Re: Greenwich Windpark, Case No. 13-0990-EL-BGN

Mr. & Mrs. Zager,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the proposed Greenwich Windpark. Your comments will be docketed in the OPSB case file.

It is noted that you are in favor of the proposed project.

The Greenwich Windpark was deemed to be complete on February 19, 2014. The OPSB Staff will now conduct an investigation of the project. A Wind FAQ sheet is enclosed, which describes various criteria considered by the OPSB Staff in their Report of Investigation.

If you have any additional questions or concerns, please contact the OPSB at (866) 270-6772. Again, thank you for your continued interest in this case.

Very truly yours,

Kim Wissman, Executive Director  
Ohio Power Siting Board

Greenwich Windpark Huron Co. Ohio  
Subject: Letter of Support

Dear Sirs;

We are writing this letter to support the approval of the Greenwich Windpark Huron County Ohio. This project will be a valuable step towards the production of clean energy in Ohio that will be used in Ohio.

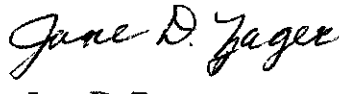

Huron County and especially the Greenwich area needs the economic benefits of this project. We feel that the benefits outweigh any inconvenience during construction and production of this power.

Due to the use of the latest technology in the placement of the wind turbines, there will be a minimum of disturbance to the neighbors. The studies show a minimum effect on nature. The location of the wind farm on the North-South continental divide will provide for an optimum use of the topography for wind concentration. All of this displays the excellent expertise of the Windlab personnel that leads to a successful project.

We highly recommend that you approve this Greenwich Windlab project.

Thank you for your consideration in this matter.
