Re: Case No. 83-464-TP-COI (Docket No. 90-5041-TP-TRF)

Dear Ms. Crockron:

Enclosed are one original and four (4) copies of tariff sheets that are being filed in compliance with the May 21, 1984 Opinion and Order in the above case. That filing requires a Notice of Adoption when modifications are made to the Sprint Local Tariff F.C.C. No. 1. Tariff F.C.C. No. 1 pages are attached as reflected on the following check sheets:

Check Sheets Effective March 6, 1999

72 nd Revised Page 1	14 th Revised Page 1.8	3 rd Revised Page 1.13
27 th Revised Page 1.4	9 th Revised Page 1.9	
14 th Revised Page 1.5	10 th Revised Page 1.10	
8 th Revised Page 1.6	13 th Revised Page 1.11	
7 th Revised Page 1.7	5 th Revised Page 1.12	

Sprint Local Telephone Companies' FCC Transmittal No. 75 became effective March 6, 1999. The filing proposed the removal of rates and regulations regarding Digital Cross Connect Service (DCCS). No customers are currently utilizing the customer controlled interface, which is being deleted as a part of Sprint LTC's Y2K compliance efforts. Sprint will continue offering customers flexibility in reconfiguring their special access networks through the basic and company-controlled DCCS interface options.

Transmittal No. 75 also included the addition of rates and regulations regarding the provision of Directory Assistance Service in North Carolina and the addition of Individual Case Basis filings that are not applicable in Ohio's Intrastate jurisdiction.

Please return a date stamped copy of this transmittal letter in the enclosed self-addressed stamped envelope for our files. A duplicate is enclosed for that purpose.

If you have any questions or need additional information regarding this filing, please contact Rebecca Donahue at (614) 220-8624.

Best regards,

Rudolph R. Povirk, Jr.

Transmittal No. 75

83-464-TP-C01

Secretary
Federal Communications Commission
Washington, DC 20554

Attention: Common Carrier Bureau

The accompanying tariff material, issued on behalf of the Sprint local telephone companies (Sprint LTC) and bearing Tariff F.C.C. No. 1, Access Service, is sent to you for filing in compliance with the requirements of the Communications Act of 1934, as amended.

These revisions, scheduled to become effective March 6, 1999, consist of tariff pages as indicated on the following check sheets:

<u>Tariff F.C.C No.</u>	<u>Check Sheet</u>
1	72nd Revised Page 1 27th Revised Page 1.4 14th Revised Page 1.5 8th Revised Page 1.6 7th Revised Page 1.7 14th Revised Page 1.8 9th Revised Page 1.9 10th Revised Page 1.10 13th Revised Page 1.11 5th Revised Page 1.12 3rd Revised Page 1.13

This filing is being made on 15 days' notice under the Federal Communications Commission's streamlined filing procedures, and includes the following revisions to Sprint LTC's interstate access service tariff (Tariff F.C.C No. 1):

February 19, 1999

- (1) Addition of an Individual Case Basis filing in Section 7.6 for the provision of dedicated ISDN PRI facilities designed to meet the specific requirements of Gridnet International in the state of Florida;
- (2) Addition of an Individual Case Basis filing in Section 7.6 for the provision of a dedicated OC3 SONET Ring facility equipped with 1 DS3 and 20 DS1s designed to meet the specific requirements of Ceridian Tax Service in the state of Nevada;
- (3) Addition of rates and regulations in Section 9 for the provision of Directory Assistance (DA) Service in the 252 Numbering Plan Area (NPA) in the state of North Carolina; and
- (4) Removal of the rates and regulations in Section 7.2.8(D)(5) offering a customer-controlled interface for Digital Cross Connect Service (DCCS). This change is necessitated by the fact that equipment upgrades required as a part of Sprint LTC's Y2K compliance efforts cannot support the remote access functionality necessary for the customer-controlled interface option. It should be noted that Sprint LTC has no existing customers utilizing the customer-controlled interface, and will continue to offer customers flexibility in reconfiguring their special access networks through the basic and company-controlled DCCS interface options.

The original transmittal letter, along with FCC Form 159 and filing fees in the amount of \$630, is concurrently being delivered vial Federal Express to the Wholesale Lockbox Shift Supervisor-Mellon Bank, pursuant to Section 61.32(b) of the Commission's Rules. Acknowledgment and date of receipt of this filing by the Mellon Bank are requested. A duplicate copy of the letter of transmittal is provided for this purpose.

All correspondence and inquiries in connection with this filing should be addressed to Mr. Pete Sywenki, Director-Federal Regulatory Relations, for Sprint's Local Telecommunications Division, 1850 M Street N.W., Suite 1110, Washington, D.C. 20036, (202) 828-7452.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.8 High Capacity Service (Cont'd)(D) Optional Features and Functions (Cont'd)(5) Digital Cross Connect Service (DCCS) (Cont'd)(c) Customer Interface (Cont'd)

1. Basic service - the customer submits via normal ordering procedures, requests for changes which are implemented by the Telephone Company through normal service provisioning procedures.
2. Company-controlled - the customer issues verbal commands to the Telephone Company's control center which accesses a Network Management System (NMS) to reconfigure the customer's network. The company-controlled capabilities are only offered where the Telephone Company has a suitable NMS.

(D)

(D)

(d) Maintenance and Operation

1. When the Telephone Company performs necessary preventative and/or routine maintenance, DCCS may not be available for circuit reconfiguration. Circuits in operation during these times will continue in operation but may not be reconfigured. Upgrades in DCCS software may also require system downtime. Customers will be notified at least 24 hours in advance of outages due to software upgrades.

(d) Maintenance and Operation (Cont'd)

2. No credit allowance in DCCS monthly charges will be provided for interruptions required to perform the maintenance or software upgrades.

(D)

(D)

(e) Regulations

1. DCCS provides network reconfiguration capability through the DCS, and establishes a jurisdictional demarcation point for dedicated services for rate application purposes. The jurisdiction and rates for the dedicated services on either side of DCCS are determined independent of the other.

(T)

Multiple customers may include circuits with the DCCS option in the same DCCS arrangement, provided that all customers designate in writing the same party to serve as their agent.

The designated agent will be authorized to represent each of the customers in a shared DCCS arrangement in all transactions and communications with the Telephone Company. Such transactions may include reconfigurations, monitoring, ordering of additional special access services and DCCS Service options in the arrangement, and removal of special access services from the arrangement. The Telephone Company will not process customer orders or requests affecting shared DCCS arrangements or circuits included in shared arrangements except those submitted by the agent.

(T)

The Telephone Company shall not be liable for any loss to any of the customers in a shared DCCS arrangement caused directly or indirectly by actions of the agent or another customer in the shared arrangement. Each customer in the shared arrangement and the agent shall indemnify the Telephone Company for the costs of any and all claims arising directly or indirectly out of the actions of agent or another customer in the shared arrangement, including, but not limited to, the cost of defending against such claims.

Any customer in a shared DCCS arrangement must give the Telephone Company 30 days prior written notice of its intent to revoke an agent's authority and to remove all its special access services from a shared arrangement. Such notice shall not be effective unless the customer provides the Telephone Company with specific and sufficient directions regarding treatment of the customer's special access services upon revocation of the agent's authority or removal from the shared arrangement.

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.8 High Capacity Service (Cont'd)(D) Optional Features and Functions (Cont'd)(5) Digital Cross Connect Service (DCCS) (Cont'd)(h) Application of Rates

1. For each DCCS, the appropriate Basic Service DCCS connection charge applies. A DCCS connection charge is required for each special access circuit terminating via a digital cross-connect system port.
2. A multipoint bridging charge is applicable for each DSO channel which is terminated in a bridging arrangement.
3. A subrate multiplexing charge is applicable for each 2.4 kbps, 4.8 kbps and 9.6 kbps channel which is derived via a subrate multiplexing arrangement.
4. An NMS data base charge applies for each DCCS arrangement under which company-controlled reconfiguration capability is provided. The per customer nonrecurring charge is applied to the initial data base establishment. The per circuit nonrecurring charge is applied on the initial and all subsequent orders which require adding circuits to or removing circuits from the digital cross-connect system.

ACCESS SERVICE

9. Directory Assistance Service

The Telephone Company will provide Directory Assistance (DA) Service to a customer from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment, and use of DA operators to provide telephone numbers.

9.2 Undertaking of the Telephone Company

- (A) A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in 9.6 following. The Telephone Company's contact with the customer's end user shall be limited to that effort necessary to process a customer's end user's request for a telephone number; and the Telephone Company will not transfer, forward or redial a customer's end user call to any other location for any purpose other than provision of DA Service. (Z)
(Z)
- (B) A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.
- (C) A telephone number which is not listed in the DA records will not be available to the customer's end user. (T)
- (D) The Telephone Company will specify the DA location which provides the DA Service for each numbering plan area code (NPA). The DA locations are as shown in National Exchange Carrier Association Tariff F.C.C. No. 4. (C)
- When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 preceding apply.
- (E) When DA Service is ordered, Directory Access Service will be provided between the customer premises and the DA location by the Telephone Company at the rates and charges set forth in 9.6 following. (T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(1) General

Each Directory Access Service will consist of the following:

- An Interface Group equipped with an available Premises Interface Code as set forth in 6.4.3 preceding. (C)
(C)
(D)
- Directory Transport between the premises serving wire center and the DA location. (D)

When required by the Telephone Company, a separate trunk group will be provided for DA Service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's end user desires DA information.

(2) Switched Transport Premises Interface Code

The Switched Access Service Switched Transport Premises Interface Codes are provided as set forth in 6.4.3 preceding. Further, when an access tandem is provided, the Directory Access Service will be provided, at the Telephone Company's choice, either as a separate trunk group or in association with Feature Group C or D Switched Access Service. Except as set forth in 9.4 (B) and (C) following, the Switched Transport Premises Interface Codes provided under a Special Order for Directory Access Service are subject to the order conditions as set forth in 5.1.1 preceding. For purposes of applying the order regulations, a DA location is considered to be a customer's end user's serving wire center. (C)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

The number of Directory Transport transmission paths provided is based on the customer's order and is determined by the Telephone Company in a manner similar to Switched Access Service transmission paths as set forth in 6.5.5 preceding.

Except as set forth in 9.4 (A) following, Directory Transport provided under a Special Order is subject to all order conditions as set forth in 5. preceding.

Directory Transport is provided with a Switched Transport Interface Group as set forth in 6.4.3 preceding. Only Switched Transport Interface Groups 2-9 will be provided.

(C)

Directory Transport Services are comprised of the following rate elements, which are more fully described in 6.1.2 (A) and (B) preceding:

(N)

- Entrance Facility - for the transport of the DA call from the customer's premises to the serving wire center of that premises.
- Direct-Trunked Transport - for the transport of the DA call from the customer's serving wire center to the DA location without switching at a tandem or from the serving wire center to the tandem. This rate elements includes both the termination (fixed) and facility (per mile).

(N)

Certain material omitted from this page now appears on Original Page 9-4.2.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

- Tandem Switched Transport - for the transport of the DA call from the tandem to the DA location. This rate element includes Tandem Switched Transmission, Tandem Switching, Common and Dedicated Transport Multiplexing and Common and Dedicated Trunk Ports.
- Multiplexing - DS3 to DS1 multiplexing charges apply when a high capacity DS3 entrance facility or direct-trunked facility is connected with high capacity DS1 direct-trunked transport. The DS3 to DS1 multiplexer will convert a 44.736 Mbps channel to 28 DS1 channels using digital time division multiplexing. DS1 to voice grade multiplexing charges apply when a high capacity DS1 entrance facility or direct-trunked facility is connected with voice grade direct-trunked transport. The DS1 to voice grade multiplexer will convert a 1.544 Mbps channel to 24 voice grade channels.
- Interconnection Charge - for the local transport costs that are not recovered by the Entrance Facility, Direct-Trunked Transport, Tandem Switched Transport, Multiplexing or dedicated signaling (CCS/SS7) rates.

The customer will specify whether the Directory Access service is to be routed directly to a DA location or through an access tandem switch appropriately equipped for DA measurement and served by DA trunks to the DA location when such an access tandem switch is available. The combination of Feature Group B, C or D switched access service with DA service will only be provided at such available and appropriately equipped access tandem switches.

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(4) Special Facilities Routing

A customer may request that Directory Access Service be provided via Special Facilities Routing. The regulations, rates and charges for Special Facility Routing (Avoidance, Diversity and Cable Only) are as set forth in 11. following.

(M)

(5) Design Layout Report

The Telephone Company will provide to the customer the makeup of the facilities and services provided under this section as Directory Access Service. This information will be provided in the form of a Design Layout Report similar to that as set forth in 6.1.4. Design Layout Reports for Directory Access Service will be provided only when specifically requested by the customer. The Design Layout Report will be provided to the customer at no charge, and will be reissued or updated whenever the facilities provided for the customer's use are materially changed.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

- (G) The Telephone Company will distribute the calls received over the Directory Access Services to the DA operators using the DA location access equipment.
- (H) In the event that the telephone number is unavailable to the DA operator, no credit shall be given for the call to the DA operator. When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect telephone number is provided by the DA operator, a credit as set forth in 9.4(F) following will apply. (C)
- (I) DA Service may, at the option of the customer, be provided for interstate and intrastate communications. When the customer requests such mixed access, the interstate DA Service charges will be determined by the Telephone Company using the data furnished by the customer as set forth in 2.3.11 preceding. (C)
- (J) The Telephone Company does not provide Directory Assistance Service for Interim 500 Access Service, Toll Free Code (TFC) Access Service or 900 Access Service.

9.3 Obligations of the Customer

- (A) The customer shall determine and order the Directory Access Services it needs for DA Service.
- (B) When Directory Assistance Service is initially ordered, the customer shall order the service for at least six months. Thereafter, additional service may be ordered for a minimum of six months. Not later than three months prior to the end of the six month period, the customer shall notify the Telephone Company if the service is to be discontinued at the end of the six month period. If no notice is received from the customer, the Telephone Company will automatically extend the service for another six months and all appropriate charges as set forth in 9.6 following for another six months will apply.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(F) Credit Allowance for DA Service

(N)

A per call credit equal to the sum of the DA Service usage sensitive rates set forth in 9.6 following (i.e., DA Service Call, Tandem Switched Transport and Interconnection Charge) will apply in the following situations:

- (1) When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided following customer connection to a Telephone Company DA operator.
- (2) When a DA operator or DA equipment provides an incorrect number for a call and the customer reports such occurrences to the Telephone Company.
- (3) When a DA call is not completed due to the failure of Directory Access service to DA locations, DA access equipment or DA operator activities, a credit allowance for the switched access service portion in the originating LATA of such DA call will apply. When the customer reports such a call and DA number dialed, time of the call and the date of the call, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.5 Rates and Regulations

- (A) The charge for Directory Assistance as set forth in 9.6(A) following applies for each call to DA service. A call is defined as a call which has been answered by or forwarded to a DA operator. The charge applies whether or not the DA operator provides the requested telephone number. The number of calls answered or forwarded to DA operators will be accumulated by Telephone Company measuring equipment. A credit for the provision of an incorrect telephone number will be applied as set forth in 9.4(F) preceding. (C)
- (B) The charge for Directory Access Installation (i.e., Switched Transport Installation) and Direct-Trunked Transport activation charges as set forth in 6.8.2 preceding will apply to each Directory Access Service installed. (C)
- (C) The charges for Directory Transport will be assessed on the same basis as the switched access local transport rate elements set forth in 6.1.2 preceding: (N)
- Entrance Facility
 - Direct-Trunked Transport
 - Tandem Switched Transport
 - Multiplexing
 - Interconnection Charge (N)
