COMPLAINT DESCRIPTION:

This is a very sad situation that the Scioto Ridge Project has put land owners in. The company in England doesn't want them in their back yard. These turbines are huge. The view will so obstructed for us not to mention the people who live next door to them only a few feet away. There are so many of them, almost on top of each other. Investment of property values will also be affected, that means less money for the county. Please not in our back yard or for the sake of the birds and eagles. Thank you.
