Staff Interrogatories – Initial Set - Response

Question 1:

In section M of your application, you marked that your system is “Distributed Generation with both on-site use and wholesale sales”, if this is marked correctly, will you be selling into the PJM Wholesale market? If you meant to check “Distributed Generation with a net metering and interconnection agreement with a utility” as most of our applications do, that is fine, I can make the correction for you.

Answer 1:

The application should have been checked “Distributed Generation with a net metering and interconnection agreement with a utility.” The utility for this facility is BOPA Seville (OH). The interconnection date was 6/20/2013.
