Re: Case No. 13-1115-TP-COI

Dear Ms. McNeal:

Attached are the annual reports by Frontier Communications of Michigan, Inc., filed with the Federal Communications Commission (FCC) on September 18, 2013, in compliance with 47 CFR §54.313 and 47 CFR §54.422. Section 54.313 applies to an eligible telecommunications carrier (ETC) receiving high-cost federal USF support. Section 54.422 applies to ETCs receiving low-income support. Both sections require the ETC to file an annual report with the FCC, the Universal Service Administrative Company (USAC), and its relevant state commission. This year the FCC extended the filing due date from July 1 to October 15.¹

Frontier Communications of Michigan, Inc. requests the Public Utilities Commission of Ohio to file the annual certification regarding federal high-cost support with USAC and the FCC, pursuant to 47 CFR §54.314(a).

If you have any questions, feel free to contact me at 740-383-0490.

Sincerely,

/s/ Cassandra Cole

The FCC does not require completion of the above-listed items in the 2013 filing. In the FCC's Public Notice DA 13-1707, released August 6, 2013, these items were not included in the list of items that must be included in the 2013 filing.¹

¹ The Public Notice stated, in relevant part:

For 2013, ETCs that receive high-cost support must complete FCC Form 481 to include the following: Information pursuant to section 54.313(a)(2) through (a)(6) as it relates to their provision of voice telephony service in calendar year 2012; their holding company, operating companies, affiliates (as defined under section 3 of the Communications Act of 1934, as amended (the Act), 47 U.S.C. § 153(2)) that are also designated as ETCs and/or that provide retail broadband Internet access to end-user customers), and any branding, pursuant to section 54.313(a)(8) of the Commission's rules; 6 for those ETCs that serve Tribal lands, a report on Tribal government engagement pursuant to section 54.313(a)(9); for price cap carriers only, certifications pursuant to section 54.313(c) and (d), as appropriate; for rate-of return carriers only, their financial information pursuant to section 54.313(f)(2), as appropriate; and for those ETCs without access to terrestrial backhaul that are compelled to rely exclusively on satellite backhaul in their study areas, certifications pursuant to section 54.313(g).

Line 510 – Description of Compliance with Service Quality Standards and Consumer Protection:

The Frontier ILEC companies certify that they comply with applicable state and FCC service quality standards. Service quality metrics are monitored and reported on a monthly basis. Frontier has implemented numerous Consumer Protection measures to protect customer information from improper use and disclosure as well as to protect against fraud. For example, Frontier has implemented Customer Proprietary Network Information (policies and procedures) that are consistent with the FCC's regulations. Frontier regularly trains employees who have access to CPNI on the rules and our procedures for securing accounts and authenticating callers. Frontier also has a comprehensive Identity Theft Protection Program (or Red Flag program) which is consistent with the FTC's guidance on measures to detect and prevent identity theft. All employees are trained on Frontier's Code of Business Conduct and Ethics, which requires employees to protect sensitive customer information from improper use and disclosure. Frontier also has a Data Privacy and Security policy which applies to all employees. Further, Frontier also has implemented a strict third-party qualification protocol to prevent unauthorized charges ("Cramming") from appearing on customer's bills. Frontier also follows a "First Call" resolution policy, which aims to resolve customer complaints about unauthorized charges in one call, without referral to any third party. In addition to the foregoing, Frontier, has implemented customary IT security measures to protect our network and customer information.

Line 610 - Description of Functionality in Emergency Situations

The Frontier ILEC companies certify that they follow best practices that are designed to allow them to remain functional in an emergency situation through the use of back-up power to ensure functionality in the event of a limited commercial power failure. Frontier's policy is that at sites where there is a generator, it will also have batteries capable of providing three-to-four hours of backup power. Sites that are provisioned to allow portable generators typically have up to eight hours of battery backup power available. Frontier adheres to formal maintenance and testing schedules of batteries and generators based on the GTE practices, the Bell standard and manufacturer standards. Batteries are load tested routinely. On site generators are tested monthly with an annual "blackout" test also incorporated. Routine maintenance occurs regularly throughout the year. Portable generators are load tested once a year along with performing the manufacturer recommended maintenance.

The companies' network is engineered to provide maximum capacity in order to handle excess traffic in the event of traffic spikes resulting from emergency situations. Carrier audits its circuits in order to provide redundancy in its network where feasible for use in re-rerouting traffic when facilities are damaged.
