Re: Integrys Energy Services Inc.'s Alternative Energy Resources Reports for
Calendar Years 2011 and 2012
Case Nos. 12-1231-EL-ACP and 13-882-EL-ACP

Dear Mr. Siegfried:

On September 18, 2013, the Commission issued a decision regarding Integrys Energy Services Inc.'s 2010 Alternative Energy Resources Report. In that decision, the Commission found Integrys to be in compliance with the overall renewable energy resources requirements, but directed Integrys to retire one more solar renewable energy credit ("REC") than otherwise would be necessary for the in-state, solar energy resources benchmark.

This letter is to confirm that Integrys did in fact retire one more in-state solar REC than otherwise was necessary for the in-state, solar energy resources benchmark for its 2012 Alternative Energy Resources Report, Case No. 13-882-EL-ACP. *See*, Integrys' answer to Question III, first row of the table, wherein Integrys identified the number of solar RECs it obtained in 2012 and the number of which are solar RECs sited in Ohio. In comparing those numbers, you will see that Integrys obtained and retired one more in-state solar REC in 2012 than was necessary.¹

If you have any questions, please do not hesitate to contact me.

Sincerely,

M. Howard Petricoff

MHP/glp

¹ Per Rule 4901:1-40-03(A)(2)(a), Ohio Administrative Code, at least half of the annual renewable energy resources, including solar energy resources, shall be met through electricity generated by facilities located in Ohio.
