Transmittal Letter
Revised Tariff Sheets Filed Pursuant to the
Commission's Order in Case No. 83-464-TP-COI
and
Case No. 90-5023-TP-TRF

Dear Ms. Crockron:

Revised tariff sheets have been filed with the FCC to amend GTOC Tariff FCC No. 1, Facilities for Interstate Access, in which GTE North Incorporated concurs for intrastate applications.

In accordance with your Commission's Order in Case No. 83-464-TP-COI, we are filing four (4) copies of these revised tariff sheets.

Transmittal No. 1241 - Effective February 29, 2000

This filing proposes to establish new 5 year Term and Volume Plans (TVPs) with new associated tier thresholds, update wire center availability and make text changes for GTE DSL Solutions - ADSL Service under Section 16, Advanced Communications Networks.

Acknowledgement and date of receipt of this filing is requested.

Sincerely,

John W. Kennedy
Assistant Vice President-Regulatory
and Governmental Affairs

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL SolutionsGeneral

This section contains the rules and regulations pertaining to the provision of GTE Digital Subscriber Line Services (DSL) Solutions. GTE DSL Solutions provide high-speed connections services over existing copper facilities, which are also used to provision customers' local (T) exchange service. The regulations and rates specified herein are in addition to the applicable regulations and rates specified in other sections of this tariff.

ADSL Service(A) Service Description (USOC - ADUXX)

Asymmetrical Digital Subscriber Line (ADSL) Service is an access data technology service offered in speed levels of 256 Kbps Down/64 Kbps Up, 384 Kbps Down/384 Kbps Up, 768 Kbps Down/128 Kbps Up, 768 Kbps Down/768 Kbps Up, 1.5 Mbps Down/768 Kbps Up and for multi-user applications, 1.5 Mbps Down/768 Kbps Up. The "up" speeds represent "transmission speeds in kilobits", from the customer designated location (CDL) to the Telephone Company's ADSL connection point, while the "down" speeds represent "transmission speeds in kilobits and megabits", from the Telephone Company's ADSL connection point to the CDL. The Telephone Company will set the transmission speeds to the speed levels for the service package selected by the customer. The loop distance from the CDL to the serving wire center can affect the transmission speeds. Depending on this distance, actual speeds may be less than the transmission speeds set by the Telephone Company. The connection point is the aggregation point designated by the Telephone Company for connecting multiple Telephone Company serving wire centers of ADSL terminations to other Telephone Company provided network interface services. Other Telephone Company provided network interface services may include, but are not limited to, Frame Relay, ATM, DS1 and/or DS3 facilities. Telephone Company provided DS1 and DS3 network interface services are not yet available for connection with ADSL Service. (C)

(B) Service Provisioning

ADSL Service is provisioned over existing Telephone Company copper facilities and transported to the Telephone Company's backbone network. ADSL Service provides a connection from the customer's designated location (CDL) to the ADSL connection point.

Access from the Telephone Company's ADSL connection point will be provided via Frame Relay Service or ATM Network Service, where facilities permit. The Frame Relay Service must be of sufficient bandwidth to support the maximum speed of the ADSL Service being provided. Frame Relay Service and ATM Network Service are available in Section 16.3 and Section 16.7. A customer may use their existing interstate (T) Frame Relay Service or ATM Network Service, or may submit an order to establish new facilities. If a customer utilizes Frame Relay Service from Section 16.3 or ATM Network Service from Section 16.7, the associated regulations, rates and charges for such facilities shall apply in addition to the rates and charges associated with the ADSL Service rate element.

The Telephone Company will qualify the ADSL Service between the CDL and the serving wire center. The purpose of qualification is to determine the availability and suitability of existing Telephone Company copper facilities to provide the service. The Telephone Company will not provision this service on facilities which are not suitable for ADSL.

Material previously appearing on this page now appears on Page 321.29.

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(B) Service Provisioning (Cont'd)

The Telephone Company does not undertake to originate data, but offers the use of its service components, where available, to customers for transporting customer-originated data.

A listing of the host wire centers capable of providing ADSL Service is furnished in 16.6(G) of this tariff. ADSL will be provided subject to the availability and limitations of Telephone Company wire centers and outside plant facilities and is only available where technical capabilities permit. Downstream data rates depend on a number of factors, including, but not limited to (1) the distance from the CDL to the serving wire center, (2) the type of copper facility (wire gauge) and (3) the physical plant.

(M)

(C) Responsibility of the Telephone Company

The Telephone Company will provision and maintain ADSL service for the customer up to and including the Network Interface Device (NID).

The Telephone Company will advise the customer of the equipment necessary to support ADSL Service.

(D) Rights of the Telephone Company

The Telephone Company will not provision ADSL service if the Telephone Company reasonably determines that (a) it is not technically feasible over existing facilities or (b) it will cause interference problems with existing services.

During the Telephone Company's network maintenance and software updates period, it may be necessary to place the ADSL wire center out of service. The Telephone Company reserves the right to temporarily interrupt ADSL Service at other times in emergency situations.

(E) Responsibility of the Customer

The customer is responsible for providing compatible customer provided equipment (CPE) that is used for connection to ADSL Service.

The customer is responsible for providing the Telephone Company with the necessary information (e.g., Data Link Connection Identifier(s) (DLCI), Permanent Virtual Circuit (PVC) and/or Internet Protocol) to provision ADSL Service.

The customer ordering ADSL Service on behalf of its subscriber(s) must obtain a Letter of Authorization.

The customer will be responsible for obtaining permission from its subscriber(s) for the Telephone Company's agents or employees to enter the customer's designated location(s) at any reasonable hour for the purpose of installing, inspecting, repairing, or upon termination of the service, removing the service components of the Telephone Company.

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations(1) Rate Elements

ADSL Service arrangements are available as month-to-month or 1 year, 3 year or 5 year Term and Volume Plans (TVP). The regulations applicable to ADSL Service provided under TVP arrangements are specified under 16.6(F)(4). A nonrecurring charge for the installation of ADSL Service and a monthly rate are applicable for all ADSL Service arrangements. These charges cover installation and activation of the service (installation and activation includes the following functions, if applicable: order entry check, line qualification, firm order commitment notification, work scheduling, loop conditioning if required, wire center cross connection, permanent virtual circuit creation and mapping, replacement of existing network interface device at the CDL with a new device including splitter if required, circuit turn-up and test, and completion notification to customer, and all other similar activities if the installation and activation process changes) and the provision of the service. (N)

ADSL Service is available in six service level packages, and is based on the "downstream and upstream" speeds chosen by the customer. The service levels are Bronze, Bronze Plus, Silver, Gold, Platinum and Platinum Plus. The Platinum Plus is available for multi-user applications. A customer may have multiple packages; however, the downstream and upstream speeds may not be substituted within a service level, as the packages are defined by the downstream and upstream speeds. (T)

	<u>Downstream</u>	<u>Upstream</u>
ADSL Bronze	256 Kbps	64 Kbps
ADSL Bronze Plus	768 Kbps	128 Kbps
ADSL Silver	384 Kbps	384 Kbps
ADSL Gold	768 Kbps	768 Kbps
ADSL Platinum	1.5 Mbps	768 Kbps
ADSL Platinum Plus	1.5 Mbps	768 Kbps

Data speeds set forth above are peak speeds. Actual speeds may be affected by loop distance and other factors, therefore, data speeds are not guaranteed.

(F) Rate Regulations

(2) Rate Application

With the exception of the Bronze package, the 1 year TVP has two volume levels: 1-1,500; and Over 1,500. With the exception of the Bronze package, the 3 year TVP has four volume levels: 1-2,499; 2,500-7,499; 7,500-12,499; and 12,500 and Over. The Bronze package is available under both the 1 year and the 3 year TVP in three volume levels: 1-499; 500-1,500; and Over 1,500. The 5 year TVP has five volume levels: 25,000-74,999; 75,000-149,999; 150,000-299,999; 300,000-674,999; and 675,000 and Over.

Within each of the TVP terms (the 1 year, 3 year or 5 year TVP), the services purchased by the customer under any ADSL Service level package available under the applicable TVP term (i.e., Bronze, Gold, etc.) will be combined to determine whether the customer selected volume commitment level has been met. ADSL Service purchased under different TVP terms will not be combined to determine whether the volume commitment level has been met.

The following diagram depicts a typical ADSL configuration:

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations(3) Service Rearrangements and Software Changes

(M)

A Service Rearrangement charge is applicable for services (bandwidth) downgrades, i.e. Silver to Bronze and for changing to a different Information Provider, i.e., Internet Service Provider (ISP). The charge is also applicable when the service level is change from Bronze to Bronze Plus. The customer may request multiple service rearrangements within one wire center on one order. A separate order is required for rearrangements on a per wire center basis. The Service Rearrangement charge applies on a per service rearrangement basis.

A customer may order bandwidth level changes subject to the following conditions:

- Both the existing and the new services are provided solely by the Telephone Company.
- The Service will be provided at the same customer location as the discontinued service.
- The monthly rates for the new service(s) and/or service elements will be those in effect at the time of the service change.

A nonrecurring charge applies for software changes such as remapping Frame Relay or ATM Permanent Virtual Circuits (PVCs) and other software changes associated with ADSL Services. This charge applies on a per software change basis.

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP)(a) Description

The terms and conditions specified herein are applicable to ADSL Service and are in addition to other regulations as specified in this tariff.

ADSL Service is available under TVPs on a wholesale basis to (N) customers for incorporation in service offerings made by such customers to their end-users, and is priced on such basis. Customers who purchase ADSL Service under a TVP and include ADSL Service in their offerings to end-users, are responsible for the terms of any pricing plans offered by the customer to end-users, end-user ordering, providing customer premises equipment, billing and collecting from end-users, and for communicating with end-users for all aspects of the service. The customer is responsible for managing end-user trouble reports and will not direct its end-users to contact the Telephone Company.

The Telephone Company will provide sales, communication, billing services, and trouble and repair service directly to end-users who purchase ADSL Service on a retail basis. (N)

An ADSL TVP will allow customers discounted access rates based upon (T) the volume and term commitment. The minimum term commitment is one (1) year. Rates will be based upon the TVP selected by the (T) customer.

(D)
(D)

Term plans of one (1), three (3) and five (5) years are available (T) to all customers at applicable rates set forth in the tariff regardless of when the subscription is made for an ADSL Service TVP. (T)

The first year under a TVP begins on the date that the first ADSL (N) Service arrangement is installed and activated by the Telephone Company. The first year for a customer that subscribes to the 675,000 and Over volume commitment level in the 5 year TVP will be 18 months long. All other years in the 5 year TVP shall be 12 months in duration. All years in the 1 year and 3 year TVP are twelve months in duration. (N)

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP)(a) Description (Cont'd)

The Telephone Company will calculate at the end of each year whether the volume commitment level has been met based on all of a customer's in-service ADSL Services in Telephone Company areas as specified in 16.6(G), following. The volume commitment levels for the one year TVP must be in-service within one year from the date the first ADSL Service arrangement is installed and activated by the Telephone Company. The three year and five year TVP terms have minimum volume commitment level requirements assigned for each year of the TVP as defined in the following tables:

Three Year TVPMinimum In-Service Volume Requirements

<u>Volume Commitment Level</u>	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>
2,500-7,499	1,000	2,000	2,500
7,500-12,499	3,000	6,000	7,500
12,500 and Over	4,500	9,000	12,500

Five Year TVPMinimum In-Service Volume Requirements

<u>Volume Commitment Level</u>	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>	<u>Year 5</u>
25,000-74,999	4,000	8,000	15,000	20,000	25,000
75,000-149,999	12,500	25,000	45,000	65,000	75,000
150,000-299,999	25,000	50,000	95,000	130,000	150,000
300,000-674,999	50,000	100,000	190,000	255,000	300,000
675,000 and Over	100,000	250,000	400,000	525,000	675,000

If any of the TVP volume commitment levels are not met, Shortfall Charges, as set forth under 16.6(F)(4)(h) will apply.

(b) TVP Plan Enrollment

The customer must specify, in writing or issue Access Service Request(s), the specific Term and Volume commitment of the TVP.

Material omitted from this page now appears on Pages 321.32 and 321.32.1.

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(c) TVP Rate Application - End of TVP Term

(T)

Upon expiration of a TVP term, the customer may choose a new TVP term, convert to month-to-month, terminate the service or continue with the rates, charges, terms and conditions, and volume commitment level in effect at the end of the expiring TVP on a year-to-year basis. The month-to-month rates will be those rates that are in effect at the time of conversion. (C)

A change order is required to choose a new TVP term, convert to month-to-month or to terminate the service. If the customer does not submit a change order for one of these options by the end of the TVP term, the ADSL Service will continue in effect for a one year renewal term at the rates based on the last year of the TVP term, with reassignment to a lower volume commitment level as provided under the annual review, below, if applicable. The service will thereafter continue for successive one year renewal terms until terminated by either the customer or the Telephone Company by written notice, or changed by the customer through a change order submitted by the the customer, that is provided no later than 30 days prior to the end of the then-current renewal term. All terms and conditions, including Shortfall Charges as set forth under 16.6(F)(4)(h) and the Minimum In-Service Commitment as set forth under 16.6(F)(4)(i) will apply to the new TVP renewal term. (C)

Conversion of existing TVP service to a different TVP term will be allowed without application of any nonrecurring charges. (M) (T)

Notwithstanding the expiration of the term of a TVP, the Telephone Company will continue to provide ADSL Service to the customer for an end-user whose service arrangement commenced during the final year of a TVP for the remainder of one full year of service at the monthly rates in effect at the end of the expiring TVP. The provisions of the tariff (except for shortfall charges set out in section 16.6(F)(4)(h) and termination liability set out in section 16.6(F)(4)(k) continue to apply, and the customer remains responsible for payment of charges applicable to this continued service. (N)

Material omitted from this page now appears on Pages 321.32.1 and 321.33.
Certain material appearing on this page formerly appeared on Page 321.31.1.

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(d) Changes in Length of TVP Term

(T)

The customer may elect to convert to a new TVP term subject to the following conditions: (T)
(M)

- (1) Credit will not be given toward the new payment term for payments made under the original TVP arrangement. (T)
(M)
- (2) Nonrecurring charges will not be reapplied for existing service(s). (M)
(M)
- (3) If the new TVP term is shorter in length than the time remaining under the existing TVP, the change to the new TVP term constitutes a discontinuance of the existing TVP service and termination liability charges apply. (T)
(M)
(M)

(e) Rate Changes

(T)

The customer may terminate the TVP without penalty or liability should the rates increase during the term of the existing TVP. (M)
(D)
(D)

(f) Periodic Review

(T)

Each customer's TVP will be reviewed annually. The customer will be notified within sixty (60) days following the end of each year within the TVP as to the status of the TVP if the in-service quantity of ADSL Services falls below the volume commitment level. An allowance of up to 3% will be considered as still having met the volume commitment level for the 1 and 3 year TVP terms. Under the 5 year TVP, an allowance of 5% will be considered as having met the volume commitment level. This 5% allowance may be subject to upward adjustment under Section 16.6(F)(4)(j). Where the customer has less than the volume commitment level for a specified discount, shortfall charges apply as set forth in 16.6(F)(4)(h). (C)
(C)

If the total number of ADSL Services in service qualifies the customer for a different TVP rate, the customer will have the option of increasing the volume commitment level either in its existing term or change to a longer TVP term. (M)
(M)
(C)
(C)

During the annual review, customers who fall below the minimum volume commitment in any year of the term will be reassigned to the lower TVP volume commitment level corresponding to the volume achieved. This reassignment will be made within 30 days following the end of the applicable year, unless the customer elects to increase or decrease their volume commitment level. (N)
(N)

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(f) Periodic Review (Cont'd)

In addition to the annual review, the Telephone Company, at the customer's request, will meet with the customer to review issues affecting the provision of ADSL Service, customer forecasts for the purchase of service, and deployment plans. (N)

(g) TVP Conditions (T)

After enrolling in a TVP, the customer may delete or add ADSL Services at the specified volume commitment level rate at any time during the plan. For example, if the customer subscribes to a 3 year TVP at the 2,500-7,499 ADSL Service volume commitment level, ADSL Services may be added at any time at the rate for the 3 year 2,500-7,499 volume commitment level. However, if the volume falls below the minimum volume commitment level requirements at the end of a year, Shortfall Charges will apply as set forth below. (T)

(h) Shortfall Charges for Failing to Meet Commitment (T)

Shortfall charges apply to any TVP customer that fails to meet the minimum volume commitment for its designated volume commitment level by the end of the year. The Shortfall Charge is based on the difference between the monthly rate of the TVP for the customer's designated volume commitment level and the monthly rate for the commitment level that should have been charged based upon the actual quantity of in-service ADSL Services at the annual review multiplied by the number of ADSL Services that are in-service at the end of each month during the year. The Shortfall Charge is equal to the difference in the monthly rate multiplied by the sum of all ADSL Services in-service at the end of each month during the year. For example, at the end of year 2, a 5 year TVP customer with a minimum volume commitment of 300,000 and only 50,000 ADSL Services in-service will be assessed the difference in the monthly rate between volume commitment level 150,000-299,999 and 300,000-674,999 for each ADSL Service in-service at the end of each month during the year. (C)

For the 5 year TVP, customers who elect to increase their volume commitment level from one plan level to another at the end of a TVP year, after being subject to a Shortfall Charge for the previous term year, but fail to achieve the minimum volume commitment level in the following year, will be charged an additional 10% of the calculated Shortfall Charge for such following year. 16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(i) 6 Month Minimum In Service Commitment for the 5 Year TVP (N)

This section establishes additional provisions applicable to individual ADSL Service arrangements under the 5 year TVP.

Customers who subscribe to the 5 year TVP are also subject to a 6 month Minimum In Service Commitment (MIC) for each ADSL Service arrangement, and will be assessed an early termination charge for each ADSL Service arrangement that is terminated prior to the completion of 6 months of service. The initial charge is \$96. The \$96 charge will be reduced by \$16 for each month of completed service.

If the Telephone Company does not install and activate the service, there will be no charges of any kind to the customer. If the end-user terminates service within the first 30 days due to ADSL Service related problems documented by three or more trouble reports made by the customer to the Telephone Company for trouble of any nature or duration that is determined to be in the ADSL Service, the Telephone Company shall not charge the customer any of the rates and charges that would be applicable to the installation, activation or provision of ADSL Service for that ADSL Service arrangement, including, without limitation, the \$96 early termination charge or any nonrecurring charge or monthly charge. Any nonrecurring or monthly charge that was billed for that ADSL Service arrangement will be credited to the customer.

(j) Adjustments to Minimum Volume Commitment for the 5 Year TVP

The volume commitment level for the 5 year TVP will be reduced for any year for which the Telephone Company fails to loop qualify at least 95% of the following number of lines to end-users' premises by the beginning of the respective year: year 1, four (4) million; year 2, five (5) million; year 3, six (6) million; year 4, seven (7) million; and year 5, eight (8) million. The number of loop qualified lines is determined on an aggregate basis for all of the areas served by the Telephone Company as defined by 16.6(G). The reduction in the volume commitment level for any year is proportionate to the shortfall in loop qualified lines existing at the beginning of the respective year. For example, if at the beginning of year 2, the Telephone Company has only 4 million loop qualified lines for ADSL Service, instead of the specified 5 million, the volume commitment level specified for year 2 in 16.6(F)(4)(a) would be reduced by 20% (N)

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(j) Adjustments to Minimum Volume Commitment
for the 5 Year TVP (Cont'd)

The volume commitment level requirements for the 5 year TVP will be reduced at the end of any year of the TVP in which the Telephone Company does not complete at least 95% of the orders submitted by the customer for lines that the Telephone Company has confirmed to the customer as being loop qualified. The reduction in volume commitment level will be the same percentage as the Telephone Company's shortfall in its completion of orders for lines that the Telephone Company has confirmed to the customer as being loop qualified. For example, if at the end of a year of the 5 year TVP, 20% of the orders submitted by the customer for CDLS that were identified to the customer as being loop qualified are not actually loop qualified when the Telephone Company processes the order for the ADSL Service, the customer's volume commitment levels for that year will be reduced by 20%. (N)

Loop qualified means in the case of a CDL, that the serving wire center for such CDL is equipped to provide ADSL Service, and the facilities from the serving wire center to the CDL are confirmed by the Telephone Company as being capable of receiving an ADSL Service arrangement. Completion means that the ADSL Service is satisfactorily installed to the network interface device at the CDL.

The volume commitment level requirements for the 5 year TVP will be reduced at the end of any year of the TVP in which the Telephone Company does not clear trouble reports for interruptions in the ADSL Service in an average of less than 9 hours from the time the customer makes a trouble report to the Telephone Company. Clearing a trouble report means that the cause of the problem is either determined to be due to a problem outside of the ADSL Service provided under this tariff, or, if within the ADSL Service, is resolved and service is restored. The average time to repair will be determined on a customer-specific basis. The average will be determined for the applicable year of the customer's TVP. The minimum volume commitment level will be reduced in accordance with the following table:

<u>Average Hours to Repair</u>	<u>Reduction in Volume Commitment Level</u>
Between 9 and 10	1%
Between 10 and 11	2%
Between 11 and 12	3%
Between 12 and 13	4%
Between 13 and 14	5%
Between 14 and Longer	6%

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(k) Termination Liability

(T)

This section applies when the customer terminates its subscription (N) to a TVP prior to the end of the TVP term. This section is not applicable for terminations of individual ADSL Service arrangements. (N)

When a TVP service is discontinued prior to the end of the (M) commitment term, termination liability charges will apply, as set (T) forth below, based on the remainder of the TVP term in effect at (T) the time of disconnect. (M)

One Year TVP - Prorated payment based on the ADSL Service Level (M) Package mix times the number of remaining months of the first year's recurring charges.

Three Year TVP - Prorated payment based on the ADSL Service Level (M) Package mix times the number of remaining months of the first, second and third year's recurring charges. (M)

Five Year TVP - For termination of a five year TVP, the customer (N) must provide the Telephone Company with ninety (90) days advance written notice of such early termination.

The Termination Liability for a five year TVP will be the lesser of the charges determined by the following calculations:

- (1) The difference between what would have been charged had the customer had the month-to-month rate for each line in-service at the end of each month the customer subscribed to the TVP, less all payments made and owed, including any Shortfall Charges and MIC payments; or.
- (2) One-half of the total monthly charges for the remainder of the five year commitment term calculated for each remaining year at the minimum ADSL Service arrangement quantity, as set forth in 16.6(F)(4)(a), as adjusted pursuant to 16.6(F)(4)(j), for the customer's selected volume commitment level in effect on the date the customer terminated its subscription. (N)

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(1) Changes in Regulation

(N)

If the FCC issues a ruling or rulings that have a net material adverse effect on the ability of either the Telephone Company or the customer to benefit from the TVPs described in this tariff, the entity that is adversely affected may, by written notice given within ninety (90) days of the effective date of the FCC decision, terminate, as applicable, the provision of, or subscription to, the TVP. If either the Telephone Company or the customer so terminates the TVP, the Telephone Company shall continue to provide ADSL Service arrangements then in effect to customer for customer's end-users for the longer of the remainder of the end-user's first full year of service, or six months following the effective date of such termination, at the monthly rates then in effect, and the customer shall not be liable for any shortfall charges (as set out in section 16.6(F)(4)(h), preceding) for the year of the TVP in which the effective date of the termination occurs, or for the minimum in-service commitment set out in section 16.6(F)(4)(i), or for the termination liability set out in section 16.6(F)(4)(k).

(m) Termination for Failure to Perform Obligations

If the Telephone Company materially breaches its obligations under a TVP as set out in this tariff, the customer may provide the Telephone Company written notice of the breach, and may, upon second written notice, terminate its subscription to the TVP if the Telephone Company fails to cure the breach within thirty (30) days of the first notice. If the customer terminates its subscription to a TVP pursuant to this section, the Telephone Company shall continue to provide ADSL Service arrangements then in effect to customer for customer's end-users for the longer of the remainder of the end-user's first full year of service, or six months following the effective date of such termination (or such longer period as may be available under this tariff at the time of termination), at the monthly rates then in effect, and the customer shall not be liable for any shortfall charges set out in section 16.6(F)(4)(h) for the year of the TVP in which the effective date of the termination occurs, or for the minimum in-service commitment set out in section 16.6(F)(4)(i), or for the termination liability set out in section 16.6(F)(4)(k).

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.6 GTE DSL Solutions (Cont'd)(F) Rate Regulations (Cont'd)(4) Term and Volume Plan (TVP) (Cont'd)(m) Termination for Failure to Perform Obligations (Cont'd)

(N)

If the customer materially breaches its obligations under a TVP as set out in this tariff, the Telephone Company may provide the customer written notice of the breach, and may, upon second written notice, terminate its provision of services under the TVP if the customer fails to cure the breach within thirty (30) days of the first notice. If the Telephone Company terminates its provision of services under a TVP pursuant to this section, the Telephone Company shall continue to provide ADSL Service arrangements then in effect to customer for customer's end-users for the shorter of the remainder of the end-user's first full year of service, or six months following the effective date of such termination (or such longer period as may be available under this tariff at the time of termination), at the monthly rates then in effect; the customer shall be liable for any shortfall charges set out in section 16.6(F)(4)(h) for the year of the TVP in which the effective date of the termination occurs, prorated based on the actual duration of the year of the TVP; and the customer shall be subject to the minimum in-service commitment set out in section 16.6(F)(4)(i) for ADSL Service arrangements that the customer terminates prior to the first full year of service.
