Marion, Ohio 43302

March 14, 2000

Ms. Daisy Crockron - Chief  
Docketing Department  
The Public Utilities Commission of Ohio  
180 East Broad Street - 10th Floor  
Columbus, OH 43215-3793

3/14/00

Transmittal Letter  
Revised Tariff Sheets Filed Pursuant to the  
Commission's Order in Case No. 83-464-TP-COI  
and  
Case No. 90-5023-TP-TRF

Dear Ms. Crockron:

Revised tariff sheets have been filed with the FCC to amend GTOC Tariff FCC No. 1, Facilities for Interstate Access, in which GTE North Incorporated concurs for intrastate applications.

In accordance with your Commission's Order in Case No. 83-464-TP-COI, we are filing four (4) copies of these revised tariff sheets.

Transmittal No. 1243 - Effective March 11, 2000

This filing changes the current DS1 Entrance Facility Rate structure by eliminating the additional system charge. There is no revenue impact resulting from this revision.

This filing will also provide for Special Construction of OC-48 facilities in Oregon for Integra Telecom and DS1 facilities in Indiana for Crown Communications under Section 10.

In addition, this filing provides textual updates for clarification purposes under Section 3.2.2 ASR Modification and Section 16.5, TCP/IP Data Aggregation Service.

This filing also adds billing codes to Section 16.2, Packet Switching Network Service.

Acknowledgement and date of receipt of this filing is requested.

Sincerely,

John W. Kennedy  
Assistant Vice President-Regulatory  
and Governmental Affairs

## FACILITIES FOR INTERSTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.2 ASR Modifications

The customer may request a modification of its ASR prior to the service date. The Telephone Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an ASR within normal business hours. If the modification cannot be made with the normal work force during normal business hours, the Telephone Company will notify the customer. If the customer still desires the ASR modification, the Telephone Company will schedule a new service date. All charges for ASR modifications will apply on a per occurrence basis. Where a new ASR may be required the appropriate charges in other sections of this tariff will be applicable.

Any increase in the number of Switched Access lines for FGA or BSA-A trunks or BHCs for FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and SAC Access Service; Special Access circuits; STP Port Terminations and CCS7 access facilities; or OSS OPCs in conjunction with LIDB Query Service, and Advanced Communications Network services will require the issuance of a new (T) ASR for the incremental capacity.

(A) Service Date Change Charge (USOC - SUM)

ASR service dates may be changed, however a Service Date Change Charge will apply for each service date change after the plant test date of the original ASR.

For Switched Access, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be canceled by the Telephone Company and cancellation charges in 3.2.6 will apply. The ASR will be reissued with the new service date.

For Special Access, except as specified below, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be canceled by the Telephone Company. Cancellation charges in 3.2.6 will apply and the ASR will be reissued with the new service date unless the customer indicates that billing for the service is to commence as in 3.2.6(A).

With the agreement of the Telephone Company, a new service date may be established that is prior to the original service date and the provisions in (E) will apply in addition to the Service Date Change Charge.

## FACILITIES FOR INTERSTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.2 ASR Modifications (Cont'd)(B) Partial Cancellation Charge

Any decrease in the number of Switched Access lines for FGA or BSA-A; trunks or BHMCs for FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and SAC Access Service; Special Access circuits; STP Port Terminations and CCS7 switched access facilities; OSS OPCs in conjunction with LIDB Query Service, or Advanced Communications Network services will be treated as a partial cancellation. (T)

A customer may cancel any number of Special Access circuits or Advanced Communications Network services. (T)

When a customer partially cancels the service ordered on an ASR, charges will apply as follows:

- (1) Except as specified in 3.2.6(D), when an ASR for Switched Access Service is partially canceled on or after the Scheduled Issue Date, the charge will be determined by multiplying the total Installation nonrecurring charges for the canceled portion of the order by the number of business days elapsed since the Scheduled Issue Date and dividing that figure by the number of days in the service interval and adding the Switched Access Ordering Charge.
- (2) When an ASR for Special Access Service or Advanced Communications Network service is partially canceled, on or after the Scheduled Issue Date, the charge will be determined by multiplying the total Special Access or Advanced Communications Network services nonrecurring charges for the canceled portion of the order by the number of business days elapsed since the Scheduled Issue Date and dividing that figure by the number of days in the service interval. (T)
- (3) When a customer cancels part of an ASR for which billing has commenced as provided in 3.2.2(A) and 3.2.6(A), cancellation charges in 3.2.6(C)(3) will apply to that part of the ASR being canceled.

(This page filed under Transmittal No. 1243.)

## FACILITIES FOR INTERSTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.4 Minimum Period

- (A) The Minimum Period for which Special Access, End User FIA, Frame Relay, Packet Switching Network Service, STP Port Terminations, Basic Service Elements (BSEs) CCS7 Access facilities, monthly Optical Networking rate elements, Primary (S)(x) Interexchange Carrier Charge and DSL Solutions are provided and for which charges (T) are applicable, is one month, except as in B through J.
- (B) The Minimum Period for Miscellaneous Services is in Section 6.
- (C) The Minimum Period for Ancillary Services is in Section 8.
- (D) The Minimum Period for temporary videoband and program audio Special Access is the minimum period for which rates are established in Section 5.7 and 5.8.
- (E) The Minimum Period for FIA provided under Special Construction provisions and for which charges are applicable in Section 10.
- (F) The Minimum Period for FGA, FGB, FGC, BSA-A, BSA-B, BSA-C, SAC Access Service, and also for FGD or BSA-D ordered after the conversion of an end office to equal access, is one month. For the application of the minimum period charges for Switched Access Service FGB, FGC, BSA-B, BSA-C, SAC Access Service, and for FGD or BSA-D ordered after the conversion of an end office to Equal Access, it is assumed the last identical capacity placed in service is the first one discontinued.
- (G) For FGD or BSA-D ordered prior to the conversion of an end office to equal access and (1) cancelled prior to the conversion date, a Cancellation Charge in 3.2.6 applies or (2) cancelled on or after the equal access conversion date, a Discontinuance Charge in 3.2.7 applies.
- (H) The minimum periods for Special Access DS3 Service are in Section 5.6.11.
- (I) The minimum periods for Expanded Interconnection Services are in Section 17.9.2.
- (J) The minimum period for the month-to-month option for VideoConnect<sup>SM</sup> - 270 Mbps service is 3 months.
- (K) The minimum periods for Advanced Communications Network services are set forth (T) under Section 16. (T)

3.2.5 Minimum Period Charges

When FIA are discontinued prior to the expiration of the Minimum Period, charges are applicable for the remaining month(s) and/or fraction thereof of the Minimum Period.

The Minimum Period Charge will be determined as follows:

- (A) For Switched Access usage sensitive rate elements, the charge for the minimum period, or fraction thereof, is equal to the applicable rates for the actual or assumed usage for the minimum period or such fraction thereof. For Switched Access flat-rated monthly elements (i.e., Entrance Facility, Direct-Trunked Transport and Multiplexing rates), the charge for the minimum period or fraction thereof is the applicable monthly rates for the service.

Material omitted from this page now appears on Page 78.1.

(x) Effective March 4, 2000.

(This page filed under Transmittal No. 1243.)

Issued: February 25, 2000

## FACILITIES FOR INTERSTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.5 Minimum Period Charges (Cont'd)

- (B) For Special Access, other than DS3 Service, the charge is the applicable monthly rate for the service(s) as in 5.7. For Special Access DS3 Service, the charges are in Section 5.6.11. (M)
- (C) For End User Common Lines, the charge is the applicable monthly rate for the FIA as in 13.11. (M)
- (D) For FGD or BSA-D ordered prior to conversion of an end office to equal access, but canceled after the equal access conversion date, a Discontinuance Charge in 3.2.7 applies.
- (E) For part-time or occasional program audio Special Access services, the rates in 5.6.1, 5.7, and 5.8 will apply.
- (F) For FGA, FGB, BSA-A, and BSA-B Type service where measurement equipment is not available and the Assumed Minutes of Use Monthly Surrogate is used, the charge will be the prorated amount on a daily basis, calculated at 1/30 of the applicable rate shown in Section 4.6.7, for each day of the minimum period the facility was in service.
- (G) For Optical Networking services, the charge is the applicable monthly rate for the service(s) as in 20(L).
- (H) For the Primary Interexchange Carrier Charge, the charge is the applicable monthly rate as in Section 12.
- (I) For DSL Solutions, the charge is the applicable monthly rate for the service(s) (T) as in 16.6.

3.2.6 Cancellation of an ASR

- (A) A customer may cancel ordered FIA on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the ASR is to be canceled. The verbal notice must be followed by written confirmation within 10 days.

For Switched Access Tandem-Switched Transport or ASRs requesting additional trunk activations on existing Direct-Trunked Transport facilities, if a customer is unable to accept service within 30 calendar days of the original service date, the ASR shall be considered canceled and charges in (C) and (D) will apply. In such instances, the cancellation date shall be the 31st calendar day beyond the original service date of the ASR.

Material omitted from this page now appears on Page 78.2.

## FACILITIES FOR INTERSTATE ACCESS

3. ORDERING OPTIONS FOR FIA (Cont'd)3.2 Access Service Request (Cont'd)3.2.6 Cancellation of an ASR (Cont'd)

## (A) (Continued)

For Special Access, and Switched Access Entrance Facilities and Direct-Trunked (M)  
Transport, if a customer is unable to accept service within 30 calendar days of  
the original service date, the customer has the choice of the following  
options:

- The ASR shall be canceled and charges in (C) will apply, or
- Billing for the service will commence.

In either case, the cancellation date or the billing date shall commence on the  
31st calendar day beyond the original service date of the ASR. (M)

- (B) ASR costs are considered to have started when the Telephone Company incurs any  
cost in connection therewith or in preparation thereof which would not  
otherwise have been incurred. These costs include but are not limited to  
preliminary engineering, orders to suppliers, and other similar items of cost.  
For purposes of determining cancellation charges, the costs are considered to  
have started the day the Telephone Company is scheduled to issue the confirmed  
ASR to all associated work groups. For all ASRs this is known as the Scheduled  
Issue Date. The customer will be notified of the applicable critical date  
interval on the Firm Order Confirmation (FOC) Date. The cancellation charges  
will not apply until the customer is notified of such charges.

- (C) When a customer cancels an ASR for the installation of new service, or an ASR  
to modify existing service, charges will apply as follows:

- (1) When an ASR for Switched Access Service is canceled on or after the  
Scheduled Issue Date, the Cancellation Charge is calculated, on a per  
ASR basis, by multiplying the total Installation nonrecurring charges  
for the quantity ordered by the number of business days elapsed since  
the Scheduled Issue Date, and dividing that figure by the number of days  
in the service interval (i.e., the number of business days between the  
Scheduled Issue Date and the last day of the service date interval) and  
adding the Switched Access Ordering Charge.
- (2) When an ASR for Special Access Service is canceled on or after the  
Scheduled Issue Date, the Cancellation Charge is calculated, on a per  
ASR basis, by multiplying the total nonrecurring charges for the  
quantity ordered by the number of business days elapsed since the  
Scheduled Issue Date and dividing that figure by the number of days in  
the service interval (i.e., the number of business days between the  
order date and the last day of the service date interval).

## FACILITIES FOR INTERSTATE ACCESS

4. SWITCHED ACCESS (Cont'd)4.5 Rate and Charge Regulations (Cont'd)4.5.2 Rate Regulations (Cont'd)(A) Types of Rates and Charges (Cont'd)(3) Nonrecurring Charges (Cont'd)(b) Installation of Voiceband Entrance Facilities

The Service Installation Charge associated with the installation of Voiceband Entrance Facilities is specified in 4.6.2(J).

(c) Installation of Multiplexing Arrangements

A Nonrecurring Charge applies for the installation of multiplexing arrangements available with Switched Access Service. This charge applies per multiplexing arrangement ordered and is dependent upon the type of multiplexing performed. (DS1 to Voice or DS3 to DS1). This charge also applies whether the multiplexing arrangement is installed coincident with the initial installation or at anytime subsequent to the installation of service.

(d) Installation of CCS7 Access Service

The Service Installation Charge does not apply to CCS7 Access service installations. Nonrecurring Charges applicable to CCS7 Access services are described in 4.5.2(G).

(e) Installation of DS1 and DS3 Entrance Facilities(1) DS1 Standard Arrangements

For DS1 Entrance Facilities, a nonrecurring charge applies for each (C)  
DS1 Entrance Facility ordered. (C)

(2) DS1 Optional Payment Plan (OPP) Arrangements

Customers subscribing to the DS1 OPP arrangements at rates set forth (C)  
in 4.6.2(N) will be assessed a nonrecurring charge (NRC) for (C)  
installation of each DS1 Entrance Facility as set forth in 4.6.2(K). (C)

The regulations in Section 4.5.2(A)(3)(h) will apply to existing DS1  
OPP customers when required for changes and other service  
rearrangements.

(3) DS3 Arrangements

For DS3 Entrance Facilities, the charge for the installation will  
apply at the rates set forth in 4.6.2(L) and 4.6.2(N). These charges  
will apply for each DS3 Entrance Facility ordered on a month-to-month  
basis or subscribed to on a term commitment plan.

(This page filed under Transmittal No. 1243.)

## FACILITIES FOR INTERSTATE ACCESS

4. SWITCHED ACCESS (Cont'd)4.5 Rate and Charge Regulations (Cont'd)4.5.5 Application of Rates for FGA or BSA-A Extension Service

FGA or BSA-A is available with extensions (i.e., additional terminations of the service at different buildings in the same LATA). FGA or BSA-A extensions are provided and charged for as Special Access. The rate elements which apply are Special Transport (from the extension bridging point to the wire center serving the CDL), and Special Access Lines. All appropriate monthly rates and nonrecurring charges are in 5.7.

4.5.6 Switched Access DS1 Optional Payment Plan (OPP)General

Customers subscribing to the Switched DS1 OPP will be assessed a nonrecurring charge (NRC) (C) for installations of each Entrance Facility as set forth in 4.6.2(I). (C)

The terms and conditions specified herein are applicable to DS1 Entrance Facility services.

Only the Entrance Facility rate element is available under an OPP. All other associated rate elements or additional features are available under the standard month-to-month tariffed rates and regulations.

DS1 OPP Entrance Facility rates will not be greater than standard month-to-month entrance facility rates.

Term commitment periods of one year, three year and five year are available to all customers at the applicable rates set forth in 4.6.2(L).

The customer must designate the term commitment period and the quantity of First System DS1 OPP Entrance Facilities committed to for the OPP on the subscription form.

When a customer elects to subscribe to an OPP arrangement for switched DS1 service, only the Entrance Facility rate element is subject to the OPP terms and conditions. (C)

(D)

(D)

(D)

(D)

The installation charge associated with DS1 services subscribed to an OPP are set forth in 4.5.2(A)(3)(e)(2).

Discount factors

Discount factors are percentage discounts applied to the DS1 Month-to-Month First System rate as shown in 4.6.2(I) to derive the applicable tariff rate for each term commitment period. The resulting discounted tariff rate will be calculated to the same number of decimal places as the undiscounted tariff rate.

(This page filed under Transmittal No. 1243.)

Director - Tariffs (T)  
600 Hidden Ridge, Irving, Texas 75038

Issued: February 25, 2000

## FACILITIES FOR INTERSTATE ACCESS

4. SWITCHED ACCESS (Cont'd)4.5 Rate and Charge Regulations (Cont'd)4.5.6 Switched Access DS1 Optional Payment Plan (Cont'd)Discount Factors (Cont'd)

Customers will be billed Entrance Facility charges for each term commitment period based on the tariffed discounted rate as shown in 4.6.2(L). The billable portion (the complement of the discount factor) of the non-discounted tariffed rate used to derive the discounted rate will also be displayed on the customer's service record (CSR).

Furthermore, a rate cap will apply under a plan where no shortfalls, reassessment of savings or early termination occurs. The rate cap is generally equal to the undiscounted rate at the beginning of the plan. If price increases occur and the discounted rate as shown in 4.6.2(L) exceeds the rate cap, the rate cap is charged in place of the discounted rate.

Annual Commitment Levels

To obtain the price discount, the customer agrees to subscribe to a specified level of DS1 (C) OPP Entrance Facilities over a committed period of time. The commitment is expressed as a monthly quantity of units associated with the various rate elements. To meet its commitment, a customer must meet both an Average Monthly Billed Quantity (AMQ) and an In-service (the quantity in service during the last month of each annual assessment period) Billed Quantity level (ISQ).

Start and Stop Date

The Term commitment period is initiated at the beginning of a month (start date) and is completed, in one year increments, at the end of a pre-determined month (stop date). During this time period, the discount is applied to the base rate.

Anniversary Dates

Anniversary dates occur between the start and stop dates. For a one year plan, the anniversary date is the end date of the plan. For multi-year plans, anniversary dates occur at the end of each twelve-month period of the plan.

Changes in Length of an OPP Period

Prior to completion of the selected OPP term commitment, the customer may elect to convert to a new OPP period of the same or different length, subject to the following conditions:

- No credit toward the new term commitment period will be given for payments made under the original OPP arrangement.
- Nonrecurring charges will not be reapplied for existing service(s).

Rate Changes

Decreases in the OPP monthly recurring Entrance Facility rates will be passed on to the subscribers.

## FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.5 TCP/IP Data Aggregation Service (Cont'd)(D) Rate Regulations (Cont'd)(2) Rate Application (Cont'd)

## (d) (Cont'd)

- The IP Channel access is a single 1.544 Mbps port connection incorporating a channelized DS3 interface board within a router and DS3 multiplexing equipment in a Telephone Company switching wire center where the CyberWAN™ platform resides. Up to 28 IP Channel ports can be provided on a single DS3 system. One IP Channel access charge applies for each DSL access line terminated on the DS3 multiplexing equipment, and each counts as 1 unit.

Frame Relay 1.544 Mbps Service, when used in connection with IP Channel, may be ordered as a UNI port only application from Section 16.3 with DSL transport from Section 5, as appropriate. In this case, the customer must provide, on the order, the channel assignment within the IP Channel multiplexing system for termination to the Frame Relay Port.

- (e) The total number of units in service associated with dedicated port (T) access will determine the rate to be applied to all dedicated channels at each central office. For example, if the total number of dedicated units is 92, all dedicated access will be rated at the applicable dedicated access rate for the 60-99 tier, and the selected commitment period.

- (f) Shared use (ratcheting) is not permitted.

(3) Term of Commitment

The modem based data aggregation service is initially offered as a four year or five year commitment period.

With the exception of IP Channel access, the router based dedicated data aggregation service is initially offered as a two, three, or four year commitment. IP Channel is only offered on a CyberWAN™ site established under a three or four year commitment period. The commitment period must be selected by the customer at service enrollment. The customer may upgrade to a longer term at any time.

(4) Commitment Levels

An implementation period not to exceed six months from the customer's (T) specified enrollment date for the 2, 3 or 4 year rate plans for CyberWAN™, 4 year rate plan for CyberPOP™, and twelve months for the 5 year rate plan will (T) be negotiated between the Telephone Company and the customer. During implementation, the applicable rate will be determined by the total number of modem channels or dedicated ports in service. However,

- (a) Under the 4 year rate plan for modem based data aggregation (CyberPOP™), if the total number of dial-up channels during implementation is less than 4,000, the rate for 4,000-7,999 will apply. Following the six months implementation period the minimum monthly nationwide commitment is 4,000 combined analog and ISDN dial-up channels. The commitment level will apply to TCP/IP total dial-up channels.

(This page filed under Transmittal No. 1243.)

Issued: February 25, 2000

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)

16.5 TCP/IP Data Aggregation Service (Cont'd)

(D) Rate Regulations (Cont'd)

(4) Commitment Levels (Cont'd)

- (b) Under the 5 year rate plan for modem based data aggregation (CyberPOP™), if the total number of dial-up channels during implementation is less than 8,000, the 8,000-11,999 rate will apply. Following the twelve month implementation period, the minimum monthly nationwide commitment is 8,000 combined analog and ISDN dial-up channels. The commitment level will apply to TCP/IP total dial-up channels.
- (c) For all rate plans for router based data aggregation (CyberWAN™), if the (T) total of dedicated port units during implementation is less than 30, the full rate for 30-59 DS1 Serial Access units will apply to the units in (T) service. Following implementation, the minimum monthly commitment is 30 (T) dedicated units. Each Serial DS1, HSSI DS3, Channelized DS3, SONET OC-3c, OC-12c single-mode access and IP Channel access will be counted as one unit towards meeting the 30 unit commitment level.

(This page filed under Transmittal No. 1243.)

Director - Tariffs  
600 Hidden Ridge, Irving, Texas 75038

Issued: February 25, 2000

## FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.5 TCP/IP Data Aggregation Service (Cont'd)(D) Rate Regulations (Cont'd)(5) Changes to Commitment Level

Once activated, the total nationwide quantity of analog and ISDN channels or total quantity of dedicated ports must remain in service for the remainder of the commitment period. An allowance of a 2% decrease to the combined in service quantities of analog and ISDN channels or a 5% decrease to the in service unit quantities of dedicated access (quantified at each quarterly review) will be permitted. Penalties for not meeting the initial commitment level are set forth under 16.5(D)(8) and liabilities for reductions in quantities once the initial commitment has been met are set forth under 16.5(D)(11). (T)

(6) Service Enrollment

- (a) When the customer elects to enroll in CyberPOP™, the customer must specify in writing a 4 year or 5 year rate plan selection and the enrollment date (which will be the anniversary date). The specified enrollment date must be within 90 days from receipt of the written enrollment request. The customer must also specify the central offices to be included. By the enrollment date, ASRs must be issued to provide the appropriate amount of TCP/IP Channels to fall within the commitment range specified in 16.5(D)(4)(a) or 16.5(D)(4)(b) as appropriate.

At enrollment, the minimum modem based services per central office is 24 analog channels or 23 ISDN channels. The maximum number of central offices deployed to meet the 4,000 minimum analog and/or ISDN channel commitment is 60 separate central offices. 8,000 analog and/or ISDN channels will have a maximum of 120 central offices, 16,000 analog and/or ISDN channels will have a maximum of 240 central offices and 24,000 or more analog and/or ISDN channels will have a maximum of 320 central offices. The 320 central office maximum is maintained for all channel quantities above 24,000.

Subsequent to enrollment, growth ASR orders require a 24 channel analog or 23 ISDN minimum.

- (b) When the customer elects to enroll in CyberWAN™, the customer must specify in writing, the enrollment date (which will be the anniversary date). The specified enrollment date must be within 120 days from receipt of the written enrollment request. The customer must also specify the central offices to be included and select a commitment period (2, 3, or 4 years). Each CyberWAN™ platform deployed in a central office for the customer will have its own term commitment period. By the enrollment date, ASRs must be issued to provide the appropriate amount of dedicated ports to equal the quantity commitment. (T)

The minimum number of central office deployed to meet the 30 unit commitment is 2 separate central offices.

Subsequent to enrollment, growth ASR orders require a dedicated one unit minimum.

(This page filed under Transmittal No. 1243.)

Issued: February 25, 2000

## FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.5 TCP/IP Data Aggregation Service (Cont'd)(D) Rate Regulations (Cont'd)(7) Quarterly Review

Each customer's service commitment will be reviewed quarterly beginning with the first six months following enrollment. The customer will be notified in writing as to the status of the commitment requirements. This notification will inform the customer of any shortfall in the channel quantity level. Penalties for a missed commitment level are set forth under 16.5(D)(8) and 16.5(D)(11).

(8) Penalties for Failing to Obtain the First Six Month/4 Year or First Twelve Month/5 Year Commitment Level

(a) At the first quarterly review, when the number of CyberPop™ channels is less than the acceptable commitment range, the following penalty charges will apply, based on the difference between the commitment level less 2% for analog and ISDN dial up channels. Dial-up channel quantity shortfalls of in service units below the minimum commitment level will incur a liability charge of 50% of the 4,000-7,999 channel rate per month, per unit below the commitment level until the enrollment commitment is obtained.

(b) At the first quarterly review, when the number of CyberWAN™ dedicated port units is less than the acceptable commitment range, the following penalty charges will apply, based on the difference between the commitment level less 5%. Dedicated port unit quantity shortfalls will incur a liability charge of 50% of the 30-59 Serial DSL access rate per month, per unit below the commitment level until the dedicated port unit commitment is obtained. The minimum commitment level is 30 units billable at the full 30-59 Serial DSL access rate. The 5% allowance applies only to quantities greater than the 30 unit minimum requirement.

(9) Service Availability

During the subscription period commencing at the enrollment date, the Telephone Company objective level of service availability will be 95% of the monthly hours of operation for each central office. Should the service availability actually be less than 95% of monthly hours for the average channel of a central office (e.g., 30 days x 24 hrs. x .95 = 684 hrs.), the customer may terminate subscription for that central office without any termination liability or receive a credit of 40% of the monthly bill for that central office.

(10) Renewal Options

(a) CyberPop™ Option 1 - No Growth in Months 37 to 48 of 4 Year Plan or 49 to 60 of 5 Year Plan

At the expiration of the term, the customer may select an additional four year or five year commitment, or convert to a month to month basis. If the customer fails to make a selection, the Telephone Company will notify the customer and continue with an additional month of billing. If the customer does not select a new term agreement within 30 days from the expiration date, billing will automatically continue on a month to month basis. To cancel the agreement after the initial four year term or five year term, the customer must provide written notification to the Telephone Company that the service will be terminated.

(This page filed under Transmittal No. 1243.)
