any utility matter including the investigation of any consumer complaint regarding any service offered or provided by the Applicant.
6. The Applicant herein, attests that it will fully comply with Section 4928.09 of the Revised Code regarding consent to the jurisdiction of Ohio Courts and the service of process.
7. The Applicant herein, attests that it will comply with all state and/or federal rules and regulations concerning consumer protection, the environment, and advertising/promotions.
8. The Applicant herein, attests that it will use its best efforts to verify that any entity with whom it has a contractual relationship to purchase power is in compliance with all applicable licensing requirements of the Federal Energy Regulatory Commission and the Public Utilities Commission of Ohio.
9. The Applicant herein, attests that it will cooperate fully with the Public Utilities Commission of Ohio, the electric distribution companies, the regional transmission entities, and other electric suppliers in the event of an emergency condition that may jeopardize the safety and reliability of the electric service in accordance with the emergency plans and other procedures as may be determined appropriate by the Commission.
10. If applicable to the service(s) the Applicant will provide, the Applicant herein, attests that it will adhere to the reliability standards of (1) the North American Electric Reliability Council (NERC), (2) the appropriate regional reliability council(s), and (3) the Public Utilities Commission of Ohio. (Only applicable if pertains to the services the Applicant is offering)

11. The Applicant herein, attests that it will inform the Commission of any material change to the information supplied in the application within 30 days of such material change, including any change in contact person for regulatory purposes or contact person for Staff use in investigating customer complaints.
12. The Applicant herein, attests that it will docket with the Commission's Docketing Division the final opt-out and any supplemental opt-outs (including beginning and ending dates of the 21-day opt-out period and the selected CRES supplier) at a minimum 10 days prior to sending the opt-outs to customers.

That the facts above set forth are true and correct to the best of his/her knowledge, information, and belief and that he/she expects said Applicant to be able to prove the same at any hearing hereof.

AUTHORIZING ORDINANCE

ORIGINAL

**BOARD OF TRUSTEES OF
BERLIN TOWNSHIP, DELAWARE COUNTY, OHIO**

RESOLUTION NO. 2013-01-62

**A RESOLUTION AUTHORIZING ALL ACTIONS NECESSARY TO EFFECT A
GOVERNMENTAL ELECTRICITY AGGREGATION PROGRAM WITH OPT-
OUT PROVISIONS PURSUANT TO R.C. § 4928.20 AND DIRECTING THE
DELAWARE COUNTY BOARD OF ELECTIONS TO SUBMIT A BALLOT
QUESTION TO THE ELECTORS OF BERLIN TOWNSHIP,
DELAWARE COUNTY, OHIO.**

The Board of Trustees of Berlin Township, Delaware County, Ohio ("Board") met in regular session on the 28th day of January, 2013 with the following members present:

[Signature]
[Signature]
[Signature]

Ron Bullard Moved the adoption of the following Resolution:

PREAMBLE

WHEREAS, The Ohio Legislature has enacted legislation (R.C. § 4928.20) which authorizes the legislative authorities of municipal corporations, townships and counties to aggregate the retail electrical loads located within the respective jurisdictions and to enter into service agreements to facilitate for those loads the purchase and sale of electricity ("Governmental Aggregation"); and,

WHEREAS, Such legislative authorities may exercise such authority jointly with any other legislative authorities; and,

WHEREAS, Governmental Aggregation provides an opportunity for residential and small business consumers to participate collectively in the potential benefits of lower electric rates which would not otherwise be available to those electricity customers individually; and,

WHEREAS, the Board seeks to establish a Governmental Aggregation program with opt-out provisions pursuant to R.C. § 4928.20 ("Electric Loads Aggregation Program")

Resolution No: _____
Electricity Aggregation Program

for the residents, businesses and other electric consumers in Berlin Township, Delaware County, Ohio ("Township"), as permitted by law.

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of Berlin Township, Delaware County, Ohio that:

Section 1

This Resolution is adopted pursuant to the authority conferred by R.C. § 4928.20.

Section 2

The Board finds and determines that it is in the best interest of the Township, its residents, businesses and other electric consumers located within the limits of the Township to establish an Electric Loads Aggregation Program in the Township. Provided that this Resolution and the Electric Loads Aggregation Program are approved by the electors of the Township pursuant to Section 4 of this Resolution, the Township is hereby authorized to aggregate, in accordance with R.C. § 4928.20, the retail electric loads located within the Township, and, for that purpose, to enter into service agreements to facilitate the sale and purchase of the service for the retail electric loads. The Board may exercise such authority jointly with any other municipal corporation, township or county or other political subdivision of the State of Ohio to the full extent permitted by law. The Board may also exercise such authority using an energy broker/consultant/aggregator, so long as the broker/consultant/aggregator is certified by the Public Utilities Commission of Ohio. The aggregation will occur automatically for each person owning, occupying, controlling or using an electric load center proposed to be aggregated and will provide for the opt-out rights described in Section 6 of this Resolution.

Section 3

No aggregation under this Resolution shall include any person that meets any of the following criteria:

- (1) A customer that has opted out of the aggregation;
- (2) A customer in contract with a certified electric services company;
- (3) A customer that has a special contract with an electric distribution utility;
- (4) A customer that is not located within the governmental aggregator's governmental boundaries;
- (5) Subject to R.C. § 4928.21(C), a customer who appears on the "do not aggregate" list maintained under that section.

Resolution No: _____
Electricity Aggregation Program

(6) Other persons that are not eligible pursuant to rules and orders of the Public Utilities Commission of Ohio or the plan of operations and governance for the Electric Loads Aggregation Program.

Section 4

The Board of Elections of Delaware County, Ohio ("BOE") is hereby directed to submit the following question to the electors of the Township at the primary election on May 7, 2013:

PROPOSED RESOLUTION ELECTRIC AGGREGATION	
BERLIN TOWNSHIP, DELAWARE COUNTY, OHIO	
A majority affirmative vote is necessary for passage	
Shall the Township of Berlin have the authority to aggregate the retail electric loads located in the Township of Berlin, and for that purpose, enter into service agreements to facilitate for those loads the sale and purchase of electricity, such aggregation to occur automatically except where any person elects to opt out?	
	YES
	NO

The Berlin Township Fiscal Officer is instructed to immediately file a certified copy of this Resolution and the proposed form of the ballot question with the BOE not less than ninety (90) days prior (February 6, 2013) to the May 7, 2013 primary election. The Electric Loads Aggregation Program shall not take effect unless approved by a majority of the electors voting upon this Resolution and the Electric Loads Aggregation Program provided for herein at the election held pursuant to this Section 4 and R.C. § 4928.20. Upon approval by the electorate, the Electric Loads Aggregation Program shall take effect at the earliest permissible point in time and continue thereafter in accordance with the requirements of R.C. § 4928.20.

The BOE shall cause an appropriate notice to be duly given of the election to be held on Tuesday, May 7, 2013, on the foregoing proposal and otherwise provide for such election in the manner provided by the laws of the State of Ohio.

Section 5

Upon approval of a majority of the electors voting at the primary election provided for in Section 4 of this Resolution, the Board, individually or jointly with any other political subdivision, shall develop a plan of operation and governance for the Electric Loads Aggregation Program. Before adopting such plan, the Board shall hold at least two (2) public hearings on the plan. Before the first hearing, notice of the hearings shall be

Resolution No: _____
Electricity Aggregation Program

published once a week for two (2) consecutive weeks in a newspaper of general circulation in the Township. The notice shall summarize the plan and state the date, time and place of each hearing.

Section 6

No plan adopted by the Board shall aggregate the electric load of any electric load center within the Township unless the Board, in advance, clearly discloses to the person owning, occupying, controlling, or using the load center that the person will be enrolled automatically in the Electric Loads Aggregation Program and will remain so enrolled unless the person affirmatively elects by a stated procedure not to be so enrolled. The disclosure shall state prominently the rates, charges, and other terms and conditions, of enrollment. The stated procedure shall allow any person enrolled in the Electric Loads Aggregation Program the opportunity to opt-out of the program every three (3) years, without paying a switching fee. Any such person that opts-out of the Electric Loads Aggregation Program pursuant to the stated procedure shall default to the standard service offer provided under R.C. § 4928.14 or R.C. § 4928.35(D), until the person chooses an alternative supplier.

Section 7

All formal actions of the Board concerning and relating to the passage of this Resolution were taken in an open meeting of the Board, and all deliberations of the Board and of any of its committees that resulted in such formal action were in meetings open to the public in compliance with all legal requirements, including R.C. § 121.22.

Section 8

This Resolution shall be in full force and effect immediately upon its adoption.

Phil Panzarella seconded the motion.

Voted on, adopted, and signed this 28th day of January, 2013 in Berlin Township, Delaware County, Ohio.

Township Fiscal Officer
Berlin Township, Delaware County, Ohio

Resolution No: _____
Electricity Aggregation Program

EXHIBIT A-3

OPERATION AND GOVERNANCE PLAN

Berlin Township
ELECTRIC AGGREGATION
PROGRAM

OPERATION AND GOVERNANCE
PLAN

Adopted September 9, 2013

Prepared By:

I. Overview

At the May 7, 2013 election, a majority of voters authorized Berlin Township (the "Township") to create a form of government electric aggregation known as "opt-out" aggregation and to create an opt-out electric aggregation program (the "Aggregation Program") as provided under Section 4928.20 of the Ohio Revised Code. Under the opt-out electric Aggregation Program, all eligible electric consumers within the Township's applicable boundaries will be automatically included in the Aggregation Program initially. However, all consumers will also be given the opportunity to opt out of or decline participation in the Aggregation Program as detailed herein.

The Township's purpose in creating the Aggregation Program is to represent local consumer interests in emerging competitive electricity markets by combining multiple electric loads within the Township's applicable boundaries and negotiating affordable, reliable electric supplies and other related services on behalf of local consumers. The Township may pursue this purpose individually or in cooperation with other legislative authorities.

Many small commercial and residential electric consumers lack the knowledge, expertise, and bargaining power to effectively negotiate power supply rates and services. A governmental aggregation program provides these consumers with an option for expert representation and the bargaining power of a larger, more diverse consumer group that may be more attractive to suppliers, allowing them to effectively participate in the competitive process and achieve the benefits of retail electric competition.

The Aggregation Program is designed to combine multiple electric loads in order to obtain the best electric generation rate available for those who participate in the Aggregation Program, and to gain other favorable economic and non-economic terms in supply contracts. The Township will not buy and resell power, but will act as the agent for the Aggregation Program, representing the collective interests of the consumers in the Township to establish the terms and conditions for service. Through a negotiation process, the Township and its Consultant will develop a contract with a Competitive Retail Electric Services Provider (CRES Provider) or Providers for firm, all-requirements electric service. The contract will run for a fixed term (i.e., one to five years).

The Aggregation Program covers the power supply or generation portion only of a Participant's electric bill. American Electric Power Company (AEP-OH) will continue to deliver electricity to Aggregation Program Participants' homes and businesses through its electric transmission and distribution system as an electric distribution utility function regulated by the Public Utilities Commission of Ohio (PUCO). AEP-OH will also continue to install, operate and maintain its system of poles, wires, transformers and other electric distribution components. Aggregation Program Participants should continue to call AEP-OH if their power goes out or if they have billing questions. The PUCO will continue to oversee AEP-OH's electric safety and reliability service standards.

II. Process

Under an opt-out aggregation program, each eligible consumer within the Township's boundaries initially will be automatically included in the Aggregation Program on a non-discriminatory basis. However, prior to actual enrollment, each consumer for whom electric rates, terms and conditions have been negotiated will receive a notice from the Township detailing the Aggregation Program's rates, terms, and conditions.

Each consumer will then have a 21-day period to opt out of or decline to participate in the Aggregation Program without additional fees charged. Consumers opting out of the program will remain on AEP-OH's Standard Offer Generation Service until such time as they select an approved CRES Provider. If the term of the Aggregation Program is longer than three years, a similar opt-out period will be offered every three years during which time consumers can leave the Aggregation Program without paying an early termination fee, switching fee, or penalty.

Participants who leave the Aggregation Program and wish to return, as well as consumers who move into the Township after the initial opt-out period, will be afforded the opportunity to enroll in the Aggregation Program. However, the Township cannot guarantee rates, terms and conditions to consumers enrolling in the Aggregation Program after the initial 21-day opt-out period.

Participants who relocate within the Township limits and retain the same electric account number will be allowed to continue in the Aggregation Program at their new location under the same terms and conditions as at their former location, provided the utility rate classification is the same at both locations, and subject to any switching fees imposed by the utility.

The Township, through its Consultant, will negotiate a contract with a CRES Provider to implement and operate the Aggregation Program. Contracts for power supply and other related services will be negotiated, recommended, and monitored for compliance by the Township's Consultant on behalf of local consumers.

The Township developed this Plan of Operation and Governance in compliance with Ohio law regarding opt-out aggregation of electric consumers, which included holding at least two public hearings prior to its adoption.

After adoption of this Plan of Operation and Governance by resolution or ordinance pursuant to Section 4928.20 of the Ohio Revised Code, the Township will file with the PUCO for governmental aggregator certification and also register as a governmental aggregator with AEP-OH.

III. Plan of Operation and Governance

A. Definitions

1. **Aggregation:** Combining the electric loads of multiple customers for the purposes of supplying or arranging for the supply of competitive retail electric service to those customers.
2. **Aggregation Program Manager or Consultant:** The individual/company retained by the Township to oversee the operation and management of the Township's Aggregation Program.
3. **Competitive Retail Electric Service (CRES):** A component of retail electric service that is deemed competitive under the Ohio Revised Code or pursuant to an order of the PUCO. This includes, but is not limited to, the services provided by competitive retail electric service providers, power marketers, aggregators, and governmental aggregators.
4. **Competitive Retail Electric Service Provider (CRES Provider):** A person or entity certified by the PUCO and registered with an electric distribution utility which supplies or offers to supply a competitive retail electric service over an electric distribution utility's transmission and/or distribution system. This term does not apply to an electric distribution utility in its provision of standard offer generation service.
5. **Consumer:** Any person or entity that is an end user of electricity and is connected to any part of the applicable electric distribution utility's transmission or distribution system within the Township's boundaries.
6. **Delivery Charge:** Charge imposed by the electric distribution utility for delivering electricity to a consumer's home or business. The charge includes meter reading, billing, maintaining electric system reliability and responding during emergencies and outages (also called a distribution charge).
7. **Distribution:** The delivery of electricity to a consumer's home or business over an electric distribution utility's local poles, wires, transformers, substations, and other equipment. Electric distribution utilities' distribution system operations are regulated by the PUCO.
8. **Electric-Related Service:** A service that is directly related to the consumption of electricity at a consumer's home or business. This may include, but is not limited to, the installation of demand side management

measures at a consumer's premises, the maintenance, repair or replacement of appliances, lighting, motors or other energy-consuming devices at a consumer's premises, and the provision of energy consumption measurement and billing services.

9. **Electric Supply Charge:** All charges related to the generation of electricity by the CRES Provider.
10. **Governmental Aggregator:** An incorporated village or city, township, or county acting as an aggregator for the provision of a CRES under authority conferred by Section 4928.20 of the Ohio Revised Code.
11. **Kilowatt-hour (kWh):** A kilowatt-hour is 1,000 watts of electricity used for one hour. For example, a 1,000-watt appliance operating for one hour will consume one kilowatt-hour of electricity. Consumers are charged for electricity in cents per kilowatt-hour.
12. **Ohio Consumers' Counsel (OCC):** The Ohio Consumers' Counsel (OCC) was established by the Ohio Legislature in 1976 to represent the interests of Ohio's residential utility customers served by investor-owned utilities in proceedings before the PUCO, other regulatory agencies, and in the courts.
13. **Participant:** An eligible consumer enrolled in the Township's Aggregation Program.
14. **Public Utilities Commission of Ohio (PUCO):** The state agency charged with assuring that all residential and business consumers have access to adequate, safe, and reliable utility services at fair prices, while facilitating an environment that provides competitive choices.
15. **Standard Offer Generation Service:** The electric generation service a consumer will receive from its default electric service provider if the customer does not choose a CRES Provider.

B. Aggregation Program Management

Due to the complexity of the electric utility industry, the Township has entered into an Energy Management and Consulting Agreement with the Consultant to provide the necessary expertise to represent the Township's interest in legislative and regulatory matters and to serve as the Aggregation Program Manager. Such services may include, but are not limited to, overall management of the Aggregation Program, facilitating consumer enrollment and the opt-out process, assisting with consumer education, addressing consumer questions and concerns, providing reports on program operation, negotiating

CRES Provider contracts, providing analysis and review of the Township's energy service usage and costs, and providing consulting services to aggregate and procure energy and/or energy-related services, product, and accounts, and representing the Township in dealings with CRES Providers, the Ohio Legislature, the PUCO, and the OCC.

The CRES Provider's rates will include an administrative fee, which shall be collected on behalf of the Township to fund the implementation and administration of the Township's Aggregation Program, including consulting fees. The administrative fee may be adjusted annually to cover the Township's cost of administering the program.

Oversight of the Aggregation Program will be the responsibility of the Township's Consultant, in consultation with the Township. The Consultant, in consultation with the Township, will have the authority to develop specifications for the Aggregation Program. The CRES Provider will work under the direction of the Consultant with the advice and counsel of the Township.

C. Selection of a CRES Provider and Contract

The Township will not buy and resell power to Aggregation Program Participants. The Township, through its Consultant, will negotiate with potential CRES providers to provide affordable, reliable electric supplies, and other electric-related services on behalf of local consumers. The Township will consider cooperating with other governmental aggregators if it appears beneficial to do so.

Through a negotiation process driven by its Consultant, the Township will develop a contract with a CRES Provider or Providers for firm, all-requirements service. Each Aggregation Program Participant shall be individually bound by the terms and conditions found in the opt-out notice and the contract and shall be solely responsible for payment and performance. The Township will contract only with a CRES Provider or Providers that meet, at a minimum, the following criteria:

1. Certified CRES Provider by the PUCO;
2. Registered with AEP-OH;
3. Have a service agreement under AEP-OH'S Open Access Transmission Tariff;
4. Successfully completed Electronic Data Interchange (EDI) computer system testing with AEP-OH and that CRES Provider's EDI computer system is capable of effectively processing Aggregation Program EDI transactions in a timely manner;

5. Will maintain a database of Aggregation Program Participants, which will include all necessary information for the CRES Provider, Township, and Consultant to serve and manage the Aggregation Program;
6. Meet standards of creditworthiness established by the Township;
7. Has or has arranged for a customer call center capable of effectively handling Participants' questions, concerns and disputes in a timely manner using a toll-free telephone number;
8. Hold the Township harmless from any financial obligations arising from offering electricity and/or energy-related services to Aggregation Program Participants; and
9. Will assist the Township and its Consultant with the filing of reports required by Ohio law and the PUCO.

The CRES Provider's contract will run for a fixed term (i.e., one to five years) and contain all pricing, charges, switching fees, etc. in clear and easily understandable terms.

The Township will require any CRES Provider to disclose any subcontractors that it uses in fulfillment of the services described herein.

D. Electric Supply Charges

The Township, through its Consultant, will aggregate electric loads within the Township's applicable boundaries (including Township facilities) and negotiate mutually agreeable pricing, terms, and conditions of service with the CRES Provider for affordable, reliable electric supplies and other related services on behalf of Participants. The Township may pursue this purpose individually or in cooperation with other entities. CRES Providers will supply information on electric supply charges by utility customer rate classification or other appropriate pricing category as approved by the Township. All electric supply charges will be fully and prominently disclosed in consumer enrollment materials, the opt-out notice, and will be subject to approval by the Township.

E. AEP-OH'S Regulated Customer Classifications and Rates

The applicable electric distribution utility assigns customer rate classifications, character of service, and associated regulated rates subject to PUCO-approved tariffs. In addition to the CRES Provider's generation charges, consumers will continue to be billed for the AEP-OH's service and delivery charges. Although the Township may participate in regulatory proceedings and represent the interests of consumers regarding these regulated rates, it cannot assign or alter customer rate classifications.

It is the intention of the Township to offer its Aggregation Program to eligible non-mercantile customers in any and all customer classifications, and in all rate categories, for which the CRES Provider can offer a savings compared to the electric distribution utility's avoidable costs or price to compare.

It is also the intention of the Township to offer its Aggregation Program to mercantile customers on an opt-in basis by contacting the CRES Provider to enter into a contract for electric service. The contract shall establish the rate for the mercantile customer's participation in the Aggregation Program.

F. Developing the Pool of Eligible Accounts

The Township or its Consultant shall request the electric distribution utility to provide current customer information for all customers within the Township's boundaries. The provided information shall include the following:

- Customer name;
- Customer service address;
- Customer billing address;
- Electric distribution utility customer account number;
- Electric distribution utility rate code;
- Electric distribution utility PIPP code;
- Customer load data;
- Whether or not a customer has a present contract with a CRES Provider; and
- Whether or not a customer has a special service contract with the electric distribution utility.

From this information, the Township, its Consultant, and the CRES Provider will develop the pool of customers eligible to participate in the Aggregation Program, for which the CRES Provider can offer savings.

G. Initial Consumer Notification and Enrollment

After contract approval by the Township and its Consultant, the CRES Provider will work with the Township, its Consultant, and the electric distribution utility to identify all eligible consumers within the Township's boundaries.

All eligible consumers will be notified in writing of the rates, charges and other terms and conditions of participation in the Aggregation Program and that they will be automatically enrolled in the Aggregation Program unless they opt out of, or decline participation in, the Aggregation Program. Consumers will be given 21 days from the postmark date of the opt-out letter in which to notify the Township

that they wish to opt out of, or decline participation in, the Aggregation Program without penalty fees. Consumers opting out of the program will remain on the applicable utility's Standard Offer Generation Service until such time as they select an approved CRES Provider.

Consumers may opt out of the Aggregation Program by returning a post card or other form provided in the opt-out letter.

After the initial 21-day opt out period has elapsed, all eligible consumers who have not notified the Township of their desire to opt out of the Aggregation Program will be enrolled automatically by the CRES Provider at the earliest date practicable. No other affirmative steps will be required of consumers in order to be included in the Aggregation Program as Participants.

Consumers ineligible to participate in the Aggregation Program include those customer accounts that are located outside the Township's boundaries, customers who are already in contract with a CRES provider, customers in a "special rate" contract with an electric distribution utility, and Percentage of Income Payment Plan (PIPP) consumers and consumers whose accounts are not current with their present electric distribution utility, as appropriate. The aggregation of PIPP customers is under the direction of the State of Ohio.

Consumers enrolled in the Aggregation Program by the CRES Provider will receive a letter from their electric distribution utility notifying them of their enrollment. Consumers will have seven calendar days to notify the electric distribution utility of any objection to their enrollment in the Aggregation Program. The applicable electric distribution utility will notify the CRES Provider of consumer objections or any reason that a consumer was not enrolled in the Aggregation Program and the CRES Provider will maintain a list of customers who have opted out under the Aggregation Program rules.

The CRES Provider will report to the Township the status of the Aggregation Program enrollment on at least a quarterly basis.

H. Leaving the Aggregation Program

In addition to the initial opt-out period described above, each Participant will be given an opportunity to opt out of the Aggregation Program every three years without paying an early termination fee, switching fee, or penalty as required by law and PUCO rules. Consumers who choose to opt out of the Aggregation Program at any time other than during the initial 21-day opt-out period or during subsequent opt-out periods offered by the Township, may be subject to an early termination fee and may not be served under the same rates, terms and conditions that apply to other customers served by the electric distribution utility.

Any consumer who opts out of the Aggregation Program during the initial opt-out period or subsequent opt-out periods will be returned to their electric distribution utility's Standard Offer Generation Service until such time as the consumer selects another approved CRES Provider.

I. CRES Provider Responsibilities

The CRES Provider will build and maintain a database of all Aggregation Program Participants. The database will include the name, address, utility service delivery identification (SDI) number, and other pertinent information as agreed upon by the Township, Consultant, and the CRES Provider. Such information may include the CRES Provider's account number (if different from utility's SDI number), rate code, rider code (if applicable), most recent 12 months of kWh consumption and kW demand, and meter reading cycle. The Aggregation Program database will be updated at least quarterly. The Township will have the right to access information in the database for purposes of auditing.

The CRES Provider will provide and maintain the required Electronic Data Interchange computer system to effectively process Aggregation Program enrollments, opt outs, billing, etc., with the applicable electric distribution utility.

The CRES Provider will provide a local or toll-free telephone number for Participant questions or concerns about enrollment, opt-out provisions, billing, and other Aggregation Program issues.

The CRES Provider will develop internal controls and processes to help ensure that the Township remains in good standing as a governmental aggregator that complies with all laws, rules, and regulations regarding the same as they may be periodically amended.

J. New and Returning Participants

Participants who leave the Aggregation Program and wish to return, Participants who initially opt out of the program and later wish to join, and consumers who move into the Township after the initial opt-out period will be afforded the opportunity to enroll in the Aggregation Program. However, the Township cannot guarantee rates, terms, and conditions to consumers enrolling in the Aggregation Program after the initial 21-day opt-out period. Consumers may contact the CRES Provider or Township's consultant to obtain current enrollment information.

Participants who relocate within the Township limits and retain the same electric utility account number will be allowed to continue in the Aggregation Program at

their new location under the same terms and conditions as at their former location, provided the electric utility rate classification is the same at both locations, and subject to any switching fees imposed by the consumer's former electric distribution utility.

The CRES Provider will comply with all local, state and federal rules and regulations regarding discontinuing service to Aggregation Program Participants.

K. Billing

At this time, the Township plans to utilize the applicable electric distribution utility's consolidated billing service in which each consumer account receives one bill itemizing the CRES Provider's electric supply charges and electric distribution utility's delivery, and other PUCO-approved charges. The billing statement will be consistent with applicable PUCO rules and regulations. The Township will consider other billing options, including CRES Provider consolidated or dual billing, if and when they become available and if it appears advantageous to do so.

L. Questions and Concerns

The Aggregation Program only impacts the source of generation of power supply. The applicable electric distribution utility will continue to deliver the electricity purchased through the Aggregation Program to Participants' homes and businesses through its electric transmission and distribution system.

Participants with question or concerns regarding service delivery or safety, such as a power outage, a downed power line, sparking power lines or equipment, low voltage, etc., should continue to contact their electric distribution utility. Meter reading or other billing questions should also be directed to AEP-OH. Questions regarding Aggregation Program enrollment and opting out should be directed to the CRES Provider. Any other general questions regarding the Aggregation Program should be directed to the Township's Consultant.

Question or Concern	Contact	Phone Number
Power outage or interruption	AEP-OH	(800) 672-2231
Connect/disconnect service	AEP-OH	(800) 672-2231
Meter reading/billing	AEP-OH	(800) 672-2231
Enrollment in or opting out of Aggregation Program	IGS Energy	(800) 280-4474
Aggregation Program Questions or Concerns	Trebel LLC	(877) 861-2772
Unresolved disputes	Public Utilities Commission of Ohio	(800) 686-7826 (voice) (800) 686-1570 (TDD)

M. Reliability and Indemnification of Consumers

Electric service reliability is essential to Aggregation Program Participants. The Township will strive to provide high-quality service and reliability through provisions of the CRES Provider contract, through traditional proceedings related to your electric distribution utility's regulated transmission and distribution services, and through direct discussions with your electric distribution utility concerning specific or general problems related to quality and reliability of its transmission and distribution system.

If for any reason a CRES Provider fails to provide uninterrupted service, the Township and its Consultant will attempt to acquire an alternative power supply. If this attempt fails, Participants will default to the applicable electric utility's Standard Offer Generation Service. In no case will Participants be without power as a result of the CRES Provider's failure to provide the supply of generation. The Township and its Consultant will seek to minimize this risk by contracting only with reputable CRES Providers that have demonstrated reliable service. The Township, through its Consultant, also intends to include conditions in its CRES Provider contract that will indemnify Participants against risks or problems with power supply service and price.

N. Participant Rights

All Aggregation Program Participants shall enjoy the protections of law afforded to consumers as they currently exist or as they may be amended from time to time. These include rights to question billings or service quality or service practices. All consumers shall also enjoy the individual right to decline participation in the Aggregation Program subject to the terms and conditions contained herein.

All Aggregation Program Participants will be treated equitably. They will be guaranteed the rights to raise and resolve disputes with the CRES Provider, be

provided all required notices and information, and always retain the right to opt out of the Aggregation Program or switch suppliers subject to the terms and conditions contained herein.

All consumers within the Township's boundaries shall be eligible to participate in the Aggregation Program on a non-discriminatory basis, subject to the terms and conditions described herein, Ohio law, PUCO rules and regulations governing electric service, and applicable electric utilities' approved tariffs.

Service under the Aggregation Program shall include all eligible customer classes in adherence with universal service principles and requirements, as well as the traditional non-discriminatory practices of local government. CRES Provider contracts shall contain provisions to maintain these principles and equitable treatment of all customer classes.

Low-income consumers shall remain subject to all provisions of Ohio law and PUCO rules and regulations as they may be amended from time to time regarding their rights to return to the applicable electric utility's Standard Offer Generation Service and participation in the Aggregation Program.

O. Participant Responsibilities

Aggregation Program Participants are subject to the same standards and responsibilities as other electric consumers, including payment of billings and access to metering and other equipment necessary to carry out utility operations.

P. Termination of the Aggregation Program

The Aggregation Program may be discontinued upon the termination or expiration of the CRES Provider contract without any extension, renewal, or subsequent contract being executed. In the event of Aggregation Program termination, each Participant will receive written notification of the termination at least 60 days prior to such program termination and will have the option to return to the applicable electric utility's Standard Generation Offer Service or select another approved CRES Provider.

April 30, 2012

Dear Berlin Resident:

The Township of Berlin is providing you the opportunity to save money on your electric bill by participating with other Berlin residents and businesses in an opt-out electric aggregation program, with IGS Energy of Dublin, Ohio as your provider of electric in the Township of Berlin.

Under governmental aggregation, Berlin acts on behalf of electric consumers in the community to negotiate an electric supply contract with an eligible provider. Both Berlin and eligible retail electric suppliers have to be certified by the Public Utilities Commission of Ohio. Berlin Township Council passed an ordinance to adopt the program after Berlin voters approved its implementation in November 2011. The aggregation program for the Township of Berlin will begin within one to two billing periods following your inclusion as a participant in the Township's program and **end with your May 2015 billing period.**

Under this aggregation program, residents in the Township of Berlin will pay a price that is 20% less per KWH than the typical residential customer.* IGS Energy's price applies to the generation and transmission portion of your bill. **If you are ever unhappy with your service or rate from IGS Energy, you may cancel free of charge at any time** and return to AEP at a rate and terms that may or may not be the same as what other AEP customers pay.

You will be automatically enrolled in Berlin's Electric Aggregation Program unless you choose to "opt out" – that is, affirmatively choose to not participate. If you want to be excluded from the Township of Berlin Electric Aggregation Program, you must return the enclosed "Opt-Out" Form or contact IGS Energy at 1-877-915-4447 by **November 21, 2013**. If you do not cancel or opt-out at this time, you will be enrolled in the program until it expires with your May 2015 billing period. If you do opt-out, you will continue to receive AEP's standard service offer rate.

Under this aggregation, AEP will continue to maintain the wires system that delivers power to your home or business. You will still contact AEP regarding loss of power service or for any other concerns or issues having to do with your electric service. You will continue to receive a single bill from AEP for your electric service with your lower IGS Energy rate included.

If you have any questions please call IGS Energy at 1-877-915-4447, weekdays, from 8:00 a.m. to 8:00 p.m. EST. For general information on deregulation in Ohio, you can also visit the Web Site of the Public Utilities Commission of Ohio (www.PUCO.ohio.gov).

*Sincerely,
IGS Energy and The Township of Berlin*

*Savings comparison calculated by using the Ohio Power Company (AEP) tariff rate effective 1/1/12 for a residential customer in Rate Class 015. Actual savings may vary depending on individual customer usage. Further, AEP's electric rates may change from time to time due to regulatory proceedings, including but not limited to those before the Public Utilities Commission of Ohio. A change in AEP's rates may affect savings percentage.

P.S. Remember to return the "Opt-Out" form only if you do **not** want to participate in the Township of Berlin Electric Aggregation Program.

If the home for which you have received this letter is not located within Township limits of Berlin, you have received this letter in error. Please contact IGS Energy at 1-877-915-4447 to be removed from the aggregation list.

You are not eligible to participate in this program if you are currently enrolled in the PIPP program.

I wish to opt out of the @FullCityname@ Natural Gas Governmental Aggregation Program

Dear Berlin Business Owner:

The Township of Berlin is providing you the opportunity to save money on your electric bill by participating with other Berlin residents and businesses in an opt-out electric aggregation program, with IGS Energy of Dublin, Ohio as your provider of electricity.

Under governmental aggregation, Berlin acts on behalf of electric consumers in the community to negotiate an electric supply contract with an eligible provider. Both Berlin and eligible retail electric suppliers have to be certified by the Public Utilities Commission of Ohio. Berlin City Council passed an ordinance to adopt the program after Berlin voters approved its implementation in November 2011. The aggregation program for the Township of Berlin will begin within one to two billing periods following your inclusion as a participant in the City's program and **end with your May 2015 billing period.**

Under this aggregation program, eligible businesses in the Township of Berlin will pay a price that is 13% less per KWH than the typical commercial customer.* IGS Energy's price applies to the generation and transmission portion of your bill. **If you are ever unhappy with your service or rate from IGS Energy, you may cancel free of charge at any time** and return to AEP at a rate and terms that may or may not be the same as what other AEP customers pay.

You will be automatically enrolled in Berlin's Electric Aggregation Program unless you choose to "opt out" – that is, affirmatively choose to not participate. If you want to be excluded from the Township of Berlin Electric Aggregation Program, you must return the enclosed "Opt-Out" Form or contact IGS Energy at 1-877-915-4447 by **November 21, 2013.** If you do not cancel or opt-out at this time, you will be enrolled in the program until it expires with your May 2015 billing period. If you do opt-out, you will continue to receive AEP's standard service offer rate.

Under this aggregation, AEP will continue to maintain the wires system that delivers power to your home or business. You will still contact AEP regarding loss of power service or for any other concerns or issues having to do with your electric service. You will continue to receive a single bill from AEP for your electric service with your lower IGS Energy rate included.

If you have any questions please call IGS Energy at 1-877-915-4447, weekdays, from 8:00 a.m. to 8:00 p.m. EST. For general information on deregulation in Ohio, you can also visit the Web Site of the Public Utilities Commission of Ohio (www.PUCO.ohio.gov).

*Sincerely,
IGS Energy and the Township of Berlin Trustees,*

*Savings calculation based on historical load profile provided by Ohio Power Company (AEP) for Rate Classes GS-1, GS-2, and GS-3. Actual savings may vary depending on individual customer usage. Further, AEP's electric rates may change from time to time due to regulatory proceedings, including but not limited to those before the Public Utilities Commission of Ohio. A change in AEP's rates may affect savings percentage.

P.S. Remember to return the "Opt-Out" form only if you do **not** want to participate in the Township of Berlin Electric Aggregation Program.

If the home for which you have received this letter is not located within City limits of Berlin, you have received this letter in error. Please contact IGS Energy at 1-877-915-4447 to be removed from the aggregation list.

You are not eligible to participate in this program if you are currently enrolled in the PIPP program.

City & Address

IGS Energy Frequently Asked Questions

What is aggregation?

Under governmental aggregation, local officials bring citizens together to gain group buying power for the purchase of competitively priced electricity from a retail electric generation supplier certified by the Public Utilities Commission of Ohio.

How is my community able to choose a certified electric generation supplier on my behalf?

Residents voted to allow the community to contract for an electric generation supplier on their behalf.

Who is IGS Energy?

Since 1989, IGS has been known for our energy expertise and simple, clear customer solutions. As America's largest independent retail supplier of natural gas and a trusted energy provider, we've built our business on one simple idea: residential and business customers should be able to choose the energy supplier that best meets their needs. When customers have choices, market forces motivate competing suppliers to offer more variety and better prices. It's a win-win for every one of the residential, small business, commercial, and industrial customers in the eleven-state region that IGS Energy serves.

How will I know if I can save money under the electric governmental aggregation program?

The price you pay for electric generation supply is guaranteed to be lower because you'll always receive the percent discount for your electric generation.

What do I need to do if I *want* to be included in this governmental aggregation?

You do not need to do anything to receive the discounted generation pricing under this program. You may choose to remain in the aggregation group and begin receiving your discount by simply not returning the opt-out form.

If I join my community's governmental aggregation program, who will deliver my power, read my meter and respond to emergencies, such as power outages?

Your electric utility will be responsible for the delivery of power to your home or business. Since your electric utility still owns the wires and poles that deliver power to you, it will continue to read your meter and restore power after an outage.

Is your price for residential power fixed, or does it vary?

In this program, the discount you will receive each month does not change. But because the actual price per kWh charged by the utility may change each month (based on the season and your usage), the price per kWh from IGS Energy will also change each month.

What does "opt out" mean?

"Opt out" means that you can decide not to participate in your community's electric governmental aggregation program. By returning the opt-out form, which is included in this mailing, by the Opt Out Deadline you will not be enrolled as an electric generation customer with IGS Energy, your community's competitive electric generation supplier, and you will not receive the discount.

What happens if I do not send in the opt-out form?

If you do not return the opt-out form postmarked by the Opt Out Deadline, you will be included in your community's governmental aggregation program and will receive competitively priced electricity from IGS Energy Electric Services.

Can I opt out over the phone?

No, if you want to opt out, you must mail in your completed opt-out form and it must be postmarked by the Opt Out Deadline.

Can I opt out of the program at a later date?

Yes, but you will be subject to the early termination fee from IGS Energy if you cancel for any other reason but moving. Once enrolled, you will receive a notice prior to the current term end date, December 2014, and, in any case, at least every three years asking if you wish to remain in the program. At that point, you may opt out at no cost.

What are my energy supply choices if I decide to opt out?

You can stay with your current electric utility, which will continue to supply your electric generation as it always has, or you can shop for an alternative generation supplier. A list of competitive electric suppliers certified by the Public Utilities Commission of Ohio and their current prices are available by calling 1-800-686-PUCO (1-800-686-7826).

If I join the aggregation, can I stay on budget billing?

Yes, you can remain on budget billing; however, only your charges from the utility (Distribution) will continue to be budgeted. Your charges from IGS Energy (Generation & Transmission) will not be budgeted – you will pay the full amount each month.

Can I still have my payment automatically deducted from my checking account as I do now?

Yes. How you pay your electric bill will not change.

Additional FAQs for all-electric space heating, electric water heating and/or load management customers:**I receive a credit from my electric utility for my electric water heating. Will I miss out on this credit if I join this program?**

Because IGS Energy is offering a discount off the Price to Compare, you are not missing out on any of the savings that utility credits provide.

If I leave this program at a later date, will I be able to keep the credits I get from my utility for having all electric space heating, electric water heating and/or load management equipment?

Yes. This discount is in addition to the generation credit reflected in your Price to Compare. So if you cancel your contract with IGS Energy, you will continue to receive the credits from your utility for having all-electric space heating, electric water heating and/or load management equipment as long as those credits are being offered.

What is the toll-free number for questions?

If you have any questions, please call IGS Energy at 1-877-915-4447, Monday through Friday, 8 a.m. to 5 p.m.

Environmental Disclosure Information – Quarterly Comparisons

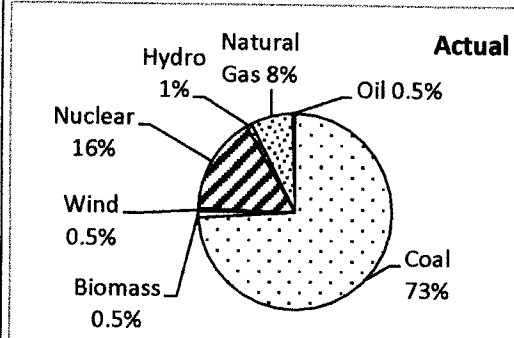

IGS Energy

Projected Data for the 2013 Calendar Year

Actual Data for the Period 01/01/2013 to 03/31/2013

Generation Resource Mix -

A comparison between the sources of generation projected to be used to generate this product and the actual resources used during this period.

Environmental Characteristics--

A description of the characteristics associated with each possible generation resource.

Biomass Power	Air Emissions and Solid Waste
Coal Power	Air Emissions and Solid Waste
Hydro Power	Wildlife Impacts
Natural Gas Power	Air Emissions and Solid Waste
Nuclear Power	Radioactive Waste
Oil Power	Air Emissions and Solid Waste
Other Sources	Unknown Impacts
Solar Power	No Significant Impacts
Unknown Purchased Resources	Unknown Impacts
Wind Power	Wildlife Impacts

Air Emissions –

Product-specific projected and actual air emissions for this period compared to the regional average air emissions.

Radioactive Waste –

Radioactive waste associated with the product.

Type:	Quantity:
High-Level Radioactive Waste	Lbs./1,000 kWh
Low-Level Radioactive Waste	Ft ³ /1,000 kWh

Note: The generation of this product involves the use of x% of unknown purchased resources. The air emissions and radioactive waste associated with these unknown resources are not included in these charts.

With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs. For further information, contact IGS Energy at www.igsenergy.com or by phone at 1-877-915-4447.

EXHIBIT A-5

EXPERIENCE

Exhibit A-5 "Experience"

Applicant's Experience and Plan for Providing Aggregation Services:

Due to the complexity of municipal aggregation, the applicant Berlin Township "Township" will rely on the energy consulting services of Trebel, LLC to assist them in designing, implementing and maintaining the Program. Trebel, LLC is a PUCO certified Electric Aggregator/Broker (certificate #12-537E(1)) and Natural Gas Aggregator/Broker (certificate #12-267G(1)). Trebel, LLC has experience in managing numerous governmental programs in the Ohio market.

Below is a detailed summary of services being provided:

Broker shall provide energy related Services, including but not limited to the following:

- Assist with the preparation and submission of Governmental Aggregation application for the Public Utilities of Ohio ("PUCO");
- Assist with preparation of resolutions, public notices, Plan of Operations and Governance, and communications with residents;
- Evaluate existing electric costs and rates and provide market expertise;
- Where applicable prepare Request of Proposal (RFP);
- Assist with usage data collection and verification;
- Pre-screen all energy suppliers and act as point of contact;
- Work directly with suppliers to meet all requirements related to local governments aggregation plan. This includes preparation of all notifications required to be sent to participants;
- Act as an exclusive sourcing agent with the suppliers;
- Assist with preparation of ongoing reporting requirements of the PUCO; and

Trebel, LLC is a national energy consulting company serving commercial, governmental, small business and residential clients primarily throughout the deregulated energy markets. Our primary mission is to help clients by lowering their energy supply cost, increase site efficiency and leverage state and federal incentive opportunities.

The Applicant Berlin Township (the "Township") has contracted with Interstate Gas Supply, Inc. ("IGS Energy") to provide administrative and retail generation supply services for the Townships Aggregation Group, which is comprised of all eligible AEP CSP customers located in the Township who do not opt out of the Group. IGS Energy has already successfully completed one electric governmental aggregation program for the City of Kenton, Ohio.

Interstate Gas Supply, Inc., dba IGS Energy, is one of the nation's largest independent competitive natural gas and electric suppliers. Based in Dublin, IGS Energy serves more than one million customers in eleven states across the country. Certified by the Public Utilities Commission of Ohio, IGS has been serving municipal aggregations in the State for more than a decade; and thus has

vast experiential knowledge of the complexities and nuances associated with the regulatory requirements governing opt-out municipal aggregation programs.

IGS Energy has invested in the development of internalized supply and customer service departments. These key departments are housed at corporate headquarters and staffed by individuals with a wealth of experience in their respective disciplines. Call center staff is trained to handle all in-coming aggregation calls, including customer inquiries and requests to opt-out. Open six days a week, the call center is designed to accommodate the needs of municipal residents.

Billing for aggregation participants will be provided by the host utility.
