

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of Vectren )  
Energy Delivery of Ohio, Inc. for Approval ) Case No. 14-242-GA-ATA  
of a Revision to its Unaccounted for Gas )  
Percentage in Tariff Sheet No. 54. )

FINDING AND ORDER

The Commission finds:

- (1) Vectren Energy Delivery of Ohio, Inc. (VEDO) is a public utility as defined in R.C. 4905.02 and, as such, is subject to the jurisdiction of this Commission.
- (2) On February 10, 2014, VEDO filed an application in this case docket seeking approval to revise the unaccounted for gas (UFG) percentage shown on VEDO's Tariff Sheet No. 54. The UFG percentage reflects the difference between the amount of gas brought into VEDO's distribution system and the amount of gas measured at customers' meters. Natural gas marketers supplying gas into VEDO's system must supply their customers' estimated usage, plus an additional amount to reflect the UFG percentage.
- (3) VEDO's Tariff Sheet No. 54 states that the UFG percentage "\*\*\*\*shall be adjusted periodically by Company, through updating of this Sheet No. 54 after approval by the Commission, to reflect any changes in the system unaccounted for percentage." VEDO's application seeks approval to change the UFG percentage from its current 1.1 percent to 0.9 percent. This adjustment is based on VEDO's weighted average UFG percentage over the four year period from September 2009 through August 2013. A worksheet demonstrating this calculation was attached to the application.
- (4) On February 25, 2014, VEDO filed an amended application. VEDO's amended application seeks approval to change the UFG percentage from its current 1.1 percent to 1.0 percent. This adjustment is based on discovery of an error in the previous calculations. The amended application does not involve an

increase in rates. A worksheet demonstrating this new calculation was attached to the amended application.

- (5) The Commission has reviewed the application and finds it to be reasonable and in the public interest and, therefore, it should be approved.

It is, therefore,

ORDERED, That VEDO's application, as amended, be approved and VEDO is authorized to adjust its UFG percentage from 1.1 percent to 1.0 percent. It is, further,

ORDERED, That VEDO is authorized to file four complete copies of tariffs, in final form, consistent with this Finding and Order. VEDO shall file one copy in this case docket and one copy in its TRF docket. The remaining two copies shall be designated for distribution to the Rates Division of the Commission's Utilities Department. It is, further,

ORDERED, That the effective date of the new tariffs shall be a date not earlier than April 1, 2014. It is, further,

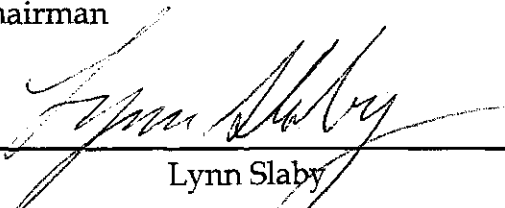

ORDERED, That nothing in this Finding and Order shall be binding upon this Commission in any future proceeding or investigation involving the justness or reasonableness of any rate, charge, rule, or regulation. It is, further,

ORDERED, That a copy of this Finding and Order be served upon all parties of record.
