COMPLAINT DESCRIPTION:

I am writting this letter to protest my desire to see wind turbines in Logan and Hardin county. I have lived in Logan county for the past 24 years and love the country side and lake area. In fact I built a new home on Long Island 5 years ago because I love the beauty of the area. If these proposed wind turbines are allowed to be built that beauty will be forever gone, not to mention the value of my home will drop dramatically. I sat at my computer yesterday and watched a bald eagle soar over the lake for over an hour. I can't help but believe that the eagles along with ducks, geese, and the many varieties of herons will be at risk if the proposed turbines are allowed to be built. I didn't invest the money into building my home to have to have my views ruined by the turning of the turbines! This is a very concerning problem for the people that have decided to make this area their home. I see no benefit that Logan or Hardin county are going to receive with the placement of these ugly eyesores.
