Jim

The 138 kV BP Husky substation is currently in service providing incoming power to the refinery from Toledo Edison. The final cut over was completed in November 2012. Thank you for your patience and assistance.

Jim,

I am following up with you to check on the status of the BP Substation. Has the substation been placed into service? If so, please let me know what the date was and I will place your notification into the case record.

Thanks,

Jim O'Dell
