Re: Biers Run – Hopetown – Delano 138 kV Transmission Line Project
Case No. 13-0429-EL-BTX

Ms. Kelley,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding American Electric Power Transmission Company's (AEP Transco) proposed Biers Run – Hopetown – Delano 138 kV Transmission Line Project. Your correspondence in regards to the project has been docketed in case number 13-0429-EL-BTX.

It is noted that you support the Alternate Route.

A local public hearing will be held in the case at a date scheduled by the Administrative Law Judge after the project is deemed to be complete. Information about this hearing will be published by the Applicant and available on the OPSB website at www.opsb.ohio.gov.

If you have any additional questions or concerns, please contact the OPSB at (866) 270-6772. Again, thank you for your continued interest in this case.

Very truly yours,

Kim Wissman, Executive Director
Ohio Power Siting Board

Re: Case # 13-0429-EL-BTX
(AEP 138 KV Transmission Line)

Dear Sirs:

I would like to voice my opposition to American Electric Power's plan to construct a 138,000 volt transmission line adjacent to my rear property line.

I understand that there is an alternate route and I would like to go on record in support of the alternate route. I would also like to testify at any future public hearing on this project.

There are several routes that this line could take that would not impact residential properties. Going across a farmer's cornfield is much preferred to running behind five residential homes.

I was never contacted by AEP about this proposed transmission line. This proposed high voltage transmission line will impact our lives, our property, and our property values, not to mention health concerns over these lines.

Please allow consumers a voice in this matter. Thank you for your time.

Sincerely,

Patricia A. Kelley
