| Reason for Reallocation: | Carroll Electric Cooperative has existing facilities on Lambert Road, approximately 270 ft from the property to be served. Ohio Power Company can serve this customer, however the nearest facilities are approximately 2,100 ft away from the requested service location. With the resulting new line construction affecting other property owners, it has been determined that it is more reasonable for this customer to be serviced by Carroll Electric Cooperative. Carroll Electric Cooperative has agreed to service this customer and the customer has requested to be served by Carroll Electric Cooperative. |
