**ACCESS SERVICE****4. End User Access Service and Presubscription (Cont'd)****4.2 Presubscription (Cont'd)****(B) (Cont'd)****(4) Presubscription of Sent-Paid Coin**

When a pay telephone end user or agent has selected a primary IC for their interLATA interstate 0+ and 00- traffic, the IC selected shall indicate how the 1+ interLATA interstate traffic from the pay phone(s) shall be routed. The option chosen by the IC will apply to all pay telephones provided from a single end office which are presubscribed to that IC.

The IC shall submit an order for each end office indicating whether 1+ traffic from its presubscribed pay telephones shall be routed to itself (as direct IC) or to another IC (as designated IC). If calls are to be routed to another IC, the 0+ IC must provide a letter of agency certifying that the order is being submitted pursuant to an agreement with the designated carrier. Only one designated IC may be indicated for each end office.

If the IC designated as the primary IC for 0+ and 00- traffic does not submit an order designating the carrier for 1+ traffic for pay telephones at an end office, the 1+ traffic for that office will continue to be routed to the existing 1+ carrier until such times as the 0+ carrier submits an order designating itself as the direct IC or another carrier as the designated IC.

**(5) Interstate IntraLATA Toll Calls**

Interstate intraLATA toll calls within LATAs as defined in Tariff F.C.C. No. 4, Section 3.1 will be carried by the IntraLATA Presubscription Primary Interexchange Carrier (PIC) selected by the end user. As of February 8, 1999, Interstate IntraLATA Presubscription is available in all states.
