Re: Application for Certificate before Ohio Power Siting Board
Carroll County Energy LLC
OPSB Case No. 13-1752-EL-BGN

Dear Mr. and Mrs.

Pursuant to Rule 4906-5-08(C)(3) of the Ohio Administrative Code, I am sending you this letter describing Carroll County Energy LLC's proposal to construct and operate a new natural gas-fired combined-cycle electric generating facility to be located in Washington Township, Carroll County, Ohio (the "Facility"). This letter is being sent to you because you are a tenant or property owner contiguous to the planned site.

On November 15, 2013, Carroll County Energy LLC filed its application with the Ohio Power Siting Board in Case No. 13-1752-EL-BGN. The Facility will utilize two General Electric 7F5-S Series natural gas turbines, each with a heat recovery steam generator (HRSG) and a single GE steam turbine generator (STG). The Facility will have a nominal net output of 742 megawatts and its combustion turbines will operate solely on natural gas. The Facility will utilize an air-cooled condenser, minimizing water needs.

The proposed Facility, which includes an electric generating facility, switch yard and other ancillary equipment, will be located on approximately 17 acres of an approximate 77-acre property located entirely within Washington Township, Carroll County, Ohio (approximately 2.5 miles north of the Village of Carrollton and approximately 0.8 miles south of State Route 171) ("Facility Site"). Access to the Facility will be off Route 9, extending across an approximate 23-acre parcel of land located between the Facility Site and Route 9. This 23-acre parcel will be used temporarily during construction activities. A natural gas pipeline will extend from the Facility to the existing Tennessee Gas Pipeline corridor, located approximately 0.7 mile to the north of the Facility. An electric transmission line will extend from the Facility to the existing American Electric Power 345 kilovolt transmission line corridor, located approximately 0.5 miles west of the Facility. The natural gas pipeline and the electric transmission line interconnections will be the subjects of separate applications to the Ohio Power Siting Board.

On August 22, 2013, a public information meeting was held at the Carrollton High School, Fine Arts Room, located at 252 Third Street NE, Carrollton, Ohio 44615 from 6:00 P.M. to 8:00 P.M. By letter of December 20, 2013, the Ohio Power Siting Board notified Carroll County Energy LLC that its application for the proposed project had been certified as complete, and that the Board's Staff would be conducting a review of the application.

The Staff of the Ohio Power Siting Board is currently investigating the application and will file a written Staff Report for the application. The Staff will investigate whether the eight criteria of Section 4906.10(A), Revised Code have been met for the application. A local public hearing where the Board shall accept written or oral testimony from any person relating to the application will be held on Thursday, March 6, 2014 at 6:00 P.M. at Carrollton High School, Fine Arts Room, 252 Third Street NE, Carrollton, Ohio 44615. An adjudicatory hearing will commence on Thursday, March 13, 2014 at 10:00 A.M., 11th floor, Hearing Room 11-C, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. After considering the evidence at the hearings, the Board will issue a written decision.

A copy of the application has been sent to the Carroll County District Library and should be available for review. You may also call Jonathan Winslow, the project manager for Carroll County Energy at 617-456-2208 with any questions. Alternatively, you may call me at 614-464-5462.

Very truly yours,
