**Subject:** AEP Electric

I am voicing my concerns with AEP asking for another increase in rates. My electric bill has been climbing for the past 4-5 years. It is getting ridiculously high. AEP is putting a burden on their customers to pay for services for their operating costs. How much profit has AEP made these last 4-5 years? I don't agree with another rate hike. Personally, I feel they should lower their rates and refund some of the money back to the customers.

Thank you.
