Re: In the Matter of the Annual Filing Requirements for 2013
FCC Form 481, Carrier Annual Reporting Data Collection Form
Case No. 13-1115-TP-COI

Dear Ms. McNeal:

Pursuant to section 54.313(i) of the Federal Communications Commission's ("FCC's") rules,¹ AT&T Ohio hereby provides a copy of its FCC Form 481, Carrier Annual Reporting Data Collection Form, that it filed with the Universal Service Administrative Company on October 11, 2013 and that it will file with the FCC when the federal government reopens. All eligible telecommunication carriers that receive high-cost and/or low income support must file Form 481 with the FCC in order to continue receiving such support. In a public notice released August 6, 2013, the FCC extended the Form 481 filing deadline to October 15, 2013.

The collection of data and information contained in FCC Form 481 is done under the FCC's authority in section 254 of the Communications Act of 1934, as amended, 47 U.S.C. § 254, and sections 54.313 and 54.422 of the Commission's rules, 47 C.F.R. §§ 54.313 and 54.422. The FCC anticipates that state commissions will use the data contained in carriers' FCC Form 481 filings to develop their section 54.314 certifications.² This year, such certifications are due on or before December 16, 2013.³

Thank you for your courtesy and assistance in this matter. Please contact me if you have any questions.

Very truly yours,

/s/ Jon F. Kelly

3. FEATURELINKSM SERVICE (cont'd)**F. Prices (cont'd)****3. Payment Plans**Month to Month

The minimum period is one month, unless otherwise specified.

Term Payment Plans

The Term Payment Plan (TPP) is a plan which allows customers to pay a fixed price for equipment and service over optional payment periods. A different monthly price applies for the duration of each payment period. The monthly price varies inversely with the length of the payment period, e.g., the monthly price for a shorter period is greater than for a longer period. The same payment plan must apply to all lines and features.

Term Payment Plans are available for periods of 36 and 60 months.

During the effective term period, the monthly price is not subject to Company-initiated changes for payment periods longer than one month.

Contract Options

Prior to the completion of a contract, a customer may enter into a new contract for a period equal to, or greater than, the life of the original contract at the prices currently in effect at the time of the new contract. The customer will begin paying the new contract prices on the day of signing the new contract.

Upon expiration of a contract, if the customer does not elect to subscribe to a new contract and does not request discontinuance of the service, service will be continued on a month-to-month basis. The month-to-month prices currently in effect at the time of expiration of the contract will apply. Once on a month-to-month basis the customer will not have an additional service commitment and will no longer be subject to termination charges. The month-to-month payment plan will be subject to Company-initiated price changes.

3. FEATURELINKSM SERVICE (cont'd)**F. Prices (cont'd)****4. Termination Charges**Full Termination

Discontinuance of the entire service within the initial service contract period will result in termination charges.

The termination liability for the 36- and 60-month Term Payment Plan is calculated as follows:

$$\text{Termination Liability} = 50\% * [\text{number of packages contracted for}] * [\text{remaining number of months under contract}] * [\text{monthly price}]$$

Partial Termination

Partial Termination applies when the actual number of packages drops below the contracted amount in any given month. The customer will be liable for the billing shortfall.

No Termination Liability Condition

A customer may upgrade to Centrex Service without termination liability if the Centrex Service agreement is signed for an equal or greater line commitment and an equal or greater term commitment.

1. MONTHLY EXCHANGE SERVICES

Telephone Exchange Service is the furnishing of facilities necessary for communicating within specified exchange areas. Service is comprised of three components - network access line, central office termination and usage. There are two classes of service, Non-Residence and Residence. Except where otherwise provided the monthly rates in this paragraph 1 cover the access line and central office termination for the types and classes of exchange service listed.

A list of exchanges and network access areas appears in Part 4, Section 1 of P.U.C.O. Tariff No. 20.

A. Network Access Lines

Monthly rates for network access lines are determined by class of service and by access area. The customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Part 4, Section 1 of P.U.C.O. Tariff No. 20.

Central Office Termination

Furnishes dial tone along with a termination for the network access line to the serving central office for the placing and receiving of calls.

Basic Local Exchange Service (BLES)

Residential-end-user access to and usage of telephone-company-provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area existed on September 13, 2010, the effective date of S.B. 162 of the 128th general assembly;

Consists of all of the following services:

Local dial tone service;

For residential end users, flat-rate telephone exchange service;

Touch tone dialing service;

Access to and usage of 9-1-1 services, where such services are available;

Access to operator services and directory assistance;

Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;

Per call, caller identification blocking services;

Access to telecommunications relay service; and

1. MONTHLY EXCHANGE SERVICES (cont'd)**B. Non-Residence, Non-Centrex Network Access Line Quantity Discounts**

With a minimum commitment of 36 months, quantity discounts are available based upon the volume of non-residence, non-Centrex network access lines required by a customer at a single location.

In the event that a customer terminates any or all the service during the commitment period, the customer will remain liable for the remaining charges adjusted to their net present worth equivalent using the applicable interest rate. These charges will become due and payable in their entirety immediately upon such termination.

1. MONTHLY EXCHANGE SERVICES (cont'd)**C. Local Exchange Usage**

Four types of local exchange usage are available: measured, minute line, message and flat.

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

- (1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.
- (2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.
- (3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.
- (4) Chargeable time does not include time lost because of faults or defects in the service.

1. MONTHLY EXCHANGE SERVICES (cont'd)**C. Local Exchange Usage (cont'd)****1. Measured Rate Services (cont'd)****c. Time of day**

- (1) Discounts apply to the total charges for local messages during certain time periods as outlined below:

Time Periods

No discount 8:00 AM to 9:00 PM* - Monday through Friday

50% discount 9:00 PM to 8:00 AM* - Monday through Friday
(All day Saturday, Sunday and Holidays)

* To, but not including.

- (2) The holidays on which a 50% discount applies are Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, or on resulting legal holidays when Christmas, New Year's or Independence Day legal holidays fall on dates other than December 25, January 1 or July 4 respectively.
- (3) In cases where a local message begins in one time period and ends in another, the charges in effect at the time the message starts apply to the entire message.
- d. The charges for local message usage are based on summary billing for such usage by mileage step, initial period calls and total additional minutes of usage per mileage step. The charges will also be separated by time period. Special billing of local message charges requiring the assistance of a Company operator will not be provided.

- (d) Unless otherwise requested by the customer, where two or more message rate services of the same class and grade are furnished to a customer from the same central office at given premises, the local message allowance for the service involved is combined and the total usage of all lines applied against this combined allowance.

3. Minute Line Service

(N)

Minute Line Service is offered where facilities and conditions permit as designated in Part 9, Section 1, Pricing List of the AT&T Ohio Guidebook.

Minute Line Service is available only to residence customers who subscribe to Schedule C as set forth in Part 9, Section 1 of the AT&T Ohio Guidebook.

Local usage charges are based upon two measured elements, i.e., the duration of each local message and the time of day each local message is originated, subject to the following:

a. Duration

- (1) A charge applies for each minute, or fraction thereof.
- (2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.

1. MONTHLY EXCHANGE SERVICES (cont'd)**D. ISDN Local Calling Value Plan****1. Description**

The ISDN Local Calling Value Plan (ILCVP) is a local usage billing alternative. ILCVP offers ISDN Circuit Switched Service customers an optional discount on local usage generated on specified ISDN Direct Service, Centrex Service with ISDN or ISDN Prime Service "B" Channels.

For a monthly price, ILCVP customers subscribe to a specified quantity of minutes-of-use (MOU), and receive a single per minute rate for voice and/or data "B" Channel usage on those channels comprising an Account Group. Minutes in excess of this quantity are billed at the selected Optional Usage Package (OUP) price. Packet usage is excluded from this plan.

2. DefinitionsAccount Group

ISDN Direct Service, Centrex Service with ISDN, and ISDN Prime Service "B" Channels that are served by the same Central office, billed to a single billing account number and are identified by the customer under a single ILCVP individual contract.

Commitment Level

A specified quantity of minutes-of-use (MOU) for which the customer subscribes and is billed monthly. The Commitment Level is selected from those offered by the Company and is applicable each month through the duration of the contract.

Commitment Term

Period selected by the Program Subscriber from those offered by the Company over which specified prices are paid. The Commitment Terms are available on a month-to-month basis or under twelve-month contractual agreements.

1. MONTHLY EXCHANGE SERVICES (cont'd)**D. ISDN Local Calling Value Plan (cont'd)****2. Definitions (cont'd)**Optional Usage Packages (OUP)

Program Subscriber (Subscriber)

A person or entity who has elected to purchase a specified quantity of local ISDN "B" Channel usage for a specific length of time, through the signing of an ILCVP contract.

3. Terms and Conditions

- a. ILCVP is available to all ISDN Direct Service, Centrex Service with ISDN and ISDN Prime Service "B" Channel customers on a month-to-month or contract basis. Prices are applicable per Account Group, and are distance and time-of-day insensitive.
- b. ILCVP cannot be combined with any other local usage calling plan. The customer's selection of an ILCVP OUP is in lieu of all other Company discounts, including those automatically provided by the Company for this usage.
- c. ISDN "B" Channels to be included in each ILCVP Account Group must be identified for each OUP option selection, at the time of commitment. "B" Channels added to or removed from established Account Groups will not alter the existing ILCVP contract terms.

1. MONTHLY EXCHANGE SERVICES (cont'd)**D. ISDN Local Calling Value Plan (cont'd)****3. Terms and Conditions (cont'd)**

- d. Minutes of Use in excess of OUP Commitment Level will be billed at the elected OUP per minute price. Minutes in excess are determined by identifying the difference between the Commitment Level MOU quantity and the accumulated monthly minutes of use associated with the ISDN "B" channels identified in the Account Group. Only one OUP may be selected per Account Group.
- e. ILCVP subscribers may initiate a move to a higher OUP level without penalty by signing a new agreement for an equal or longer Commitment Term. No credit toward the new OUP will be given for that portion of the former OUP which has been utilized.
- f. The new payment period begins on the first bill date after the request is received.
- g. Prices are not retroactive.
- h. ISDN "B" Channel(s) can be relocated (where facilities permit as determined by the Company) anywhere within the same central office serving area without affecting the ILCVP Account Group, within the constraints defined above.
- i. An OUP must be selected for each ILCVP Account Group established based upon the customer's predetermined estimated monthly voice and/or data usage and the selected Commitment Term.
- j. In any month where the actual Account Group OUP usage is less than the Commitment Level, the customer will be billed for the full OUP Commitment Level minutes of use.

3. Terms and Conditions (cont'd)

- k. Minimum Revenue Guarantee (MRG) is a guarantee by the subscriber to pay for a minimum amount of ILCVP usage (per OUP selected) each month through the duration of the Commitment Term. The MRG is equal to the applicable selected OUP price times the Commitment Level MOU, times the number of months remaining in the Commitment Term.

The MRG applies to each ILCVP Account Group.

Where subscribers have aggregated usage billing (multiple billing accounts on a single bill), the same MRG will apply, individually, to each billing account.

CompleteLink® 2.0 is an optional access and usage volume discount plan that provides business customers monthly discounts on selected eligible business services based on the customer's Minimum Annual Revenue Commitment (MARC). B. DefinitionsContributory Services

Those services whose revenue is counted towards achievement of the customers selected MARC.

Eligible Services

Those services that are eligible for discounts based on achievement of a specified MARC.

Minimum Annual Revenue Commitment (MARC)

The minimum annual revenue commitment that the customer must commit to, per year, in order to receive the volume discount.

6. COMPLETELINK® 2.0 (cont'd)**C. Terms and Conditions**

1. A customer may subscribe to multiple CompleteLink® 2.0 agreements at the same time, as further defined in C.21., following, but a telephone number may only be included under one CompleteLink® 2.0 plan. See C.21., following, for additional information. (C)
(C)
2. CompleteLink® 2.0 is limited to a maximum of 250 statewide BTNs (Billed Telephone Numbers) billed to the customer of record. 4. CompleteLink® 2.0 is offered under a one year, two year, three year, or five year^{/1/} term. (C)
Customers must select one of the offered MARC levels and must sign a Confirmation of Service Order to indicate their selections. A customer may increase their MARC level at any time without assessment of early termination charges. To increase a MARC, the customer must also commit to a new term. A decrease of the MARC level during the term is deemed to be a termination of the service and early termination charges as described in E. Termination Charges and Credit Allowances below, are applicable unless the customer qualifies for a Business Downturn MARC Downgrade as defined in E. Termination Charges and Credit Allowances below.
5. The customer must meet or exceed the selected MARC at the end of each 12-months of the term plan. If the customer fails to meet or exceed the MARC in any year of the customer's term, the customer will be billed an Under Utilization Charge which is the difference between the MARC and the actual billings for the Contributory Services, excluding taxes and surcharges.
6. The customer's term commitment commences the day after the CompleteLink® 2.0 service is provided by the Company. The date provided shall be the date the service order is completed in the Company's billing system. MARC revenue is the sum total of the customer's annual billings on all included business accounts for services specified as Contributory in the CompleteLink® 2.0 section of this Guidebook.

/1/ For new agreements established on or after October 10, 2012, the five year term agreement will no longer be available. (N)
(N)

6. COMPLETELINK® 2.0 (cont'd)**C. Terms and Conditions (cont'd)**

7. Services contributing towards the MARC ("Contributory" services) include all of the Company's regulated services, (unless herein excluded) including services regulated by the Federal Communications Commission (FCC). FCC regulated services may be considered "Contributory" but will not be "Eligible" for any CompleteLink® 2.0 discounts. The customer may also include as Contributory, services provided in other states where an AT&T ILEC provides local exchange service and where the CompleteLink® 2.0 plan is also available.
8. Revenue from the following services are not included as Contributory Services or counted towards the achievement of the MARC:

End User common Line (EUCL) surcharges, EUCL offset charges, Enhanced 9-1-1 (E911) surcharges, Handicap surcharges, Primary Interexchange Carrier (PIC) charges, Local Number Portability (LNP) charges, Infrastructure Maintenance Fees (IMF), Universal Service Fund (USF) surcharges, Federal & State Line Port charges.

Additionally any charges for services provided by the Company's affiliates (other than an AT&T Incumbent Local Exchange Carrier), any charges for services provided by other service providers and billed on behalf of that other service provider, and any other tax or charge imposed by local, state, or federal government entity are excluded.
9. There is no nonrecurring service charge or set-up charge to establish a CompleteLink® 2.0 plan. Recurring and nonrecurring charges will apply for the installation and use of any newly installed CompleteLink® 2.0 contributory or eligible services, with exceptions as noted elsewhere within the CompleteLink® 2.0 section of this Guidebook.
10. With the exception of local exchange access service and local usage services, CompleteLink® 2.0 customers are not required to purchase any of the MARC Contributory Services.

Win and Winback customers include business customers who have their local exchange access line service with another competitive local exchange carrier within the AT&T Illinois, AT&T Indiana, AT&T Michigan, AT&T Ohio, or AT&T Wisconsin service area and who now wish to establish their local exchange access line service with the Company.
13. E. Termination Charges and Credit Allowances**1. Early Termination Charges**

- A. Except as provided for elsewhere in this Guidebook, customers terminating a CompleteLink® 2.0 plan prior to the expiration of the selected term period are subject to termination charges.

Termination charges are equal to 50% of the MARC multiplied by the number of years remaining in the customer's term period. For a partial year, if the partial year revenue is less than the MARC, the customer is liable for 50% of the difference between the MARC and the actual billed revenue.

- B. If a customer received accelerated discounts and terminates their CompleteLink® 2.0 agreement prior to expiration of their term, in addition to the early termination charges in E.1.A. above, an early termination charge will apply equal to 50% of the accelerated discount received in C.13. above, prorated by the number of remaining months in the contract.

EXAMPLE 1: A customer signed a \$12,000 MARC agreement with a three year term commitment and received an accelerated discount of \$2,400 upfront. If the customer terminates the CompleteLink® 2.0 agreement after 12 months the customer will be liable for remitting to the Company \$800 of the accelerated discount received, calculated as follows: $(\$2,400/36 \text{ total months}) \times 24 \text{ months remaining} = \$1,600 \times 50\% = \$800$.

EXAMPLE 2: If the customer terminates the CompleteLink® 2.0 agreement after month 18 the customer will be liable for remitting to the Company \$900 of the accelerated discount received, calculated as follows: $[\$2,400 \text{ upfront} + \$1,200 (10\% \text{ of the } \$12,000 \text{ MARC}/3 \text{ year term for their 1 year accelerated discount}) = \$3,600]/36 \text{ total months} \times 18 \text{ months remaining} = \$1,800 \times 50\% = \$900$

- C. Termination liability charges are not applicable if during the CompleteLink® 2.0 term period the customer converts to another Company Access or usage plan with a term equal to or greater than the remaining CompleteLink® 2.0 plan, and a revenue commitment equal to or greater than the CompleteLink® 2.0 MARC.

/1/ Material formerly appeared on Original Sheet 47.

6. COMPLETELINK® 2.0 (cont'd)**E. Termination Charges and Credit Allowances (cont'd)****1. Early Termination Charges (cont'd)**

- D. Termination liability charges applicable for CompleteLink® 2.0 agreements will be offset by termination charges, if applicable, from other allowed agreements for any CompleteLink® 2.0 eligible service as a result of the same customer termination activity. Termination charges resulting from the charge-back of accelerated discounts received will not be offset by termination charges as a result of other allowed agreements for CompleteLink® 2.0 eligible services.
- E. Customers who have terminated a CompleteLink® or a CompleteLink® 2.0 agreement for the purpose of establishing service with another carrier and who now return to the Company and sign a new CompleteLink® 2.0 agreement will receive a one-time waiver or refund of termination charges associated with early termination of their former CompleteLink® or CompleteLink® 2.0 agreement. The new term period and MARC must be greater than or equal to that of the terminated plan. Customers must not have had service disconnected for nonpayment, not have any past due bills for regulated service owed to the Company, and the "Bill Name" must be the same as on the prior Company account in order to qualify.

2. Service Guarantee

Within 90 days of subscribing to a CompleteLink® 2.0 agreement, customers may cancel this service without incurring the termination liability charges specified in this Guidebook. Any accelerated discounts received by the customer will be charged back to the customer. This preclusion of the termination liability does not apply to customers who terminate or convert from another Company toll, access, and/or usage commitment product for the purpose of subscribing to CompleteLink® 2.0.

6. COMPLETELINK® 2.0 (cont'd)**E. Termination Charges and Credit Allowances (cont'd)****3. MARC Downgrade Allowance for Technology Upgrade**

Termination liability charges will not apply if during the term of the CompleteLink® 2.0 agreement the Customer disconnects one or more of the services which are specified under Column A below, and those services are contributory to their CompleteLink® 2.0 MARC, and replaces the service(s) with the Company service specified on the same line in Column B, and as a direct result of that replacement the Customer's annual spending on those services is reduced (comparing customer's current spending on the removed services and the anticipated customer spending for the replacement services), and that reduction results in a 50% or greater difference between the customer's current MARC and the next lower MARC, at the Customer's option and request, the Customer may terminate the existing CompleteLink® 2.0 agreement without termination liability provided: a) the Customer enters into a new CompleteLink® 2.0 service agreement for a term period which is equal to or greater than the time remaining on their current agreement, and b) the MARC on the new agreement is the next lower MARC. This waiver of charges as a result of replacing Column A contributory services with the associated Column B contributory service will be allowed only once per Customer, per agreement term. CompleteLink® 2.0 \$1,200 MARC service agreements are specifically not eligible.^{/1/}

For purposes of the waiver, "as a direct result" means that the newly installed product(s) must be installed at the same customer service location(s) and in the same relative quantity(ies) as those being displaced. It is at the Company's sole determination whether a product change satisfies the requirements for waiver of the termination liability under this provision.

/1/ CompleteLink 2.0 \$3,000 MARC service agreements signed prior to July 28, 2006 are, also, not waiver eligible.

6. COMPLETELINK® 2.0 (cont'd)**E. Termination Charges and Credit Allowances (cont'd)****3. MARC Downgrade Allowance for Technology Upgrade (cont'd)**

DS1	to	DS3, SONET, GigaMAN
DS3	to	SONET or GigaMAN

The following is stated as a matter of convenience and not intended to imply that the list above is not inclusive. In no event will the following product changes satisfy the conditions required for termination without liability under this provision.

Centrex (any type)	to	PBX
Centrex (any type)	to	ISDN Prime

Example: Customer has a CompleteLink® 2.0 \$25,000 MARC, 3-year agreement, with 18 months remaining. MARC attainment in current year is 60%. A customer replaces its Analog Trunks to ISDN Prime, which would result in an annual spending reduction of \$4,000 from what was spent for the Analog Trunks. At the time of the new contract, the CompleteLink® 2.0 tariff reflects the next lower MARC to be \$18,000, so the customer may terminate its \$25,000 MARC agreement without liability if it enters into a new 2-year (24 month) CompleteLink® 2.0 agreement at the \$18,000 MARC. The applicable discount will be that available with the \$18,000 commitment level.

6. COMPLETELINK® 2.0 (cont'd)**E. Termination Charges and Credit Allowances (cont'd)****3. MARC Downgrade Allowance for Technology Upgrade (cont'd)**

This MARC Downgrade waiver described above only applies to the termination charges applicable to the CompleteLink® 2.0 agreement. Termination charges may apply on those services being disconnected, and the application of those termination charges are not affected by this waiver. All applicable recurring and nonrecurring charges apply to the installation and removal of services. Products and services are subscribed to separately and not as a part of the CompleteLink® 2.0 subscription. As a result of selecting a reduced MARC level, discounts provided under the new CompleteLink® 2.0 agreement may be less than those received under the higher MARC agreement (discounts for the new agreement will be those applicable to the new MARC level under the CompleteLink® 2.0 section of this Guidebook in effect at the time the new contract is executed). The 90-day service guarantee described in E.2. above does not apply to the new agreement.

4. Business Downturn MARC Downgrade

For purposes of this product offer, the term "Business Downturn" is hereby defined to mean an unplanned, measurable change in business conditions affecting the customer's business that is outside of the customer's control and that materially and negatively affects the customer's need for the level of Company services which contribute to the MARC hereunder. The customer specifically acknowledges that the transfer or substitution of the contributory services to another provider during the term hereof does not qualify as business downturn. This provision may be invoked by the customer no earlier than after the end of the first year for a two or three year agreement or after the end of the second year for a five year agreement. To invoke this provision, the customer must provide in writing to the Company the facts which support its request for Business Downturn consideration, and the Company will solely determine whether the customer's business conditions satisfy the definition of "Business Downturn".

6. COMPLETELINK® 2.0 (cont'd)**E. Termination Charges and Credit Allowances (cont'd)****4. Business Downturn MARC Downgrade (cont'd)**

Upon the Company's determination that a Business Downturn has occurred, the customer and the Company shall then negotiate in good faith an appropriate and commercially reasonable change to the customer's commitments hereunder. Examples of appropriate and commercially reasonable changes include (but are not limited to) a modification to the term and/or MARC. The Parties shall continue performance under this Agreement while they are in negotiations. If no agreement can be reached regarding a change to the customer's commitments, then the rates, MARC, terms and conditions of this Agreement shall remain in effect for its Term. The customer may invoke this provision only once during the term of this Agreement.

1. MONTHLY EXCHANGE SERVICES

Telephone Exchange Service is the furnishing of facilities necessary for communicating within specified exchange areas. Service is comprised of three components - network access line, central office termination and usage. There are two classes of service, Non-Residence and Residence. Except where otherwise provided the monthly rates in this paragraph 1 cover the access line and central office termination for the types and classes of exchange service listed.

A list of exchanges and network access areas appears in Section 1 preceding.

A. Network Access Lines

Monthly rates for network access lines are determined by class of service and by access area. The customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Section 1 preceding.

Central Office Termination

Furnishes dial tone along with a termination for the network access line to the serving central office for the placing and receiving of calls.

Basic Local Exchange Service (BLES)

Residential-end-user access to and usage of telephone-company-provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area exists on the effective date of the amendment of this section by S.B. 162 of the 128th general assembly;

Consists of all of the following services:

Local dial tone service;

For residential end users, flat-rate telephone exchange service;

Touch tone dialing service;

Access to and usage of 9-1-1 services, where such services are available;

Access to operator services and directory assistance;

Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;

Per call, caller identification blocking services;

Access to telecommunications relay service; and

Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies.

PART 4 - Exchange Access Services
SECTION 2 - Exchange Lines and Usage

Original Sheet No. 4

1. MONTHLY EXCHANGE SERVICES (Cont'd)

C. Local Exchange Usage

Four types of local exchange usage are available: measured, minute line, message and flat.

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

- (1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.
- (2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.
- (3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.
- (4) Chargeable time does not include time lost because of faults or defects in the service.
