Mr. Garlock,

Thank you for contacting the Ohio Power Siting Board (OPSB) regarding the proposed Scioto Ridge Wind Farm and associated transmission line and substation projects. Your correspondence in opposition to the project will be docketed in the public comments for case numbers 13-1177-EL-BGN, 13-1767-EL-BTX, and 13-1768-EL-BTX.

If you have any additional questions or concerns, please contact the OPSB at (866) 270-6772. Again, thank you for your interest in this case.

Sincerely,

Steve

money and the local governments will lose tax dollars as the property values fall. My belief is that this is nothing more than an exercise in profiteering with total disregard for the people and residents of the area that may be negatively impacted. I am a firm believer in renewable energy but not at the cost of established land owners and residents. Additionally, I don't believe that wind energy is the best form of renewable energy. Hydro-electric power generation is far more reliable and efficient. I believe that if the project is approved and the subsidies are paid that 10 years from now the wind turbines will be in disrepair and a "wind turbine junk yard" will be left behind. My wife and I oppose the establishment of the Scioto Ridge Wind Farm in the strongest terms possible.

Thank you. Jeff Garlock
