October 15, 2013

Via Federal Express

Barcy F. McNeal, Secretary Public Utilities Commission of Ohio 180 East Broad Street Columbus, OH 43215

Re: In the Matter of the Annual Filing Requirements for 2013 Pertaining to the Provisioning of High Cost Universal Service, Case No. 13-1115-TP-COI; 2013 FCC 481

Dear Secretary McNeal:

Enclosed for filing in the above-captioned docket on behalf of Orwell Telephone Company ("Orwell") please find the Federal Communications Commission's Form 481. No aspect of the filing is marked confidential.

Orwell requests that you certify to the FCC, as required by 47 C.F.R § 54.314, by the deadline of December 16, 2013 that Orwell should continue receiving Federal high cost support.

Should you or any member of the Commission Staff have any questions, please do not hesitate to contact me. Thank you for your attention to this matter.

Sincerely,

THOMAS, LONG, MIESEN & KENNARD By orman Kennard

Orwell Telephone Company Ohio 300649 Service Quality Reporting/Consumer Protection Rules Compliance:

Orwell Telephone Company, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Ohio Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with Dispute standards as Identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its 2005 ETC Order,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

Orwell Telephone Company, is not currently subject to service quality reporting. The Ohio Public Utilities Commission's Rules Chapter 4901:1-6 "Telephone Company Procedures and Standards" section 4901:1-6-12 "Service Requirements for BLES" states "A local exchange carrier (LEC) providing basic local exchange service (BLES) shall conduct its operations so as to ensure that the service is available, adequate, and reliable consistent with applicable industry standards." FairPoint Communications currently is not required to report any service quality results unless requested by the Ohio Public Utilities Commission. For the service quality standards FairPoint Communications does track (a) installation within 5 business days; (b) Out of Service Repair within 24 hours; and (c) Service Affecting Repair within 72 hours. Its results are available, adequate, and reliable consistent with applicable industry standards.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at <u>consumer@fairpoint.com</u>. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan (BCP) is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope & Structure
- Recovery Strategies and Logistics
- Plan Maintenance and Exercising

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- <u>Customer Interfacing</u> It is recognized that a "business impact" only occurs when an <u>external-interfacing</u> element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- <u>Infrastructure Integrity</u> Without critical infrastructure systems, the ability for all other FairPoint business
 operations (back/front office) can come to a halt. It is these infrastructure systems that provide the critical
 human-factor of our customer-interfacing services. Critical infrastructure would address such services /
 systems as, building space for staff, service utilities, telecom network, IT network, etc.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- · IT/IS
- Administrative and Support Operations
- Inside and Outside Plant Operations
- NOC (Network Operations Center)
- E-9-1-1
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents (i.e., work-stoppage and pandemic). All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

1 Davis Farm Road Portland, ME 04103 Barney Boynton Director, Operational Risk

BCP Structure

The BCP consists of several components:

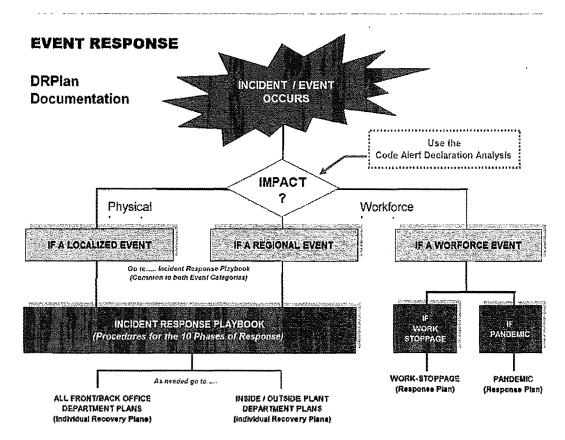

- The BCP Manual (an overview of all BCP documents)
- IR Playbooks (addresses the response procedures for Physical and Workforce related events),
- Appendices (the IR Playbook procedures links to these Resources Files)
- Department Recovery Plans (Business and Plant Operations)
- Business Impact Assessments (Business and Plant Operations)

The Event Response diagram below identifies the overall BCP documentation and how a disruption or incident will dictate which path of the BCP will be followed to restore business operations.

Once the incident or disruption occurs, the impact first needs to be quickly assessed to determine whether it is a physically disruptive event (local or regional) ("Physically Disruptive Event") or a workforce disruptive event (work-stoppage or pandemic) ("Work-Force Related Disruptive Event"). The disruption is always focused on critical business operations and services that can impact customer interfacing / deliverables.

1 Davis Farm Road Portland, ME 04103 Barney Boynton Director, Operational Risk

Recovery Strategies and Logistics

Our BCP is based on the premise that FairPoint cannot stop disasters from occurring, but we can address the IMPACT of incidents should they occur. Where possible we will provide risk mitigation measures that will minimize the likelihood of having a serious disruptive incident but in no case can we eliminate all disruptive possibilities. The BCP is triggered by a Disruption Scenario, not a Threat Scenario. FairPoint pre-plans for potential break-points that can result in a customer interfacing disruption and incorporates recovery strategies that will inherently address any potential threat and any resulting business disruption impact. The actual threat (i.e. fire, flood, etc.) is pertinent only with respect to immediate response activities. All subsequent response efforts are focused on the assessment of damages (physical losses and recovery duration) and the implementation of restoration and recovery strategies. The restoration of the business servicing operations and infrastructure systems is based on salvage, replacement of systems and alternate functionality measures, which are pre-defined in the BCP.

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements have a high level of consideration in

1 Davis Farm Road Portland, ME 04103 Barney Boynton Director, Operational Risk

addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations.

The Ten Response Phases of Physical Event are:

- Incident Notification
- Visual Damage Assessment
- Incident Stabilization
- Command Center Initiation
- Initial Notifications to Business Departments to activate plans
- Primary Site Damage Assessments
- Ready Alternate Restoration Sites
- Primary Site Salvage & Recovery
- Business Restoration Process
- Primary Site Re-established

Plan Maintenance and Exercising

The BCP is a living document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are scenario tested with oversight from FairPoint's Corporate Risk Management Team.

Orwell Telephone Company provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The tarlif page outlining the terms of the Lifeline Program in Orwell Telephone Company is attached. The terms and conditions of residential basic local exchange service, package and bundle offerings can be found at http://www.tariffs.net/fairpoint/tier.asp?cid=1644.

Orwell Telephone Company d/b/a FairPoint Communications SECTION NO. 4 First Revised Sheet No. 1 Replaces Original Sheet No. 1

Effective: June 11, 2012

P.U.C.O. NO. 8

LIFELINE REQUIREMENTS

The Company shall provide Lifeline service as defined in 47 C.F.R. § 54.401(a) on a non-discriminatory (N) basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to, 47 C.F.R. Part 54, Subpart E; the PCC's Lifeline reform order (Report and Order released Pebruary 6, 2012, WC Docket No, 11-42, et.al) and any subsequent clarifying orders; Section 4927.13, Revised Code; Rule 4901:1-6-19, Ohio Administrative Code; and the Commission's nontraditional Lifeline service order (Finding and Order adopted May 23, 2012, Case No, 10-2377-TP-COI) and any subsequent entries and/or orders

Issued: June 11, 2012
