Re: Biers Run – Hopetown – Delano 138 kV Transmission Line Project
Case No. 13-0429-EL-BTX

Mr. & Mrs. Smith,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding American Electric Power Transmission Company's (AEP Transco) proposed Biers Run – Hopetown – Delano 138 kV Transmission Line Project. Your correspondence in regards to the project has been docketed in case number 13-0429-EL-BTX.

It is noted that you support the Alternate Route.

A local public hearing will be held in the case at a date scheduled by the Administrative Law Judge after the project is deemed to be complete. Information about this hearing will be published by the Applicant and available on the OPSB website at www.opsb.ohio.gov.

If you have any additional questions or concerns, please contact the OPSB at (866) 270-6772. Again, thank you for your continued interest in this case.

Very truly yours,

Kim Wissman, Executive Director
Ohio Power Siting Board

RE: Case #13-0429-EL-BTX (AEP 138 KV Transmission Line)

Dear Board Members:

We are writing today to voice our opposition to American Electric Power's proposed plan to construct a 138,000 volt transmission line adjacent to our property line.

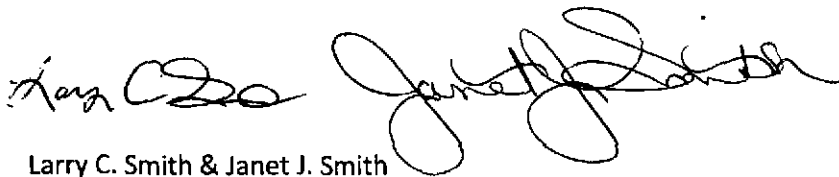

We have been made aware of an alternate route and would like it to go on record we are in support of the alternate route. The route going across a farmer's cornfield seems to be a much better route than running adjacent to residential homes.

AEP has not contacted us or our neighbors about the transmission line. This proposed line, would impact our property and its value. We also have serious concerns about the affect these power lines will on our family's health.

Please allow consumers a voice in this matter. We would like to testify at any future public hearings on this project.

Thank you for your consideration.

Sincerely,
