COMMENT DESCRIPTION:

What to speak of opting out of the Smart Meter Mandate, no Smart Meter on any home is safe for its or its neighbors' inhabitants. SMART METERS & all RF/Pulsed Microwave emitting meters, are death in a box to every living thing that their lethal radiation reaches. As a sufferer of EHS, which is not reversible, & worsens with every exposure, I join millions in this country, & soon to be billions around the globe whose health & lives are being systematically destroyed by RF/Pulsed Microwave Radiation which is being insanely proliferated around the globe. I would gladly testify before any committee willing to hear my story about having been literally driven from our home of 28 years in our mid-sixties by the debilitating symptoms of RF exposure from our & all neighbors ltron 100G AMR (one-way) gas meters

& AMR RF emitting Water Meters, which also emit powerful microwave energy 24/7. All of 5 very persistent symptoms virtually vanished within 10 days of settling in to our new residence which shows by our Tri Axis Meter to be RF- free at this time. Keeping it so is a matter of life & death for my husband & me.

I also oppose H.R. 2685 a bill by the Energy & Commerce Committee, proposing to establish or expand the smart grid by mandating the installation of smart meters on all homes, regardless of health conditions or personal choice. The public is being kept uninformed about what imminent & long term dangers this wireless technology represents, especially to the very young, frail & elderly. The government continues to ignore millions of us who have EHS & refuses to make the connection between RF radiation & the ballooning numbers of Cancer, Neurological Diseases, Autism, ADHD, Hormone Imbalances, Insomnia, Chronic Fatigue, & etc. We already have been forced out of our home by the effects of an AMR gas meter on our close neighbor's house, which emits high levels of RF constantly, not to speak of the two cell phone towers that were erected within a quarter of a mile of our home. Please save the freedoms, future health & very lives of humanity by systematically eliminating this genocidal threat.
